Contents

Foreword	xv
Preface.....	xvii
Acknowledgments	xix
1. A Bed Penny Always Turns UP	1
2. A Bird In The Hand Is Worth Two In The Bush.....	2
3. A Chain Is As Strong As Its Weakest Link.....	3
4. A Fool & His Money Are Parted	4
5. A Good Husband Makes A Good Wife.....	5
6. A Good Husband Is Hard To Find.....	6
7. A Good Husband Is Hard To Find.....	7
8. A Good Payer Is Master Of Another's Purse	8
9. A Good Paymaster Never Wants Workmen	9
10. A Just War Is Better Than An Unjust Peace	10
11. A Little Learning Is A Dangerous Thing	11
12. A Man Is As Old As He Faces, A Woman As Old As She Looks.....	12
13. A Nod is as a Wink to a Blind Horse	13
14. A Still Tongue Makes A Wise Head	14
15. A Stitch In Time Saves Nine	15
16. A Watched Pot Never Boils	16
17. A Word To The Wise Is Enough.....	17

18. All Cats Are Grey In The Dark.....	18
19. Every Cloud Doesn't Bring Rain.....	19
20. All That Glitters Is Not Gold	20
21. All Things Are Difficult Before They Are Easy	21
22. All Truths Are Not To Be Told.....	22
23. Any Post In A Storm	23
24. Appearances Are Deceptive.....	24
25. As Soon As A Man Is Born He Begins To Die	25
26. Bad News Travels Fast	26
27. Barking Dogs Seldom Bite	27
28. Beauty Is In The Eye Of The Beholder	28
29. Beauty Is Only Skin Deep.....	29
30. Behind Every Successful Man Is A Woman	30
31. Better Safe Than Sorry	32
32. Better the Foot Slip than the Tongue.....	33
33. Better the Foot Slip than the Tongue	34
34. Beware of Silent Man & Still Water	35
35. Brides of Feather Flock Together.....	37
36. Boys Will Be Boys	38
37. Brevity Is The Soul Of Wit.....	40
38. Charity Begins At Home.....	42
39. Cleanliness Is Next To Godliness.....	43
40. Cold Hands & Warm Heart.....	44
41. Comparisons Are Odious	45
42. Count Your Blessing.....	47

43. Crime Doesn't Pay	48
44. Dead Men Tell No Tales.....	49
45. Dead Is A Remedy For All Ills.....	50
46. Death Keeps No Calendar.....	51
47. Death Pays All Debts.....	52
48. Discretion Is The Better Of Valor	53
49. Don't Bite The Hand That Feeds You.....	54
50. Don't Cross Of Your Bridges Before You Come To Them	55
51. Don't Put All Your Eggs Into One Basket.....	56
52. Don't Rock the Boat	57
53. Dumb Dogs Are Dangerous	59
54. Dying Men Speak True	61
55. Early to Bed and Early to Rise Makes a Man Healthy, Wealthy & Wise	62
56. Easy Come, Easy Go.....	63
57. Empty Vessels Make the Most Noise	64
58. Even A Worm Will Turn	65
59. Even The Pray Of An Ant Reaches To Heaven.....	66
60. Every Dog Has His Day	67
61. Everyman Has His Price	68
62. Everything Comes to Him Who Waits.....	70
63. Facts Are Stubborn Things	72
64. Faint Heart Never Won Fair Lady	73
65. Fair Exchange Is No Robbery.....	74
66. Familiarity Breeds Contempt.....	75

67. First Thing First.....	76
68. Fore Warned Is Fore Armed.....	77
69. Fortune Favours the Bold	78
70. Fortune Knocks Once at Every Man's Door	80
71. Garbage In, Garbage Out (GIGO)	81
72. Give A Thief Enough Rope And He'll Hang Himself	82
73. Give Credit Where Credit Is Due	83
74. Give the Devil His Due	84
75. Give & Take Is A Two Way Policy.....	85
76. Good Helps Those Who Help Themselves.....	87
77. God Moves In A Mysterious Way	88
78. Good Wine Needs No Bush	89
79. Graves Are Of All Sizes.....	90
80. Great Minds Think Alike.....	91
81. Great Oaks From Little Acorns Grow	92
82. Handsome Is As Handsome Does.....	93
83. He Teaches Ill, Who Teaches All	94
84. He That Complies Against His Wills Is of His Own Opinion Still.....	95
85. He That Lives by the Sword Shall Die by the Sword	96
86. He That Will Learn to Pray, Let Him Go to Sea.....	97
87. He That Wills The End Wills the Means.....	98
88. He Who Hesitates is Lost.....	99
89. He Who Laughs Last Laughs the Longest	100
90. He Who Pays the Piper Calls the Tune	101

91. He Who Sups With the Devil should have a Long Spoon	103
92. Health is Better than Wealth	104
93. Hell Has No Fury Like A Woman Scorned.....	105
94. Honesty Is The Best Policy	106
95. Hope Springs Eternal In The Human Breast.....	108
96. I Felt Sorry For Myself Because I Had No Shoes Until I Met A Man Who Has No Feet.....	109
97. If A Job Is Worth Doing It Worth Doing Well	110
98. If It Isn't Broke, Don't Fix It.....	111
99. If The Stone Fall Upon The Egg, Alas For The Egg! If The Egg Fall Upon The Stone, Alas For The Egg!.....	113
100. If You Can't Beat (Them) Or 'Em, Join (Them) Or 'Em	114
101. If You Pay Peanuts, You Get Monkey.....	115
102. If You Play With Fire, You Will Get Burned	116
103. If You Wish A Good Advice, Consult An Old Man.....	117
104. Ignorance Of The Law Is No Excuse	118
105. It Is The Best To Be On The Safe Side.....	119
106. It Was The Last Straw That Broke The Camel's Back ...	120
107. It's A Man's World	121
108. Jack Of All Trades, Master Of None.....	122
109. Keep Your Friends Close And Your Enemies Closer	123
110. Knowledge Is Power	124
111. Least Said Soonest Mended	125
112. Let Sleeping Dogs Lie	126
113. Let the Dead Bury the Dead	127

114. Life Is What You Make It	128
115. Lightning Never Strikes Twice in the Same Place.....	129
116. Live & Let Live.....	130
117. Look Before You Leap	131
118. Look Upon Death As A Going Home.....	132
119. Make Hay When the Sun Shines	133
120. Make Love Not War	134
121. Man Doesn't Live By Bread Alone.....	136
122. Man Proposes, God Disposes.....	138
123. Many A True Word Is Spoken In Jest	139
124. Many Hands Make Light Work (Flight Travel Back To Dhaka).....	140
125. Marry In Haste And Repent At Leisure (Flight Travel Back To Dhaka).....	141
126. Mighty Oaks From Little Acorns Grow (Flight Travel Back To Dhaka).....	142
127. Money Doesn't Grow On Trees (Flight Travel Back To Dhaka).....	143
128. Money Is A Good Servant, But A Bad Master (Flight Travel Back To Dhaka).....	144
129. Money Is Root Of All Evil (Flight Travel Back To Dhaka).....	145
130. Money Isn't Everything (Flight Travel Back To Dhaka)	146
131. Money Makes Money (Flight Travel Back To Dhaka)....	147
132. Money Talks (Flight Travel Back To Dhaka)	148
133. Nature Abhors A Vacuum (Flight Travel Back To Dhaka)...	149

134. Necessity is the mother of invention (flight travel back to dhaka).....	150
135. Neither A Borrower Nor A Lender Be (Flight Travel Back To Dhaka).....	151
136. Nepal: Life And Living	152
137. Nepalese Waterfall.....	153
138. Never Do Evil That Good May Come Of It	154
139. Never Speak Ill Of The Dead	155
140. Never Spur A Willing Horse	156
141. No Man Is An Island.....	157
142. No News Is Good News	158
143. No Pain, No Gain.....	159
144. No Reply Is The Best	160
145. None So Blind As Those Who Will Not See.....	161
146. None So Deaf As Those Who Will Not Hear.....	162
147. Nothing Is Certain But Death And Taxes.....	163
148. Nothing Is Impossible To A Willing Heart	164
149. Nothing So Certain as Death.....	165
150. Nothing Ventured, Nothing Gained	166
151. Oil and Water Don't Mix	167
152. Once Bitten, Twice Shy	168
153. One Good Turn Deserves Another	170
154. One Might As Well Be Hanged For A Sheep As For A Lamb	172
155. One Tongue Is Enough For A Woman.....	173

156. Opportunity Only Knocks Once	174
157. Opportunity Seldom Knocks Twice	175
158. Out Of Debt, Out Of Danger	176
159. Out Of Office, Out Of Danger	177
160. Out Of Sight, Out Of Mind.....	178
161. Patience Is A Virtue.....	179
162. Patience Surpasses Learning.....	180
163. Pay Before Hand Was Never Well Served.....	181
164. People Who Live In Glass Houses Shouldn't Throw Stone..	182
165. Poor men go to heaven as soon as rich	184
166. Possession Is Nine Points Of The Law	185
167. Practice Makes Perfect	186
168. Prevention Is Better Than Cure.....	187
169. Pride Comes Before A Fall ... 188170. Put The Pedal To The Metal	189
171. Quietness Is A Great Treasure.....	190
172. Rags To Rags In Three Generations.....	191
173. Revenge Is A Dish Best Served Cold	192
174. Revenge Is Sweet.....	193
175. Riches Have Wings.....	194
176. Rome Wasn't Build In A Day	195
177. Rules Are Made To Be Broken.....	196
178. Say Well Or Be Still	197
179. Scratch My Back And I'll Scratch Yours (Nepal)	199

180. Seeing Is Believing (Nepal).....	200
181. Share And Share Alike (Nepal)	201
182. Silence Is Golden (Nepal).....	202
183. Silence Means Consent (Nepal).....	203
184. Slow Help is no Help (Nepal)	205
185. Soon Learnt, Soon Forgotten (Nepal).....	206
186. Speech Is Silver, Silence Is Golden	207
187. Sticks & Stone May Break My Bones, But Words Will Never Hurt Me	209
188. Still Waters Run Deep	210
189. Strike While The Iron Is Not	211
190. Talk Of The Devil And He Is Bound To Appear	212
191. Tell Me Who You Go With And I'll Tell You Who You Are	214
192. The Best Advice Is Found On The Pillow.....	215
193. The Best Things In Life Are Free	216
194. The Darkest Hour Is Always Before Dawn.....	217
195. The Devil Can Cite Scripture For His Purpose.....	218

197. The Early Bird Catches The Worm	220
198. The End Justifies The Means	221
199. The Greater The Sinner, The Greater The Saint	222
200. The Nearer The Church, The Farther From God	223

Foreword

It gives me a great pleasure in introducing *The Essence of Life*, the first book of poetic expression by Professor M. Azizur Rahman, PhD (Vanderbilt University), and vice chancellor of Uttara University. As the title suggests, the book reflects his vast knowledge and experience gathered through his concerns with different levels of people in different cultures, societies as well as countries. He is not bound to any specific topic in the book of poetic expression: he has written on a variety of issues connecting the relationship between human life and living. The views that these poems express explicitly relate them to our everyday essence of life as well. The way the ideas are presented is also mentionable: the aphoristic presentation of the common gist of life, sometimes the proverbs explained altogether to express the poet's deep insight into human life.

Professor Rahman sometimes shared his ideas about the poems with me, and through our pleasant conversation, I found him to be a highly energetic as well as a poetic personality. In spite of all of his duties and responsibilities as an efficient administrator, he has been able to manage his time to some necessary extent to continue such writings of value.

Professor Faez M. Serajul Hoque
Advisor, Uttara University, and Professor,
Department of English

Preface

This book of poems, *The Essence of Life*, is an expression of my feelings toward life in all its essence. It is a kaleidoscopic view of life as we live in our day-to-day activities. The titles of the poems are taken from proverbs and aphorisms. My expression of these proverbs and aphorisms reflects how these affect our life. I sincerely hope that *The Essence of Life* will bring an immense pleasure to the reader. It will also broaden their minds and thoughts to what aspires from these sayings and proverbs. These aphorisms and proverbs touch the very core of our existence and make the essence of our life relatively more meaningful.

The selected poems in this book invite the readers into a new understanding of life. There may be controversies and obscurities, but it is hoped that the inner thoughts are acknowledged and appreciated by the reader. This book contains blank verse to express the philosophies of life related with the aphorisms and proverbs. The poems cover those aspects of life that we encounter every day and search the innermost depth of human relationships and further investigate their essence of association.

This first attempt is an easy and simple introduction to very difficult and complex interpretations of life.

Acknowledgments

Proverbs, aphorisms, and sayings all are the reflection of life expressed in a precise and concrete way. We use them every now and then and so often. I was always fascinated by them. Also, I am interested in seeing how they portray the very existence of different aspects of life. My writing of poems was very sudden. While I was once talking to the Advisor of Uttara University in Dhaka, Bangladesh, Professor Faez M. Serajul Hoque, he commented why I didn't write to express my thoughts and ideas through the poetic expression. Then, I thought about writing poems. I was further encouraged to write poems by my wife, Professor Eaysmin Ara Lekha. That was the beginning, and now I feel that I can never go back. The philosophies of these proverbs and aphorisms attract me immensely. I feel an urge to write. I maintain a busy schedule at Uttara University with academic and non-academic activities. It is only at the deep night that I can concentrate. I spent many sleepless nights in writing these poems. My wife was always an encouraging partner and companion, often remaining sleepless to accompany me.

I am especially grateful to Professor Faez M. Serajul Hoque, the former vice-chancellor of Islamic University in Kustia for being the first reader of my endeavors in poetry.

I appreciate the encouragement I received from Professor Haspia Bashirullah, chairperson of the department of English at Uttara University. Not only that, she and her team of teachers reviewed my poems sincerely by taking their valuable time. I also want to thank Mr. Asif Rahman, Mr. Muhammad Ali, Mr. Aminul Haque, and Mr. Ariful Islam.

Lastly, I want to express my heartfelt appreciation to Mr. Rakanuzzaman, assistant registrar (research and publication) at Uttara University, for his wholehearted assistance, including the editing and reviewing of my handwritten poems.

These poems are my first attempt to try to portray my innermost feelings about the philosophy expressed in these proverbs and aphorisms.

A Bad Penny Always Turns Up

Relative to non-human, humans are expected to be relatively good or better.

The expectation is theoretically an exception, which is different from real matter.

People are not equally good in the social and family life including its member.

Some people are the better and some are really worse than the other.

Bad people can be liars, impolite, miscreants, burglars and maybe smugglers.

Bad people are about bad behavior and have limited access to their unacceptable nature.

People like to stay away from bad people by taking all of the possible measures.

Bad people disregard your preferences and like having your company for more.

Bad people unnecessarily disturb you by poking their nose into your matters.

Even if they understand your avoidance, bad people turn up anywhere, here and there.

I know you are shy, but tell her that you love to be left alone with your own affairs.

Or, you are recently busy with your private matter by not disclosing it to another.

Bad people have a bad habit of showing up or returning to your architecture.

Try to stay away from some bad people in society at any cost or measure.

You will be free of tension by not seeing the harmful ones around you anymore.

Minimize the discomfort by not letting a bad penny return to our atmosphere.

A Bird In The Hand Is Worth Two In The Bush

Reality and certainty are better than
something imaginary and uncertainty.
It's better to have one of something for certainty
relative to two of uncertainty.
Without the financial ability, the business proposal
is not acceptable to bureaucracy.
Having no funds in hand, planning your business
with uncertainty is an abnormality.
Don't try to be a one-sided lover without making
sure of her availability.
Don't expect a good job without getting
a higher degree of quality.
Don't expect to build a Taj Mahal on your
wife's graveyard having such inability.
You will never be appreciated for your plan
of activity by not seeing its possibility.
Dreaming something without making sure of it
will add to your anxiety.
Something in hand is better than nothing in hand
to plan your longevity.

A Chain Is As Strong as Its Weakest Link

A chain is made of a number of links joined
together to furnish its strength.
All the links of a chain are neither equally strong
nor are of equivalent strength.
Some links are relatively stronger than the others
or the comparable weak link.
The weakest link is good enough to get it torn
regardless of how it is strong.
A single stick of a firebox is good enough to fire
a house and leave it blank.
Leaving the weak part aside, measuring the strong
part is simply wrong.
The strength of a machine may be estimated by
its least strong parts.
Rank of a bank is estimated by its lending
and rate of loan recovery in action.
Defaults on a few major loans are good enough
for a bankruptcy, even infraction.
A single gangster in a company is good enough
for a company to flunk.
Committing a single murder is good enough
or you legally to be hung.
Once your action hampers your reputation,
you are then evaluated as wrong.
Junk food is good enough to make your health
and longevity shrunk.
One little hole in your water tank is good enough
to make it blank.
If you don't know how to swim, it is easy
for you to get easily sunk.
Don't try to be a gangster, which may lead you
to get easily hung.
Therefore, the strength of the chain is estimated
by its weakest link.

A Fool and His Money Are Parted

Money does not stay with a fool if he does not
respect his hard-earned money.
Your social mates or members will fly around you
if your money is a honey.
You would be well respected anywhere
for your reputation socially.
Your friends and women will respect you highly
as well as wholeheartedly.
Riches can conduct their social events relatively
more fruitfully and frequently.
As you learn from your experience, money
cannot be earned so easily.
You have to spend the money economically
with cost minimizing possibility.
If you don't know how to spend, you will be left
with the financial status of poverty.
Let the money stay with your life and living
or with a status of durability.
Your wife, children, and relatives would like
to see your affluence heartedly.
If you are spending money lavishly,
you will become poor and invite poverty.
Try to be smart in spending so as to keep
your life and living with all abilities.

A Good Husband Makes a Good Wife

To be a good husband, you have to make
your conjugal partner happy.
If you can make her happy, you will not feel
at home for lack of nursery.
How to make her happy may also be
described dimensionally.
She must understand your love and affection
for her existence in reality.
The common problem with which women suffer
is the lack of security.
The woman would like to ensure her security
with your life perpetually.
The state of physical and mental health is needed
along with earning ability.
Your image and social status will work as her assets
in life to be happy.
Your love is a must for her to rear and bear
the children with responsibility.
She must have a confidence in your love and
affection to make her happy.
Advise her that love is a two-way road for both
of you to be long-life happy.
The couple has to be good at making
the family dedicatedly happy.

A Good Husband Is Hard To Find

Every man is not good or all men are not
equally good or better.
It is more of a problem among women relative
to their male partners.
It is not very easy for women to find suitable
conjugal partners.
It matters a lot to a lady if her male partner
is solvent or poor.
Women are married to their male partners
of similar social layer.
Normally, men are income earners and their
staying at home is rare.
Men are easily fallen with emotion for other
women caught in their mirror.
Women stay at home to take care of children
or remain closed with doors.
Women like their male partners to have faith
in God and love and care for them.
Some men like to poke their noses into
other women's personal matters.
Women are worried if their husbands become
dreamers for others.
If the men are good, women are not worried
to keep their men nearer.
Men are less than good or better because
of their earnings and related grammar.
Sometimes, women are worried for nothing
and exceptionally or merely shouter.
In many more cases, it is not easy for women
to find suitable partners.

A Good Name Is Better Than Riches

Mandela, Marx, Mao-Zedong, and Yunus are
better than affluent ones.
Riches are asked to pay taxes and enrich
government to operate national activities.
A surplus income of tax revenue is spent for
the poor to alleviate their poverties.
Equitable distribution of income of eradicating
poverty is financed by the riches.
A good name is earned by the discovery of ideas
and its implementations.
So, a good name and fame are better than
simply the material affluence.
Good name and fame have been living
with us with perpetuities.
Emperor Shahjahan has still been living for
his invention of the Taj Mahal.
Good people doing more for others than their
fame are more important than affluence.
Good names can be scientists, researchers,
politicians, state leaders, and others.
Riches are not expected to be selfless, good,
or better than good names.
To many, good men can't be richer as t
hey spend a lot for the powerless.
Good men lie above the richest in terms
of contributions to human beings.
We recall the good men for their contributions
throughout the generations.
Compared to material contribution,
non-material ones benefit more human beings.
A good man and a good reputation are worth
more than aid through dollars or euros.

A Good Payer Is Master of Another's Purse

Your willingness and ability to repay as committed
is a social achievement.
The lender will survey on your historical ability
or the capacity of repayment.
If you are known to always repay exactly as promised,
good is your assessment.
With such a positive assessment, you are welcome
for a new loan agreement.
To help enter the borrowing market,
your repayment ability is an ointment.
The banker is searching for such repay master
and looking for your appointment.
If you are a good repay master, it will
increase your borrowing empowerment.
Your good will for repayment is known
to lend by social announcement.
To do any business, you will enjoy the
availability of the loan arrangement.
Social reputation and repayment capacity
help you to earn achievements.
You have earned the borrowing for
your reputation, repayment, and commitment.

A Good Paymaster Never Wants Workmen

Payment ability, reputation, good work, and
workers are related to each other.

Payment ability increases productivity and the
ability of the worker.

The efficient management helps the people
work and perform better.

The smart firm is able to perform better
with minimum workers.

The marginal productivity of workers will be
higher than the one of the earliest.

Higher productivity will induce higher payment
to the workers.

Higher payment will attract more people
to come and work for it as it desires.

The above such company will never have
a shortage of workers.

This would be a highly reputed company that will
not shatter from a shortage of working players.

Efficiency and productivity are important
to smartly operate.

Additional importance is the industrial relation
between employees and employer.

The firm doesn't fall short of workers if
it is a good paymaster.

A Just War Is Better Than An Unjust Peace

Fighting between countries takes place for
a good cause or reason.

In an unjust or unfair deal between countries,
what is not expected is no-fighting situation.

Days of occupying some portion of another
country furtively are gone.

One country can't influence the other and its people
with an intention to govern.

Illegal invasion must be faced with a fighting action.
Intention of the neighboring one is never acceptable
if it tries to make there a fraction.

People help their government army to fight to
maintain its power of sovereign.

A fight goes on between countries until they
agree for a fair peace to maintain.

Unjust or unfair means taken against a country
deserve to face an action.

Most or many traditional fights take place
due to difference in faith or religion.

In any fighting game, it is never known who
is going to win.

Still then, the fight will take place against
any unjust action.

Unfair action by a country deserves to face
a fighting reaction.

Fighting of any kind or reason is for a losing concern.

It is better not to create an unjust or unfair
situation with any country.

Better for both the countries a better
understanding is to maintain.

Finally, any unfair or unjust of a country is faced
by war action in turn.

Both parties lose a lot in the fight regardless
of who deserves to win.

A Little Learning Is A Dangerous Thing

If you are willing to learn something,
try to learn it for a total.
If you half-learn something, it is better
for you not to learn it at all.
If you want to learn agriculture, learn its input,
output, and their relation.
You must learn the periodical weather for
making the annual farm plan.
A physiotherapist must know all about
the health structure relating to physical.
You can't expect a good flavor of humor
with a lack of sense of an animal.
Without studying the history, how do you
know anything related to ancestral?
You can't be a good physician without
learning the system of anatomical.
Without learning politics, your
recommendation may face an event of agitation.
Without full knowledge, your argument may be
reacted to as illogical.
Without knowledge, sense of your action
may relate to coward or illogical.
The most experienced one can be promoted
to a position of a real admiral.
Only your just or logical comments will be
taken as additional.
Your educated proposal may be as if it is
acceptable and actionable.
Without your full knowledge, you remain
far away from something actionable.
Action based on little learning may be dangerous
or even accidental.

A Man Is as Old as He Faces, A Woman as Old as She Looks

According to somewhat informal saying,
men do age better than women.
Men suffer the aging problem rather slowly
compared to their women.
To further qualify the above saying, men
do age better than women.
Cocks look better than hens at any age
of the phylum of chicken.
Weight and facial wrinkles required
relatively more vigilance for women.
Both genders suffer from aging problems,
but the same comes rather slowly to men.
In addition, women are more nervous
about the aging problem compared to men.
Beauty parlors are growing relatively fast
to take care of aging services for women.
There is relatively more aging of women
compared to their counterparts of men.
Physical and psychological matters are
related to aging for both men and women.
Aging is more a cause of depression for women
compared to their men.
Compared to women, men really forget
their aging before anybody reminds them.
As old as he feels is a briefing on the aging
concerns of a man.
As old as she looks is precisely defined
as the aging of a woman.

A Nod Is as a Wink to a Blind Horse

A small hint is enough to convey our
message, meaningful to many.
It is not always necessary to say what we
intend to do explicitly.
Blind animals and humans are intelligent
enough to understand the hint implicitly.
The horses are brought up to listen and
understand the small hint constantly.
The instructors save their time by advising
something briefly and tactfully.
In life, we can explain the little hearing
for its broad application possibly.
We know from experience how to get out
of small talking actually.
People are rational and think alike
and follow the meaning inherently.
We don't need to ask the informer
to tell everything explicitly and boundfully.
We are rational enough to think and understand
all from a hint undoubtedly.
In most of our interaction, a little hint is
understood and reacted actively.
Most of the hints we are able to understand
lastly and eventually.
If people behave irrationally and talkatively,
they suffer addictively.
However, those persons may be tentatively
waived for their abnormality.
A small hint is enough to convey the message, both
implicitly and explicitly.

A Still Tongue Makes A Wise Head

A tongue harms us by creating enemies and
by eating butter and sugar.
Some talk much, and some talk less and prefer
to listen by their nature.
If you keep talking, you are disseminating
yourself to the others.
With a still tongue, you are benefited by
listening to put in your drawer.
By talking much you are making the others'
heads wise or helping the others.
You are acquiring knowledge by listening
with your only ears.
You are badly reputed as being a talkative
one relative to the others.
By talking much you will be exploring
your own grammar.
You must be alert to how the other value
the talker as a denominator.
Everybody likes to deliver knowledge
to a gathering near there.
You are expected to respect the others by
giving them the discussion floor.
To facilitate the others' delivery helps
them participate by opening their door.
A good justice listens more to judge the
facts and figure as a decision maker.
Listening to others will add to your knowledge
to make you super or superior.
Don't create enemies for you by
talking much and irritating the others.
Listening to others will help you gather
knowledge and make you wise or wiser.

A Stitch In Time Saves Nine

As soon as it is damaged, get it ready immediately
for a necessary repair.
If you are alert to do it soon, this is good enough
for a job of small repair.
Otherwise, you have a bigger and more expensive
job to perform later.
Do repair it now with a single stitch, which
might need more stitches thereafter.
Doing anything sooner will help you keep
things done with less error.
Being late in doing the stitching job will keep
increasing the wear and tear.
Doing things timely will help you define as
smart relative to the other.
If you do things in a timely fashion you are
considered a time saver.
Later you might be encircled with complicated
problems in a quarter or a year.
In this inflationary stage, it is getting expensive
to hire the helper.
Doing things timely will help us to do all kinds
of needed jobs of ours.
Do your simple job for today, as you may
not find the good operator later.
Arrange to do the drainage work in the dry
season as a good city mayor.
Along the growth, our next year's order
would be more expensive than this year's.
Gardening work should be accomplished
in the dry season known to the gardener.
Get your damaged structure revived immediately
by a cheap repair sooner.

A Watched Pot Never Boils

Anything that we wait for with eager attention
seems to take a long time.
If you keep watching the heating water until it
boils, it seems to take an overtime.
Waiting for someone to come or a phone to ring
takes an inordinate time.
Waiting for a letter to come creates a suspicion
in the mind for it not to come.
Minimum waiting is a matter of tiring and
amounting to the maximum.
Waiting to see somebody is also accompanied
by seeing him in the album.
Mom is less tired to wait for her two boys,
namely Ram and Sham.
Let's phone again to see when she
can be able to physically arrive and come.
Probably, my guests are in an acute problem
with an unexpected road jam.
My mom used to wait long for my letters to
come from my US home.
My wife waits for phone calls from her boys
in the UK education forum.
Waiting for her boys is never tiring for her
and for all the moms.
Finally, she took me to see them in London,
where I wrote this poem.
After a long wait, I see their mom with
the happiness of musical rhythm.
A pot under watch takes more time to boil,
as I can see with my madam.

A Word to the Wise Is Enough

A brief warning or explanation is enough for
an intelligent person.

Intellectuals are smart to quickly respond to
others with necessary action.

Intellectuals are wise to perform responsibilities,
which are needless to mention.

The smart grasp the most from their bosses
in a single session.

Intellectuals are good to be aware with
all kinds of modern communications.

The smart are relatively more cautious,
as can be gazed from their motion.

Expected from the smart are enough
responses and positive reactions.

The smart ones are also provided with
good educations and training.

Wise people do not waste a lot of time
to understand the dictation.

Wise people are smart in life and in performing
most of the functions.

The wise are careful in taking precautions in
their work and dictations.

The wise are good to produce output
through efficient production.

The wise are good to be conceived with
total ideas in summation.

More for the wise, it is better for them to do
the job in its expected fashion.

A single word is good enough for the
wise to furnish production.

All Cats Are Grey in the Dark

All cats are grey in the dark; what do you do
with their beauty?

All cats are of different color; some look more
attractive in their beauty.

Even in reality, cats of all colors have their
own and independent beauty.

In some environments, all cats are equal
in their appearance and beauty.

Looking beauty doesn't really matter; what
matters is your humanity.

What matters is if you are a worker with
knowledge of productivity.

If you are a good manager, you can do
everything efficiently.

On the job, you have to work dedicatedly,
attentively, and with loyalty.

As a student, you have to study hard to pass
the exam successfully.

As an engineer, you may construct any
building with quality and stability.

As a physician, you may treat the patient
with the best attention and carefully.

If you teach, do this devotedly so as to
help acquire knowledge and ability.

Acquire knowledge and experience
attentively to increase your productivity.

Forget about your appearance, which
can't furnish anything meaningfully.

All that matters is your ability to furnish
things or duties with responsibility.

Every Cloud Doesn't Bring Rain

There are many clouds in the sky, each of
which doesn't bring the rain.
We don't judge things by their beauty and
appearance, as these don't help gain.
Many invalid things exist whose mere
appearances are pain instead of a gain.
Only those clouds that bring rainfall for us
are necessarily called the main.
People cannot contribute to the world
who are merely addicted to wine.
People who don't work productively are
social burdens of their job in the vein.
Most of the time, we are not well aware of
the working capacity of our brain.
Rules and regulations are constraints to us
if they add a significant restrain.
If it does not get started, no matter how
it is a good looking train.
The East Asian's hard work is pulling its
economy up like a crane.
Along with Asian tigers, Malaysia's
economy is in process to gain.
Bangladesh starts to get value added
from its ship-breaking in marine.
Let's shift the traditional technology
to the productive ones to entertain.
Let's encourage everyone to be in
working mode for their benefit to regain.

All That Glitters Is Not Gold

It is natural that all beauty is not good enough
on duty.
An attractive exterior of something may not
be a good indicator in reality.
Looking good does not ensure that the machine
is good in acting.
The sweetener is a sugar-without-sugar, though
it tastes very sweet.
Sweetener is discovered for consumption
of patients with diabetes.
For a good family manager, pretty doesn't
indicate her ability.
Beauty may or may not be accompanied by
any kind of creativity.
Unnecessarily a good look does not mean
or us necessity.
Positively associated are quality and
productivity to define an ability.
A handsome bride may not be able to
accomplish a household necessity.
A good performance once in a while
does not indicate your ability.
We employ handsome and pretty ones
to free us from any anxiety.
“All that glitters is not gold” has to be
kept in mind for the sake of reality.
At the least being gold is better than
any other kinds of assets and property.
A selection based on glittering only may
cause you to feel guilty.

All Things Are Difficult Before They Are Easy

Many things seem to be difficult to do before
making them easy.
After we learn about how to do it, things seem
to be very easy.
God has given us the ability to learn no matter
how it is messy.
Before we learn about how to do it, making
it seems to be lousy.
We are scared of getting something unknown
with a fear of teasing.
If we know how to do it properly, many messy
works can be made fancy.
Don't get out frequently for eating outside
and playing house.
Spend your time of value in making things
possibly easy.
Doing things may help you grow interest and
keep you busy and touchy.
If you don't know how to search it, the Internet
is waiting for your browsy.
In addition, search through the Internet in
response to your enquiry.
Without any interest, don't do it, as you might
feel sleepy and dizzy.
Work is bad and not something tasteful if
it is sweet or cheesy.
Before we learn anything, everything appears
before us with difficulty.
To learn things thoroughly, give time to the
learning process with patience.
You may come out with a success that difficult
things become very easy.

All Truths Are Not to Be Told

Objective of life and living is to increase or
maximize happiness.

Disclosing some unpleasant truth will be
decreasing our happiness.

Without harming anybody, hiding some
truth may be good for happiness.

Let's not disclose some truths that might
decrease someone's happiness.

Some truths are better left private to
maintain happiness.

Why should I repeat something if it does
not necessitate?

To repeat some truth for the sake of truth
is not always a necessity.

If possible, let's discount an unpleasant part
of any true speeches.

In the court, it is necessary to disclose the truth
for a fair assessment.

Otherwise, there may be no gain in always
disclosing the truthfulness.

Nobody would like to harm the other
by disclosing privacy.

Let's go with a norm that for nothing
we try to hide any truthfulness.

Any Post in a Storm

Humans are scared of becoming victims of the storm and its harm.

In any storm, people may look for a safely and secured dorm.

People look for a dorm of any kind, even an open shed at any term.

For a safe shelter, people don't care about filling in any formal form.

“Necessity knows no law” is also applicable for the victims of any storm.

Any place is quite okay to take shelter for you, including with your mom.

You are secured in a storm, no matter how you are equipped with your arm.

Once you are in such a post, you may not care of its food quality or its germ.

You are there even it doesn't have a safety room or shelter at a farm or firm.

You may not care if the place of shelter in danger is cold or warm.

You are at a loss so as to what to do in danger of an instant storm.

With her parents dead, the child would address her in-laws as Dad or Mom.

Beggars do not have any dieting choices, even they do not meet nutritious form.

In an emergency, we don't care about the ability of the host to perform.

Victims of the storm have no self-sustaining hopes and arms.

Beggars have no choice and “necessity knows no law” are the victims in a storm.

Appearances Are Deceptive

Appearance is proved as the first letter
of recommendation.
Appearance can't be taken as a Bible
and its proposition.
The way someone looks may give us a
wrong impression.
To evaluate somebody, his looking can't
be a good direction.
Appearance can't be a comprehensive
source of prediction.
More than his appearance is needed
to assume an evaluation.
To evaluate somebody, we need to
begin with an introduction.
Someone's ability is detected if she
is a performer in operation.
After learning practicability, it is
easy to make one's rationalization.
Clouds' appearances can't be enough
for the rain as an expectation.
Assumption made based on appearance
may lead us to demoralization.
Without any aggregation, we can't decide
on somebody's naturalization.
Promotion of some employed requires
detailed information.
Individual abilities are devaluated and to be
taken into consideration.
Appearance can't guarantee to precisely
give the idea of homogenization.

As Soon as a Man Is Born He Begins to Die

The man is mortal with an undesired truth
of mortality.
Between people, mortality does not have
any partiality.
By regularity, you can keep your health
better and increase longevity.
But you don't have any full stop on your way
to mortality.
The process of dying starts as soon as we are
born and is the mortality.
The age decreases from total allocation
against our desirability.
We begin to die at birth as the truth for a totality.
The mortality is not related to humans'
and animals' longevity.
We have to die regardless of the degree
of health and ability.
Nobody would be excused from death regardless
health's affectivity.
For the next generation, we create facilities
of happiness and utility.
It is better to maximize our activity to serve
the generation and their utility.
Our normality will not help us to compromise
with age or mortality.
Our creativity will help us as well as the
generation's utility.
We are born to die with an undesired truth
of mortality.

Bad News Travels Fast

People convey bad news relatively more quickly.
They convey good news rather relatively
more slowly.

Bad news about death, decedents, and
crime travel horribly.

Good news like passing the exam and getting
a job travel more lately.

No news is good news and is received slowly.

Bad news is received quickly though you
are reacting negatively.

Good news is not thought to be deviated
and reacted to positively.

People listen to bad news actively
and attentively.

We listen to the good news sometimes
rather accidentally.

We like to listen to bad news curiously
and believe blindly.

We don't waste our time by listening long
to good news.

Good news is good enough to convey both
briefly and precisely.

We pay attention to bad news cautiously
and curiously.

Bad news is considered to have relatively
mere affectivity.

Good news is not thought to have more than
the moderate affectivity.

Bad news moves fast, as its impact is
taken aggressively.

Barking Dogs Seldom Bite

Barking dogs are relatively found to bite in
rare occasion.
People threatening you are rarely found to
take an action.
If you listen to the threats around,
you suffer mere tension.
Recall that verbal threats are merely of a social
or cultural tradition.
You can, however, take a mere precaution
for the situation.
In society, there are a lot of social disturbances
with its creation.
You may not find any effective threats at
all as the summation.
For a threat, you don't make preparations
for a reaction except precaution.
Versions of the threat vary from zero to infinity
in action and reaction.
You will know which one to take rather
seriously for a real reaction.
However, nobody asks you not to take any
threats with no precaution.
In response to a normal threat, don't waste
your time on a discussion.
You know when, why, and how to
have a meeting discussion.
For each and every threat, you do not
even need to mention.
A mere separation from a bad person
may help your threat to ration.
Barking dogs and a mere threat rarely take any action.

Beauty Is In the Eye of the Beholder

Different people see beauty differently in their
individual entity.

What one person finds as beauty may not
appeal to another in his such duty.

If you love yourself before you love the other
it is your beauty.

If you love your family, it is more of your
duty and responsibility.

If you love the other woman more than your wife,
isn't it dirty?

Love your wife heartedly; she will better bear
and rear the children for guaranteed.

Beauty is found in terms of value and humanity
as the long-life warranty.

If you are conscious about life and living norms,
your beauty is a surety.

If you care about family and society, you are
appreciated in the community.

If you take care of everything as expected, a bright
future is your probability.

Priority of your family and friends
estimates your sensitivity.

Beauty differs between views of a different
individual's personality.

Brevity of beauty is given by a common norm,
value, and its intensity.

People view beauty in terms of different elasticity
with respect to duty.

Beyond everything, some common views
estimate beauty as finality.

Beauty Is Only Skin Deep

Beauty in looking and appearance is a kind
of rough estimator.
A pleasing exterior is not a guide to an
individual's interior character.
A person in the office is not estimated by
how she looks as worker.
She should be estimated by her duty and
responsibility if she is a performer.
A housewife is pretty, but it doesn't really
The real beauty of her is measured if she can
perform the household affairs.
A family head that is handsome means nothing
to guess if he is good in family affairs.
A student looking good is no good if he
cannot obtain adequate scores.
A businessman that is tall or handsome doesn't
matter if it's a loss he is to incur.
A good-looking teacher is no good if
students don't understand his delivery.
If she is very irritating, her looking good
doesn't serve as her estimator.
If she irritates everybody around her, she is
never a good facilitator.
As her intention is painful, a pleasing exterior
is worthless to her.
If she is a pain instead of a pleasure, I give a damn
to her pleasing exterior.
Beauty or pretty is not really something to estimate
if she can perform.

Behind Every Successful Man Is A Woman

Compared to women, men are seen as
relatively more success.
Luck, talent, and hard work are combined
factors of men's success.
Everybody, including women, look for the
addresses of men of success.
People do not look for somebody who
suffers from distress.
People who can't move up socially are
normally blamed for their carelessness.
A significant contribution to men's success
is women's bliss.
Women's love and inspiration are lifting factors
of men and their success.
Behind is the woman in the man's life and living
with a grand success.

We can't be socially so successful without
women or in their absence.
Without women, our life could have been
a full of messes and distress.
We owe the woman for the receipt of all
kinds of gain and success.
Women are powerful enough to keep us
continuously active and restless.
Unlucky fellows with no inspiration
from women are less successful.
Without women and their love and affection,
we are almost powerless.
In most of the cases, women inspire us in
creating novel laureates.
Women also help us to maintain our actions
by decreasing our stress.
People with relatively more success
enjoy more love and affairs.
Behind every successful man is a woman,
actress, and her address.

Better Safe than Sorry

In a dangerous situation, it is better to be safe
than to be sorry.

Or, it is better to stay safe than to have an
accident and be sorry.

In many events in life, what cannot be excused
is to say sorry.

It is better to remain safe before we need to
be sorry.

Before your daughter gets married, make sure
if there is any claim for dowry.

It is better to keep you free before you are in
a situation of fear.

At the moment of storms and rain, takes shelter
under a tree.

Drive carefully if you see that a vehicle coming
to cross is a lorry.

You are unable to commit an accident and
consequences to carry.

How she is as a life partner is to be thought
twice before you marry.

Before you are involved in anything, acquire
the response by inquiry.

If you don't know how to save, you make
an unnecessary story.

Work and do things as carefully as possible
before you become a hurry.

The upper limit of an accident is a death
when people can't save from a hurry.

Don't make an unnecessary story; it is better
to be safe than to be sorry.

Better the Foot Slip Than the Tongue

It is better to take a bold step in walking than
say the wrong thing in talking.
We can do harm by saying mistakenly
something in gossiping.
Saying something abnormal is sometimes
difficult for understanding.
It is better to have a foot-slip than a tongue-slip
in talking.
We are not very careful in talking as much as
we are in walking.
It is safe if we take care in working
without gossiping.
We know that fat-free sugarless foods are
good enough for dieting.
There is a speed limit for elderly for
their race and running.
In this modern era, those days are gone
for non-nuclear fighting.
Talkative people are not appreciated and
we don't go to their hiring.
Talkative people are not daring, but are
vulnerable to risk-taking.
Talkative people are not smart in gearing,
but take risk of firing.
You can't get it back once you say something,
and take it as a warning.
You are good in looking, but you do not
match in cooking.
Keep in mind that the tongue-slip is worse
than the foot-slip for worrying.

Better Untaught than Ill-Taught

It is better to remain untaught than to
be badly taught.
Tell a baby not to touch the fire as she
will get burnt.
If you ask somebody to go slow, she might
miss the train.
If you get involved in problems you will
lose your respect.
Teach us how to know the difference
between correct and incorrect.
If you teach, teach like her mother instead
of being an aunt.
If you train a driver, tell her how she ought
not to have a dent.
We must learn correctly how to use lemons
to make lemonade.
Let's learn exactly what is the difference
between dorm and dormant.
Try to learn the difference between a warning
and a warrant.
As a teacher, teach only those things for which
you are correct.
As a student, try to learn those in the
version of which is correct.
Have training about hunting before
you go for a hunt.
You will fail the exam if you can't pick up
class delivery and its content.
To incorrectly reply, you will not
get through the interview for employment.
For success in life, try to talk and do
things as correctly as possible.

Beware of Silent Man and Still Waters

A large expanse of deep water that is still
is often dangerous.
We should be careful about still water
of depth and its large expanse.
We should also be careful of a person
who doesn't talk much.
It automatically helps the others when
good people talk much.
We don't learn anything by listening
to the bad people not talking much.
You are not comfortable with talkative
people and their attendance.
You prefer the talkative ones' absence
and not taking their reference.
People not talking much are scared
and frequently defined as a nuisance.
We wish we could block their appearance
by Facebook's fence.
About the people not talking much,
we don't have anything of their sense.
We are not comfortable with the presence
of their inhabitanace.
It is also not possible to detect liking
of the silent man's influence.
People not talking good about you can't
be your good friend.
Toward men not talking enough, we
have a feeling of social abundance.
We are not comfortable with people not talking
and their presence.
Let's stay away from silent people to avoid

Reality and certainty are better than
something imaginary and uncertainty.
It's better to have one of something for certainty
relative to two of uncertainty.
Without the financial ability, the business proposal
is not acceptable to bureaucracy.
Having no funds in hand, planning your business
with uncertainty is an abnormality.
Don't try to be a one-sided lover without making
sure of her availability.
Don't expect a good job without getting
a higher degree of quality.
Don't expect to build a Taj Mahal on your
wife's graveyard having such inability.
You will never be appreciated for your plan
of activity by not seeing its possibility.
Dreaming something without making sure of it
will add to your anxiety.
Something in hand is better than nothing in hand
to plan your longevity. their shadowy offence.

Birds of Feather A Flock Together

It is natural to see that birds of feather flock together.
Birds of the same type are defined here
as “birds of feather.”
Since the primitive age, human beings
stay separately together.
Humans stay separately from animals
as if they are brothers.
A friendship is made between people
of similar or the same features.
A family is a place of living for a
father, mother, brother, and sister.
Economic status is about the same
between the closest neighbors.
It is different from the tenant or
the owner with their similar behavior.
Fixing terms of reference on the job
and employers are about the same.
Employees are grouped together as
if they are as similar as the claimer.
Muslim with Muslim and Christian
with Christian flock together.
In Chinatown abroad, the Chinese
take place in similar business centres.
Age cohorts behave similarly,
which are different from one another.
Societal sections of people of similar
characteristics are the good merger.
Brightness of future is about the same
for people of the same character.
Marriage takes place socially between
the two equally smart partners.
For about the whole life and living, people
of the same nature live together.

Boys Will Be Boys

“Boys are boys” sound humorous and is used
to excuse male behavior.

Male behavior refers to that of boys and
adult men and their merger.

Boys are usually considered to be relatively
better or good performers.

Boys are smart relative to their counterparts
of girl performers.

Girls’ behavior refers to those of adult females
and their nature.

The source of men’s behavior is the
environmental factor and the neighbor.

Men are normally more aggressive in dealing
with social matters.

Men play a more decisive role to be
accommodative as the social settler.

Men are also considered the better performer
as well as income earner.

It is men who take the prime role for the
sovereignty by fighting the war.

It is the male police to depend on
implementing the strict law and order.
A strong judiciary system is expected
from the male justice and lawyer.
Women are the best source of inspiration
to upgrade the men as performers.
Women are behind the men for their
inspiration as the global role players.
In many more things, our brothers are
relatively more helpful than our sisters.
For quite some logical reasons, men are
the head of any family and its affairs.
In terms of creation, what play the
main role are man-made creatures.
Human society is to some extent
biased to relatively favor the men more.
In the hidden sense of biasness, “boys are boys”
is simply the humor.
However, don’t take it too far so as not to
be a gender discriminator.

Brevity Is the Soul of Wit

The art of humorous speaking is to use as
few words as possible.

The brevity is positively associated with
your humorous ability.

With a long detail, the achievement of
humor is not possible.

It is a more humorous if you can express it
as briefly as possible.

If you speak a half of something, the rest
of it is possibly assumable.

To maximize joy and laughter with humor,
you need to be factable.

To the listener, the unspoken half of humor
has to be germinatable.

It is more of humor if it is exciting to
many to be reactionable.

It is not a humor, understanding of which
requires to be testable.

To make humor, a psychic preparation
makes you capable.

For good humor, the detail of the brevity
has to be assumable.
In response to your humor if you cannot
cause a laugh, it is terrible.
If your humor is really good, it would
be a permanently endorsable.
To make a fair judgment if you are good,
a good humor is favorable.
For your humor, a small and homogeneous
group of friends is preferable.
As a humorous man, your acquaintance
with friends would be durable.
To make humor, your blame for not
talking much is curable.
Once you are humorous, most of your
expressions are less reactionable.
Through the brevity as the soul of wit,
your personality is incredible.
The above characters will help you relax
and make the business workable.

Charity Begins At Home

Charity is the voluntary aid to the powerless
for their inability.
In earnings, all the family members are not
assumed to have equality.
Some earn more, some less, and the others
have no earning opportunity.
Charity begins at home by the head of the
family as his responsibility.
He is required to meet the demand of the
family in their necessity.
The objective is to have income distribution
in family and in society.
The distribution of income is needed to
alleviate the social poverty.
The whole purpose is to distribute ability
for the development possibility.
Charity is a personal and social responsibility
by increasing government property.
Income tax area and its rates have
to be minimum in quantity and quality.
A part of the surplus revenue will be spent
for the poor, their life, and quality.
Charity is the voluntary action in society
to remove the income disparity.
Among the imposed taxes are the levy
imposed on income and property.
Whole purpose of tax and charity is to
remove income disparity and poverty.
To meet the necessity in life and living,
it is the home to begin the charity.

Cleanliness Is Next to Godliness

Cleanliness is nearly as good as being Godly
or very holy.

Both education and health care services talk
about a lot of cleanliness.

Physical and psychic health are positively
related to overall cleanliness.

A regular freshness in life and living is mostly
defined as readily and holy.

Cleanliness of health, food, shelter,
and wear are purificable and healthy.

Cleanliness or Godliness has to be
maintained daily, weekly, and monthly.

Clean and healthy environment has to be
viewed and ensured weekly.

The cleanliness keeps you healthy and
free of sickness preventively.

If you don't live healthy, you are vulnerable
to infection passively.

Cleanliness will provide you a good life
and your eternal world happily.

Your sleeping, living, and staying environment
has to maintained neatly.

Try to be with our life and living as far
as possible rationally instead of dirtily.

Help yourself and the nation to remain far
from pollution possibility.

Government should manage and impose CO2
or similar carbon taxes strongly.

Keep in mind that "cleanliness is next
to Godliness" rationally and regularly.

Cold Hands and Warm Heart

Cold hands and warm heart may hide
a preferable and kind heart.
A reserved exterior of a man may be different
from her interior or heart.
There is no art of finding a kind heart by
looking only at the exterior part.
You can't read a person by looking at his exterior,
having no reading chart.
Or, a cart in the street is not explicitly readable
as it is fully loaded by dirt.
Looking at the old and dusty machine,
you can't find the one of ability to run fast.
A reserved exterior of a girl may be found
with a hidden and kind heart.
If someone's exterior looks good, his heart
may be a personality of the worst.
If you test a reserved appearance, you might find
the best and kind heart.
There is no such thing between good
appearance and kind heart of the last.
You don't have to declare a riot by looking
at somebody's unkind heart.
You are not advised to be with any kind
of unknowingly guest or host.
Someone with positive, good heart and
exterior deserves a crest.
As the host of many, you have, however,
to be kind possibly to the most.
Out of the cool and messed environment,
try to find the best heart and chest.

Comparisons Are Odious

Comparison of people is not productive or
of unpleasant consequence.
People should be judged on their own characteristics
and merits.
People differ from one another by born, luck,
and acquired genetics.
None can be blamed for his luck and genetically
earned characteristics.
Other qualifications are education, training,
knowledge, and smartness.
It is advisable not to judge people based on
features of others, his or hers.
Even “like-father-like-son” is a very light
comparison to assess.
People in Paris must not be compared to
those British neighbors.
As they are born and brought in different
environmental issues of theirs.
Merits of them, yours, his, or hers are different
from those of others.
You may not be comparable to a neighbor or
other social members.

Every person does not have the same or
similar access to any offices.
Two or more persons may not have the
same or similar performance.
Performance may differ between
mister and misses, waiter and waitress.
Two individuals may differ in their performance,
success, and happiness.
You are, therefore, not advised to compare
the two with a benchmark merits.
Comparison between the two is socially not an
acceptable tradition.
Again, the above such comparison is not free
of unhappy consequence.
Someone's own merit is good enough
to evaluate his own performance.
It is very odious to make a comparison
by age and sex between individuals.

Count Your Blessings

Don't get worried much about any problems
that you have.
We should always think about the good things
that we have.
We should be grateful to our Almighty for
what we have.
Our blessings would be added by something
we further achieve.
We should count our blessings with what
we easily receive.
For your happiness, you don't expect everything
to be massive.
For the full utilization of what you have, try to
be more active.
Don't try to be too active for more and more
to receive or achieve.
Utilize your available resources to maximum
as the desired motive.
What you don't have in hand may belong
to any other native.
To meet your need or necessities,
you count your blessings in brief.
Trying to have more than less might
make you actionable.
To be able to meet the necessity in living
is good enough for the life.
Blessing to anybody is not naturally
expected to be in massive.
Count your blessings to estimate your
success in your own life.

Crime Doesn't Pay

You are not paid anything by engaging
in an illegal activity.
You are taking a risk in life if you get engaged
in illegal activity.
Try to go up smartly by utilizing your own,
God-gifted ability.
Being honest and sincere, you enjoy the life
with success and creativity.
Staying within rules and regulations, you
can lift you up with earning ability.
Your purpose is to get rid of any anxiety
and to have a life to feel free.
Everybody would like to have a life
and live happily and enjoyably.
Making you rich enough with name
and fame is your nobility.
Honest earnings and regulations help
enhance your social credibility.
Bees do not fly around the hive once it does
not have any honey.
It is important to earn and economically save
money like a honey.
By not doing anything unlawful, let's go
for name and earning money.
Good name is more important than riches
and let's stay away from illegal activity.
Unlawful activities stand against the good
name and fame or familiarity.
Honesty, sincerity, and hard work pay money
and make the living honey.

Dead Men Tell No Tales

People who are no longer living can't give any
evidence of essence.
Dead people must not be misutilized before
the court as a false witness.
Famous and good people leave many
written and unwritten things as tales.
Your contribution will pick you up from
the grave with a crane.
A good contribution keeps many
men's memory, influence, and presence.
Dead men can't talk anything about their
lives, living, and things of essence.
Go through the Rabindranath Tagore,
who still encourage and influence.
The dead lawyer is no more a member of
evidence in the high court bench.
The other not applicable to a dead is her
past, present, and future tense.
They left for us a traditional dress as
a matter of conflict with modern wears.
Throughout our life, the dead men's tradition,
however, has left an influence.
Strength of a dead man is indirectly used
to meet any demand for his presence.
Dead men can neither be used for any offence,
nor is it applicable for any defense.
Misusing a dead man through falsification
is simply a kind of nuisance.
Beyond everything, people who are no
longer living can't be evidence.

Dead Is A Remedy for All Ills

When someone dies, their problems in
practice are automatically solved.
Death is a costly remedy by treating all ills
to be resolved.
After death, all problems in life are
automatically dissolved.
More you continue to live, more problems
in life continue to get resolved.
Once you are dead, you don't need
any terms and conditions to be favored.
As you die, your dead body is
respectfully and permanently graved.
After death, you don't know how you
were loved or suffered a hatred.
Once you are removed from the eternal
world, you are graved and paved.
If you believe in religion, consequences
of negative need to be resolved.
To minimize the consequence in the next life,
you need a faith to get it resolved.
In the eternal life, most of your remedies
of problem have to be accomplished.
Before you die, most of the pain and strains
have to be absorbed.
Death is a remedy, but it is expensive treatment
even for the chief executive.
Once you are alive, try for most of your
problems to be removed.
Death is the ultimate remedy of
problems when everything is surrendered.

Death Keeps No Calendar

We never know when the death is coming to
take us away and its calendar.
The surprise thing in its job is not to maintain
its working calendar.
Death is natural and we don't know of the
routine of the nature.
We may die anytime, even if we are at supper
or playing a Blair.
Death doesn't make a difference between the
man who's unfair or superior.
It does not care about any requirement of
death for his or her.
Death doesn't make a difference between
the rich and the poor.
Death gives a damn to the people who
are socially upgraded or upper.
Death is not aware about when it is
arriving as the consumer or buyer.
Without my knowledge, death can come
to me when I drive a private car.
Death doesn't care about exhausting my
rest when I sleep on the floor.
I didn't see the death coming to anyone
by driving a private car of four-tyre.
To take us away from earth, death is
constantly waiting somewhere there.
Death is too cruel not to excuse even
the army chief or the doctor.
None can fight with the death, which takes
us as a unique terror.
Having no calendar, death is asking us to
fight for a good life or better.

Death Pays All Debts

Death cancels all the debt including anything
that we owe the other.

We owe things to other like appreciation,
property, and love matters.

We owe a promise to give gifts, ornaments,
amenities, or dresses to wear.

We also owe to those employees who we
did illogically remove or fire.

We borrow something from the other by
vacating his hard-earned drawer.

We owe the bank for its loan and help for
my mortgaged resident or shelter.

Even in my clean life, I can see me a net
borrower by looking at the mirror.

Non-monetary and non-payable debt
we owe to our beloved mother.

Many and relatively more debts in society,
we owe to the people living nearer.

We can't repay all the debt or even the
minimum debt or its quarter.

It is never easy for anybody to repay
the in-kind loan as it is more or greater.

At the end of life, we are left with the
social status of being a net borrower.

As soon as we die, our debts are
automatically repaid to our lender.

After death nobody and not any
lender will come to charge the loan grantor.

Death pays all the debts and the net
borrower finally is either rich or poor.

As a social being, we are ended
with the status of borrower or lender

Discretion Is the Better of Valor

It is sometimes better to avoid a dangerous
situation than to confront it.
Either win or lose in a dangerous situation,
you cannot, to confront, avoid.
Valor or courage doesn't mean you face
everything face-to-face in front.
Courage is smartness, which is defined
as to decide to give it up or defend.
If you are really confident, go and face
the danger from the first to last.
Your utmost priority is not to push you
to a danger with the possible worst.
Even it is of the most importance,
you are advised to face the danger as a must.
If you push somebody to water up to his
throat, you will push you up to your chest.
Life is more important than anything else
and avoiding accidents by having a dent.
Don't take that chance, in which instead
of bending somebody, you are bent.
For smarts, including intellectual, courageous,
or valor, you are awarded by a crest.

Don't Bite the Hand That Feeds You

Don't hurt an individual or company that is
for you to take care.
Since the job gives work and livelihood,
don't harm the investor.
Without parents, we don't get anything inherited
so don't hurt the parents.
A baby can't be breastfed well or better if
she bites her mother.
You do not cut the tree that provides you
an emergency cyclone shelter.
It is better to be loyal to the individual
or company for you to take care.
Try to be attentive on the job and
increase your performance to serve better.
Help the parents to remain healthy for
their contribution to your future.
In your safe shelter at home, don't
take any risk of breaking the door.
Oxygen gets released from the forest so
don't cut its tree and nature.
Your car is only the transport so don't
risk making a leakage in tire.
Since you stay in the bedroom, you can't
risk making a leakage up there.
To estimate you as correctly as possible,
try to respect your supervisor.
Don't disrespect the donor or the
philanthropist who is born to help the poor.
Produce and supply quality goods to meet
its demand by the consumer.
You need reference as an applicant,
don't throughout anything to refer.
Try to respect all these as mentioned above
that help your life and health care.

Don't Cross Your Bridges Before You Come to Them

Don't worry about problems before they arrive
there as the terror.
You don't need to get worried for the problems
are here and there or anywhere.
Make a difference between when you are
working and you are supervising.
Getting worried with or without problems,
you are not getting in life a good flavor.
Worrying in morning and evening is
making you an unhappy social member.
As assumed, you may not have any problems
at all after you safely arrive there.
Until the problem is in hand, it would be
unnecessary for you to inquire.
You keep thinking always about how you
are going to make your leisure better.
Have a tension-free life and living to
psychologically maintain your status of upper.
Once the problem in practice comes to resolve,
you have time to think it over more.
Importance of voters comes first before
you can be elected as a parliament member.
Try to listen, learn, and earn experience
before you can be a good speaker.
You need a fire brigade to get rid of a fire as
they are not a compromiser.
Before you draw a conclusion, go through the
method of trial and error.
Don't call a policeman until what exists
around you is really a terror.

Don't Put All Your Eggs Into One Basket

You may generally lose everything if you put
all eggs in one basket.

For the possibility of bankruptcy, don't
put all your money in one bank.

Do not put all your trust overconfidently in
a single priest.

Various risks are there in life, from north
to south and east to west.

By taking a single measure against a risk,
you can't have leisure or rest.

Think of risk from one or the other or
another from the next to next.

If you lose the one, you can compensate
the loss by taking from the next.

Do not concentrate on any single source
by disregarding the supplement.

If you are equipped with multiple sources,
you are always ready to cultivate.

For the security of your assets, make sure
to have more than one locker to create.

Complementary and supplementary ideas
are gained by a man like a doctorate.

Look for a place to re-settle once you
have a problem to face to inundate.

Collect ideas from here and there to equip
your knowledge to be adequate.

Setting all your eggs in one basket is not
free of risk for your assets to locate.

Don't Rock the Boat

We are advised not to upset the status quo
and stay comfortable.

We do not change the situation with which
we do things that are enjoyable.

Don't change the bank cheque that
is immediately cashable.

Don't change it for anything as at
anytime it can be changeable.

Change the only one that is to you
significantly uncomfortable.

You can't change your children even
though they are disabled.

We live with the conjugal partners who
are tolerable but not terrible.

We go there for a further gain if
doing so is really encourageable.

We don't change it at all, if it is by
everybody very discourageable.

If it is not workable at all, only then change
it to make it workable.

Merging companies have sharing problems
to resolve to be mergeable.

Don't change those borrowers from which
the loan is surely recoverable.
You don't change it if it is to your life
workable and comfortable.
Don't change it if its initial architects
are not presently traceable.
Don't change it as you are comfortable
and the other is not available.
If you sell the cow that you are milking
anytime it is saleable.
If it is comfortable, don't make it available
to the other as purchasable.
Don't change your musical tool for nothing
if it is to you enjoyable.
Try hard to change it if it is in all the senses
very terrible.
Don't change it if it is credible, admirable,
and to you noble.

Dumb Dogs Are Dangerous

People who say little or nothing are more
dangerous than those speaking a lot.

Bad people will listen to you now and
will guess what you say next.

Bad people will behave as if they are your
only available priests.

Bad people will try to make simple things
the ones to complicate.

To listen and learn you in all possible ways,
bad people will concentrate.

They will behave as if they are dumb
and play as if they are confident.

To attract you, they will explain their
aggressiveness to deflate.

Since they talk less, you will not get
anything that they intend to indicate.

They listen more than talking as their
method to learn and investigate.

You will not understand elaborately or
exactly how much they are desperate.
Between over smart and dumb you will not
know how to differentiate.
In character, the dumb one can be
found to be disproportionate.
How to harm you is known to the dumb one
as if he is a hidden doctorate.
Instead of participating, stay away from the
dumb, avoid, and eliminate.
If you understand all about the dumb for your
safety, you are fortunate.
Don't go with the dumb not to lose your
happiness, which may evaporate.
Unexpected reactions by the dumb may
be a cause for you to frustrate.
Stay away from the dumb, who you really
can't estimate or underrate.

Dying Men Speak True

Dying men speak true when they don't expect
their survival anymore.
At the point of dying, a man becomes a different
one by nature.
Dying men don't need to go to doctor for their
health care any further.
To require electricity at home anymore they
don't need to buy any solar.
What he is leaving for the other to take care,
he needs to make that clear.
Nobody will approach him anymore for
him to feel a bore.
He knows that he is going to get closed
permanently within his door.
Everything is then equal to him, no matter
if he is rich or poor.
All are now redundant to him including his
house, his car, and its tire.
He doesn't care who is coming next to
occupy his bedroom and floor.
At the point of death, he forgot his daughter
and friends talking to her.
He is not caring who is coming for his assets
and property to acquire.
He is not going to get anything from
anybody and anything to admire.
He will not be losing anything by telling
his life's truth.
Dying men speak the truth and the hidden
things in life that are true.

Early To Bed and Early To Rise Makes A Man Healthy, Wealthy, and Wise

It is good for us to go to bed and wake up
in the morning early.
Routine life keeps us physically and
psychologically good and healthy.
Daytime is the working hours, more of
which makes us healthy and wealthy.
More is the working time; more is the
experience and smartness to be wise.
With plenty of time in hand,
we perform better by working more devotedly.
Rising early helps to have breakfast
and prepare for a travel to office quickly.
Increasing efficiency and earning income
are related to make us wealthy.
Feasibility and possibility of becoming
wealthy are increased conveniently.
You become a wise man in the society
gradually because of your regularity.
Early to bed, early to rise will help you to
get everything needed gradually.
Healthy, wealthy, and wise go hand
in hand as complementary and supplementary.
You can plan your life daily, weekly,
and monthly to grow economically.
Do things in life with the best
possible regularity, dedicatedly and heartedly.
All your minor problems in body and
mind will be resolved timely and curably.
You will be a man of great achievement
and success greatly and finally.

Easy Come, Easy Go

It we get and lose something easily we are
getting and losing it accordingly.
If we get some money easily today, we lose
it tomorrow easily and live poorly.
If the student passes the exam easily,
he doesn't know how to study devotedly.
If you get job easily, you will not know
If you get the business easily, you don't know
how to keep it going efficiently.
If you don't love your wife, she quits
you to teach how to get back quickly.
Easily available things in hand are not
evaluated timely, properly, and beautifully.
If you dishonestly love more than a girl,
wait a while when they leave you lonely.
If something comes to you easily, you don't
care how to utilize it nicely and properly.
“Easy come and easy go” is a matter of time
to happen for many periodically.
Easy coming and going is not expected to
happen without anything valueless.
No matter how easily it comes to you,
try to make the best use of it efficiently.
Assume you got it luckily; try to make use
of your lucky resource heartedly.
Utilize every available thing around you
to be good and wise socially.
Performing all the above sincerely,
you are a great man to survive in society.

Empty Vessels Make the Most Noise

Empty vessels sound much as they don't have
anything to stop the noise.
Relative to the other, many stupid tend
to speak loudly in their speech.
Stupid can be either mister or misses or
waiter or waitress in talking restless.
Why some people are making laughter is
hard to guess if it is an exercise.
Empty brains don't have enough to
talk further, which leads him to make noise.
They make more and more sounds as
their thought is conceived of less.
In evaluating the stupidity, the smarts
are not even interested to assess.
Stupids are powerless, and by making sounds,
they tend to increase happiness.
The effect of making unnecessary sound is
not listed in their awareness.
“Sound much” is the reflection of somebody's
backward background.
To enter the society, these kinds of people
do not have any good access.
Let us not try to be reflected in the
society as an undesirable mess.
Let's be trained enough with our people
actors and actresses for soberness.
Try to learn things more comprehensively
before we can comment.
Let's try to be smart participants
for our recreation, which is endless.
Thus, do not let the empty vessel
unnecessarily sound much.

Even A Worm Will Turn

Everybody will revolt if they are for nothing
driven too far to tolerate.
Even the lowest of people in society can
revolt to hit back the magistrate.
Even the worm, the smallest of the animals,
will defend itself at least.
To powerless men and women,
someone may unnecessarily tend to irritate.
If the defender can hit back, it is normally
considered legitimate.
If not capable of taking revenge, the lowest
of the society expresses hatred.
Though the offender is not hit back,
his prestige and social status deteriorate.
Do not drive somebody too far or
humiliate or insult, crossing the limit.
You are victim of circumstance when
people arrange for you to interrogate.
Do not do anything that may inundate
your prestige to some extent.
Getting hit back by anybody is not
something in life to compensate.
Try to concentrate on what you do
instead of driving somebody too far.
You will not find anybody to like offence
and come to you to congratulate.
“Keeping quiet” is better than doing any
such thing that will further contaminate.
Since excuse is no good, do something
modest by avoiding anything excessive.

Even the Pray of An Ant Reaches Heaven

God created all the living beings, including
plants, animals, and humans.
God hears all the living beings, their
prayers and proposals for their life and living.
No matter how small or how big you are,
God hears all the living beings.
The pray of the smallest animal or an ant
reaches heaven for its defense.
Everybody has the right and privilege to
pray to God for their distress.
In the good dairy, recorded is each one's
address, distress, and bless.
Before God, you can't remain or take
the advantage of your absence.
You are also recorded there for your
punishment and awarded by crests.
Everything is recorded if you are blessed
or messed up at your living place.
Don't discriminate against the relatively
small living beings that are powerless.
God doesn't discriminate against the small
and in favor of any big animals.
To god, small, medium, and large living
beings have an equal access.
It would be inhumane if you make the small
suffer with artificial stress.
The size of physical health matters very
little about happiness.
Our endless prayer helps the small or
big by removing their backwardness.

Every Dog Has His Day

Even the lowest may have a chance to get revenge
against his oppressor.
It would not matter how powerful that oppressor
may be found by nature.
We have good luck or success sometimes
regardless of our social layer.
If you disturb me tonight, I will have a chance
to repay even though I am poor.
If you are smart, you will not underestimate
any of the lower layers.
People are poor not because of their merit,
but by being born or their poor mother.
The rich is also endowed with the inherited
property of the affluent father.
It would be very inhumane if you become
illogically an offence to a poor.
God equally loves every living being from
the lowest to the highest layer.
As to faith we won't be discriminating against
the poorest of the poor.
The small may get a chance to take revenge
against the highest offender.
As if every dog has his day to stand against
the offence by the bear.
In the eye of God, all the living beings
are equitable creatures.
No matter how small the human is he will
have a good luck as a life maker.

Every Man Has His Price

The global people may be successful in terms
of earning enough.

The human being has proved that the job
of earning is not very tough.

Both employer and employee are really
the working staff.

Average people are not less than their
average abilities to work enough.

It is not necessary for the pay master
to behave rough and tough.

We can benefit everybody by helping all of
them to go up.

It is not really needed at all to behave
rough with the staff.

Our aggressive behavior to the worker should
be turned off.

If the highest people pay enough to the lower,
all will go up.

In the eye of God, tall is the same in ability
as the dwarf.

If we pay enough, all kinds of human
clubs get enlightened bulbs.
Everybody can equally go to the playground
to play the game of golf.
Every man has his price in any society,
which he really deserves.
It is easy to furnish equitable distribution
of income if we pay enough.
Every man has his own price, payment
of which should be good enough.
It is a discrimination or less than humanity
if not paid enough.
Without distribution of income, not
developed are countries around Gulf.
We can pay enough once we are equipped
with a strong nerve.
Let us pay equitably to all by an amount
that sounds to be enough.

Everything Comes to Him Who Waits

The queue is too big to reach the last man
with something.
We must wait to get even something,
as better than nothing.
Patients are assumed to eventually
receive everything.
We have never heard that somebody
didn't receive anything.
Keep up with your patience to be satisfied
with something.
In the affluent world there is no such thing
as nothing.
As they need, all the people will be
provided with something.
This world is not a miser to satisfy you
with all or everything.
There is no such thing that will frustrate
us by giving nothing.
God created the resources to provide us
with many things.

Even after incurring a loss or waste,
you are left with something.
Sometimes, we waste something
as an indication of having things.
Don't get frustrated, as there is nothing
like too little or something.
We are not satisfied with less than more
things of anything.
We always expect something as more
less things of everything.
As we know, more is always better
than less of everything.
Or, less of anything is worse than
more of anything.
We can arrange to equitably distribute the
optimum of everything.
The people in the queue receive more
or less than everything.
Let's wait to see and try our best for
something out of something.

Facts Are Stubborn Things

What we do not want to hear in life are facts.
We are undesirably not comfortable with facts.
All the acts are not expected to bring the facts.
Regardless of how tactful you are, fact is a fact.
Don't lose your patience and react to the fact.
Don't get upset with the fact as it is not a rock.
Do not only chat, go for the cook as a fact.
"Joke is joke," which is not for nose to poke.
You did not get reply in fact, even if you spoke.
The fact is fact, no matter how it does knock.
Regardless of its cholesterol, yoke is yoke.
Lock can be unlocked, but is always a fact.
The fact is something that you are not able to hook.
Fact is not something that you can change by cook.
For all of us, fact is always found as shock.
Based on the company's fact, we sack.
Learn for life that early to bed and early to wake.
Keep patients to deal with facts and figures by tact.
Moving around fact is the suggested action or act.
It would be stupid to react badly to the fact.
Best solution is to intelligently deal with fact.
Facts are stubborn things to whom tactfully act.

Faint Heart Never Won Fair Lady

Faint heart never won a lady who is fair.
It is not easy win a girl looking fair.
Get a pass for a girl of cost-effective fare.
Have courage to win the competition of fair.
Unfair deal is not good to avail the fair.
For a success, keep proceeding with no tear.
You don't succeed if your approach is mere.
To win the game, you have to try more and more.
Participation requires courage and dare.
Be daring to proceed regardless of social layer.
Gear up yourself much to care much about the fair.
Have ability to afford the expensive one of rare.
You expect to be included in the group of rear.
Career helps to go up to acquire the dearest of dear.
Don't be pessimistic and nervous to bear the other.
Dearer is heavier that requires a strong career.
To win the game, never get exposed as a terror.
Look at yourself to see if you are a fighter for fair.
To stabilize you with a success, use a good stapler.
Doing the above, you will be a dearer to the fair.
Give a good hearing for you for the other to hear.
People would like to see you with a smart dress to wear.
For the cleanness, take care of your health and others.
Listen to everything by keeping alert your ear.
Keep going up the social ladder gradually by year.
You can go up from the lower to upper layer.
Never get frustrated if you cannot see her ever.
She will not find somebody around elsewhere.
You will win the fair as you are not faint ever.

Fair Exchange Is No Robbery

Exchange is not a robbery if it is both mutual and fair.
Exchange is swapping something in return of the there.
Stealing is an illegal grab in return for none or any other.
A fair exchange is a business without any extra fare.
Unfair exchange can't be waived from the possible tear.
Exchange doesn't take place for nothing here and there.
Exchange for both is an invisible two-way care of fair.
Exchange takes place between the two rationally dear.
Exchange takes place between the lower and upper layer.
Gear up the exchange essentially for the productive trader.
Exchange is always a fair deal to carry the inflation to bear.
Fair deal of exchange makes the business dear or dearer.
Fair exchange doesn't involve any inflation from a terror.
The exchange of quality and quantity are clean in mirror.
Exchange used to be the business ethics
 in a traditional year.
Fair exchange is not robbery, which takes place everywhere.

Familiarity Breeds Contempt

If we know somebody very well, we discount
respect for their personality.
If we know something well, we lose our
attraction for that commodity.
Familiarity is important to help resolve many
problems in the society.
Familiarity is also negatively viewed as decreasing
value of the party's entity.
We do not have enough respect for the known
or familiar personality.
If we know her very well, we discount her overly
respect to her activity.
Knowing her more and more decreases to
me her accessibility.
As I know a friend, I become familiar with
her privacy and ability.
Many do not want to be familiar with the
one suffering from poverty.
Familiarity is also associated with social
reputation and its vulnerability.
Familiarity with somebody's personality
may be affected by adversity.
If you are familiar with somebody,
she can take your personality lightly.
Once she is known, you become familiar
with her nature, activity, and beauty.
Most of the known friends of your mom
become your social aunty.
To the friend, you can make you cheap
by your easy availability.
Familiarity with somebody shares your
leadership by a shadow authenticity.
Though familiarity breeds contempt, it is sometimes
required within your ability to be absorptive.

First Things First

Do things in a logical order starting with
the one of unrest.
Before the less important things, start the
one of most importance.
Do a few things, rest a while, and start with
the next best.
Don't start with that for which you are not
satisfied with your quest.
Doing things in logical order and
accomplishment helps you pass the test.
You sleep better at night in a secured
home for rest.
The discipline of your activity serves your
future the most.
To earn a better life, you don't have to be
one of the first.
The right way of doing things is one of those
of discipline or top most.
By doing this rightly, you will not be grouped
with the worst.
For the better future in life, you can wash
out all kinds of dust.
Work is almost next to God, in any and
many senses at least.
Nobody is dared enough to make your
disciplined life bend or dent.
Discipline in work and life is undoubtedly
a must and the holiest.
To your life people come to receive you with
the award of a crest.
Do the first thing first, pass the test, sleep
the best, and acquire the crest.

Forewarned Is Forearmed

Once the possible danger is known, we may
have a security advantage.
To face a surprising accident, we have a problem
with all disadvantages.
If we know all of it before, a problem can be
minimized to a limited range.
Before you die, try to get your property free
from the bank mortgage.
In a country of political tension, bomb blasts
take place even in garbage.
To resolve anything through a court proceeding
takes a hell of a lot of time.
Not to get involved in an above such problem,
stay away from the court bench.
To face any problem in life, let's be equipped
with all kinds of courage.
To meet a politician at any time, it is not easy
to get him by anchorage.
Forewarned is very important to help us be
forearmed to face the challenge.
Instead of discourage, to be forewarned
facilitates us to be fully forearmed.
To get rid of the problem of burgling,
take care of bags and baggage.
Forewarned is forearmed as may be
found in a number of heritages.
Before you badly miss your girlfriend,
try to timely arrange a marriage with her.
As they are confused to make a difference
between things, don't trust the teenager.
Before you go to sleep, make sure to
confidently lock your car in the garage.
It is better for us to be forewarned for
the sake of forearmed as an advantage.

Fortune Favours the Bold

Positively related are luck, risk, and return in production.

Higher is the risk, higher is the profit,

or higher is the return on corn.

Lower is the risk, lower is the net profit,

and lower is the return.

The brave individual takes risk, gains more,

and doesn't run.

Risk lovers are those who go up but do not go down.

Boys take the risk even though the problem is

a pain like a sunburn.

Careful ones get away before the danger

reaches close and offends finally.

In the battlefield, the bold one proceeds first

ahead of the other with a gun.

The bold one is born to help and feed the

other by growing the corn.

Relative to women, men are good to quickly

and nicely fix the plan.

As the male, cocks are better fighters compared

to their female or hen.

In the risky game in life, risk lovers are the
winning ones who really win.
Big men in life are taking risks relative to
small ones and women.
Taking a higher risk and higher return are the
man's gain for certain.
Nobody is well aware about their future
for sure and related fortune.
Problems in life are equivalent to those of a
wagon load and related tension.
Taking risk favours the bold and the intelligent
in practice in turn.
Boldly take the risk in the race,
which ensures you to possibly win.
Take the risk to catch the fish to entirely
fulfill your carrying van.
Fortune favours the bold who win the game,
the cause of which is his fortune.

Fortune Knocks Once At Every Man's Door

We all get at least one good opportunity or
a chance anytime in life.
Or, everybody has the opportunity to be
successful even once in life.
To use that opportunity requires cooperation
from allies and family.
At that moment, try not to be with a bad type
of man or a deaf.
There may be a single chance in life,
which may be utilized naively with brave.
Try to make use of that opportunity by
employing all the possible strives.
For the proper utilization of fortune,
you don't have to be so naive.
Learn all the rules and regulations of
driving before you can formally drive.
If you believe in God, try to follow all the
pillars of faith not to dive.
Be daring for a nonstop move by removing
the constraints with a knife.
Remove all kinds of constraints by getting
all cooperation to clearly wipe.
If you succeed, you see people moving
around you as if you are a hive.
Opportunities come once, and make use
of them as soon as they arrive.

Garbage In, Garbage Out (GIGO)

Incorrect or bad input generally results in
incorrect or bad output.
The quality and quantity of input are
reflected in proportion to output.
Farm output requires seed, fertilizer,
technology, and quality phosphate.
In agriculture, land, labor, and capital are
invested under efficient management.
For the staff and workers, demonstration
and training are needed to educate.
We teach them the input-output relation,
from which we are reluctant to deviate.
Encourage all the engaged individuals
in production activities to participate.
If it is a field crop, remove insecticides
with necessary sprays to eradicate.
Additional requirement is the irrigation,
for which electricity needs to generate.
As the infrastructure requires, you have to
find the right production center to locate.
Once you have everything in hand,
think of input-output relations to formulate.
You can win the game, if you use your talent
to effectively further renovate.
The objective is to maximize the output
by the efficient combination of input.
The minimization of cost certainly requires
the efficient mix of input.
Efficient mix of input and output will of
course make you a fortunate.

Give A Thief Enough Rope and He'll Hang Himself

The ambitious thief will hang himself if anybody
gives him enough rope.
A bad person will sooner or later be the cause
of his own drop or downfall.
To his own life, a bad person is generally
not honest, sincere, or very loyal.
An honest person leads a good life, even
though his job nature is blue or menial.
You will be happy in life if you are healthy
and wealthy in general.
To our life and living, a moral person is
generally found to be very loyal.
A good person is expected to stay away
from all the activity that is illegal.
A good person is normally healthy and
rarely needs to go to hospital.
The negative action of a bad person
is a cause of his early death or burial.
Your negative summation leads you
to the inhuman nature as the normal.
Good health is a function of matters,
including those culturally moral.
Good life and living are the reflection
of an individual's good deal.
Bad people suffer a lot from being
unacceptable as a social denial.
Bad people are also punished by the
social torches of being unequal.
Bad people suffer in the society as they
are not usually treated fair or equal.
Try to be as good as possible with a life
throughout future and the eternal.

Give Credit Where Credit Is Due

If we are reluctant to praise someone, we should
do it, as he deserves it.

To provide a credit to somebody, he or she does
not have to be the best.

Even the worst man can get the credit for
performing a job of the best.

Anybody may deserve a credit, no matter
how socially he is the worst.

Appreciation inspires a man to prepare
himself to successfully pass the test.

We owe a lot of appreciation for the other
to whom it becomes a debt.

Deserving any credit must not be misunderstood
as the cheapest.

As a driver, you don't deserve a credit if your
car has a lot of dents.

Men who are in receipt of a crest really
deserve a lot of credit.

The manager doesn't deserve a credit if his
equipment is full of rust.

Credit goes to the hotel manager if his
environment is free of dust.

Crest is awarded to those who are, in the arena,
good and the best.

The last one on the list of performers also
deserves some credit.

To any performer of any degree, his
deserving credit is culturally a must.

Credit going to somebody enhances his
progress by compromising his rest.

Credit to the business will definitely help
maximize its profit.

All together, credit helps maximize the
social utility of the most.

Give the Devil His Due

We should admit the good quality of even
a bad or undeserving person.
Appreciating a bad person is no harm, but it
inspires him to be a good person.
Bad persons around us are a matter of
our social and cultural tension.
We are also reluctant of the bad one
socially anywhere to mention.
Everybody has a kind of dignity regardless
of their social position.
Admitting the bad one's good quality
helps him for socialization.
A letter of appreciation is to the deserving
a culture of the pro-Western.
All the good works of a bad person must
be reflected in his evaluation.
We appreciate in writing a letter of
appreciation to the quality person.
Don't be a miser by minimizing the
appreciation through a negotiation.
Not appreciating somebody for a good
work is a matter of demoralization.
Even a thief will deserve an appreciation
for his positive innovation.
Not admitting one's quality will give
full stop for any of his further actions.
Appreciation cannot be given half-heartedly
or in part or in any fraction.
Appreciation enhances the person's action,
which is necessary for a nation.

Give and Take Is A Two-Way Policy

By giving something to others, we get back
the same or more.
If you are a good lover, you will be sincerely
loved more and more.
If you stay in the upper layer, you have the
more to help the other.
If you care about the other, she would be
obliged for you to take care.
If you are a good buyer, you will see around
you plenty of sellers.
Even if you are far away from her, she can
see you there near her.
Something that does not hate but loves
everybody is nothing else but nature.
Borrow money from a bank, and you keep
repaying the installment more.
Your transaction in kind is about the same
or not less or not more.
If somebody helps you up from the floor,
keep in turn and open your door.

If you help somebody more and more,
she will reward you more or further.
To any faith, the rich is obliged to help
the other and the poor.
Your mere promise to help the other
doesn't, anyway, help you either.
If you really love her, she will meet and
please you with a better wear.
If your neighbor is good, you are there to
be served as a better settler.
If you refuse to see her for long, she
might quit you, saying sorry.
If you are really a terror, you will not see
anybody around your near.
If you are a good gardener, your location
will be decorated, including floor.
If you freely love and care of value, you
will receive the same or similar.

God Helps Those Who Help Themselves

God helps us by adding the luck factor
to our sincere work efforts.
We should not rely entirely on God
to help us as the humor suggests.
God is everywhere with everybody
to take care of us without any rest.
To pray to God, the place of centre is
located from the east to the west.
If we have a gap in our efforts, we
are asked to put in extra effort to compensate.
Help yourself, God will help you, and your
family and friends will congratulate.
God helps us in all possible ways to
complement and to supplement.
God helps in our farm productivity
if we nicely attempt to cultivate.
If you pray to God from your sick bed,
God will help you as the ultimate.
As the media, the priest conveys God's
kindness to serve your interest.
God's help is endless and continues
from one to another, taking no rest.
God helps those who help themselves
as the strong complement to our efforts.

God Moves in A Mysterious Way

God's plan is beyond the human's understanding of
mister and misses.

God has reasons for everything, which are strange
to us and ourselves.

We do not see God and his staying, moving,
and dresses.

Nature, water, sky, wind, and light follow God's
direction as we guess.

Creatures and our lives from the eternal dawn
to dusk are hard to assess.

God's objectives and achievements are not
possible for us to guess.

We feel that God is everywhere and never stay
action or reactionless.

God is ready with all kinds of blessings to bless
upon us for happiness.

God has access to anywhere with no ticket,
which we don't have to his address.

God helps us to be aware so that we don't
make a mess.

God has sent us dressless and is waiting
to receive us dressless.

God's activities are too mysterious
to detect for our powerlessness.

Good Wine Needs No Bush

The quality of goods doesn't need to be advertised
to sell its full quantity.
Quality and quantity of anything go together
to satisfy the consumer's utility.
Church-based schools in Dhaka are historically
very competitive for quality.
Quality goods are largely demanded by its customers
for its satisfying ability.
Quality goods and services have no bad record
for any kind of adversity.
Harvard, Yale, and Vanderbilt are widely known
to most for their quality.
Quality schools in North America and UK are
full of the student's density.
US, Canada, Germany, England, France, and
Singapore care for patients effectively.
German vehicles and care of all kinds does
not need marketing for its effectuality.
A bad company suffers from the lack of customers
and its loss of appreciability.
Low-quality institutions can't hire the quality
chief and are run by a deputy.
Quality is itself an entity that accelerates its
sale because of its dignity.

Graves Are of All Sizes

No one is too old to survive or too young to die,
as people die at all ages.

Too young to die is an unrealistic assumption
held by some nuisances.

Graves of children or adults are all known to us
as with their required sizes.

Death has little relation with ages, as people
are seen to die at any age.

Graves are of all sizes as can be seen worldwide,
which requires no reference.

People are all born at age zero but will die
at different ages.

Children are juniors to many but are sometimes
found to die before their parents.

Graved parents were too old to survive, but
many of them died after their grandsons.

Since anytime we can die, let's pray to our God
for our offensive sins be excused.

Since it is true that we can die anytime, don't go
so crazy about our affluence.

Try to maintain happiness with whatever you
have as of the presence.

Let's enjoy our life and living with affluence,
family, friends, and relatives.

You know what to do with what you have before
you die to quit this transient place.

Great Minds Think Alike

Intelligent people think alike about their
philosophy relative to the other.
Intellectuals are of great minds and are
very similar in their thoughts.
They are broad in mind and similar
in nature and considered greater.
Because of their ideology, great minds
think alike in related matters.
Businessmen are busy making money and
thinking little about the other.
Businessmen do not really care about
the other, their education, and shelter.
Intellectuals are considered the highest
who look for all through their mirror.
They socially earn name and fame
and are superior to those of the other.
People of the largest and highest level,
intellectuals are hardly found to differ.
Intellectuals are broad to listen to their
lowest life and living and their shelter.
The gender discrimination sounds funny
to the intellectual or the philosopher.
Compensation between male and female
doesn't differ before the employer.
Intellectuals think alike not to make a
difference between junior or senior.
The individuals do not differ to participate
in the game of Blair or soccer.
For the majority and minority, intellectuals
equally keep open their floor.
Intellectuals are people of superior
level along with minds of dreaming.
They are great to think alike compared
to non-intellectuals or the other.

Great Oaks From Little Acorns Grow

Small and modest things today can grow and
become very large tomorrow.
Time is a great healer or killer and helps
less-than-expected things to grow.
Time provides us with a direction, along which
the future conveniently grows.
With the passage of time, the large problem
in life becomes very narrow or zero.
To resolve the complicacy of today instantly,
ask for the time to borrow.
If it is a problem for you to decide on things
tonight, buy time and withdraw.
If the issue is not that urgent tonight, get rid
of it for the next time to consider.
Keep busy in work, and time will help
you to get promoted to be superior.
With the elapse of time, you are going
to promote yourself from junior to senior.
You are a man of importance with time when
you may be evaluated by euro.
With the passage of time, many of us
are expected to become hero from zero.
If you spend your time productively, it
will surely help you to be a mirror.
Productive time will help you grow
and lift you up by working in your favor.
If you utilize your time efficiently, you
may not need to be sorry anymore.
Get rid of all tension, work hard
sincerely, you may become a hero from zero.

Handsome Is As Handsome Does

Good character and behavior are more important
than if you look better.

If you are good, you can be measured by your
character and behavior.

Your student life is evaluated by the exam
to see if you do better.

Your working life is estimated to see if you
are a good performer.

You are promoted if you can contribute to
the company as a promoter.

You can get a high-paying job if you can
satisfy your interviewer.

You can earn name and fame in sports if you
are a good player.

You are a good farmer if you can cultivate
as a profit maximizer.

In the film sector, you are handsome if you
perform well as an actress or actor.

A good teacher earns name and fame of the
school as an educator.

If you can serve to resolve the social problem,
you are a good leader.

If you can find the efficient way of doing things,
you are a good innovator.

If you can make a lot of profit in the business,
you are a good trader.

If you can attract a lot of observers in dancing,
you are a good dancer.

You are handsome if you can accomplish the
assignment doing better.

He Teaches Ill, Who Teaches All

You are a jack of all trades but master of none,
and you cannot teach well
The teacher who teaches everything
doesn't teach anything well at all.
A good teacher lets the student prepare how
to fight the education battle.
A bad teacher weakly equips the student
as a cause of her downfall.
Trying to teach everything without
specializing in anything is waffle.
What to eat and how to digest is a scientific
choice, even of the cattle.
Specialized teaching is very important
for the student's future to settle.
Teachers trying to teach everything are not
free from the problem of mind.
Teaching everything alone is too traditional
to deal with modern life.
Without specialization, you will have
a hard time with class delivery.
Without specialization, don't join the team
organized to compete in football.
Teaching everything alone, you cannot
respond enough like a missed call.
Teaching alone all of what students have
to learn is like playing with a doll.
Learning everything from a teacher
cannot make us knowledgeable.
Don't let any teacher teach all or his
students can't cross the wall.
To be jack of all trades and master
of none, make the students downfall.

He That Complies Against His Will Is of His Own Opinion Still

If you force people to agree with something,
it doesn't mean they agree.
Even if they would agree with you, they
might still have a lot of inquiry.
People are sometimes at a loss as to what
to do and to agree or disagree.
Sometimes the people comply against their
will as a matter of arbitrary.
Sometimes we agree to do something,
even though it may be contrary.
Though you like whom you support,
may not the majority in the gallery.
If you like or dislike anything, your
expression may be considered briefly.
Even if you don't deserve it, you get the
increment along with others' salary.
Even if there is no inflation, the higher
demand increases prices in tannery.
Regardless of any inconvenience, you
have to perform on the job.
Even if you like or dislike, people will
take your dead body to burn.
By not caring of your sentiment,
someone will make a story about you.
Even if I don't worry at all,
sometimes I need to unnecessarily be sorry.
For the purpose of marketing, we will make
our product to relatively vary.
However, even if you comply against
your own will, it is still your judiciary.

He That Lives By the Sword Shall Die By the Sword

As to the English proverb, give enough rope
to a thief and he'll hang himself.
As the above proverb, if you live by the sword,
you will die by the sword.
As to a parliamentarian, if you buy and kill people,
you will get killed.
If you buy people, don't kill people and you will
not get killed as is thought.
The above may be sought in reality to see how
we are killed after getting fought.
If committed, but doing something contrary,
you have to pay a lot for it.
The whole office is contributed by the productivity
of its front desk.
In the cyclone-prone area, fishermen frequently
get their lives lost.
Armies in the battlefield shoot down many
and get shot in return and dead.
If you are careful about health and longevity,
your longevity can be bought.
By taking a high risk, the higher return can be
expected and sought.
Due to over smartness, you gain sometimes
before you are caught.
If you commit an offensive fight, you will
be facing to be badly fought.
If you try to buy too many people, to them
you might get easily sold.
If you drink poison, it will drink you
back as you are already in its knot.
"One murder creates another" must be kept
in our process of thought.

He That Will Learn To Pray, Let Him Go To Sea

The sea is a supremely powerful and terrifying
and an awe-inspiring place.
Prayer is something spiritual that requires,
for all, environment and fitness.
To a prayer, every place is not equally
treated as an environment we trace.
Temple is for prayer for Hindus, mosque
for Muslims, and church for Christians.
Not messed up with the above places is the
sea place for the prayer to stage.
Psychological display in relation to faith
requires an environmental dress.
The best place to pray may be chosen
as the sea beach and its benches.
Once you are in right environment,
express yourself for any kind of bliss.
Sea place gives you a strength with
which you can fight the problem to face.
Sea places are powerful enough not
to allow any disturbances in chasing bliss.
Appropriate stage for a prayer serves as
a powerful press to release message.
Seashore for prayer is more powerful
to fight than the high-court bench.

He That Wills the End, Wills the Means

If you love to do something, you strive to do
it in all the ways and means.
Human energy is too powerful to guess
more than thousands of computers.
Men can do some offences and are also
able to provide the necessary defense.
Man is mortal, but his action is immortal like
the furniture made by the cane.
If you prepare to do something, you can do
it well now and in the future tense.
Natural atmosphere is always in
equilibrium between offence and defense.
Gents and ladies have mostly been able
to achieve the objective or ends.
You will lawfully be subjected to show
a good cause for your awful offence.
We are powerful enough to achieve the
objective with all the possible ends.
We know how to break the protective
fence to get the available orange.
We know how to prepare and bend the
ability to earn the dollar and cents.
As can be seen through the lens, we can
do something in any or all sense.

He Who Hesitates Is Lost

The person who hesitates and waits too long
loses the opportunity.
Delay or indecision may have a disastrous
effect of having no curability.
People who are confused to be educated
don't get job and suffer poverty.
People who hesitate to join the job or
business are lost, having no activity.
Minorities, women, and children suffer
a lack of ability and stability.
Opportunity comes once in life and we
must think of its possibility.
We suffer from population density with
lack of available job opportunity.
Confusion results in the lack of job
availability and decision-making ability.
The more you wait, the more you
lose time, age, experience, and their effectivity.
Hesitation and disaster intensify your
problem by increasing your anxiety.
Hesitation is bad and indecision is worse
as these are less implementable.
Try to study the opportunity and feasibility
of the facility to grab the opportunity.
If we are confused, let's eliminate the
hesitation to avail the job opportunity.
Indecision will complicate our liability in
addition to our existing anxiety.
For the sake of durability, let's try
to maximize the possibility and its utility.

He Who Laughs Last Laughs the Longest

The title advises against anticipating success
with its message.
It differs between the probability of success
and its assurance.
It is a dream to win the game before you
are a sure success.
To laugh last for the longest is a kind of advice
for a sure success.
We believe in our access to the success and
we laugh for happiness.
The laugh is our message to our friends about
our grand success.
Making sure for success is about a permanent
joy and happiness.
We laugh the longest throughout our life
for our grand success.
Gents, misses, and miss, of any age,
enjoy and laugh for their success.
Last laugh conveys an evidence of winning
the game in all the senses.
Temporary success is the one in part now
and then in any tense.
Permanent success sustains through the past,
present, and future tense.
Businessmen love to maximize the profit
and the related dividends.
Consumers always love to maximize their
utility and happiness.
Laughing less than the longest can see success
restricted by a fence.
Laughing the longest for a sure success is
for now and future tense.

He Who Pays the Piper Calls the Tune

The person who pays for the museum can
decide what music he wants to hear.
The person who pays for any service has
the right to say what he desires.
The workers are obliged to perform the
services desired by the paymaster.
Normally, the employers will decide
on the workers' terms of reference.
The payment provides us with the claim
for meeting the working demand.
The employees remain loyal to the
company with their working performance.
Payment and work are related according
to the direction by the paymaster.
The company decides on what and how
to produce the goods and services.
The employers decide on how much
to produce the goods and services.
The firm also decides on when to produce
the goods and services.
Management responsibility includes
the workers' performance evaluations.

Management will fix the workers' benefits,
salaries, and compensations.
The consumer decides on what, when,
and how to purchase goods or services.
Equilibrium, quantity, and prices are
determined by the open market competition.
Demand equates with supply of goods
and services to determine the market prices.
The ultimate paymasters are the final
consumers of goods and services.
The market and the supplier respond
to the consumer demand for goods and services.
Consumers decide on what and how much to
buy to meet their demand.
The consumer for any goods and services
has the right to change his desire.

He Who Sups With the Devil Should Have A Long Spoon

If you eat with a devil, take a long spoon to
maintain your distance.
To go with bad people, take care not to be
influenced by their action.
Don't get too close to devils when dealing
with those evil fellows.
Devils are really the evils who are vulnerable
to social tolerance.
The good people stay away from the devil
to make a safe distance.
Do not get affected by the devil's undesired
action and influence.
"Devils will not harm you" may not be taken
always for granted.
Don't give any access to the devil who keeps
you always tensed.
Bad people are not assumed to be
conceived with common sense.
Do not get too close to bad people unless
it is necessary for him.
From the devil always, try to protect
yourself with a shadow fence.
Don't go with bad people by yourself
or with a beautiful misses.
Bad people are always bad around us,
as there is a lot of evidence.
To do any bad things, bad people do
not have any kind of limitation.
Severance of the offence by social
nuisance goes beyond tolerance.
Stay away from bad people with
a long spoon by minimum distance.

Health Is Better than Wealth

Health is better than wealth and material or
non-material affluence.
A good name is better than riches or any
kind of financial influence.
Being free from illness is better than
being rich with property and assets.
Health means physical and mental well
being with its related assurance.
Psychological health is related to faith or
religious belief and confidence.
As a choice between health and affluence,
health is of course a preference.
Health, wealth, money, and good
name indicate a comprehensive success.
If you have a lot of money, but are sick,
you do not have any happiness.
Your cancer cannot be answered well
even with a lot of dollars or cents.
Sound body and mind and common
sense are needed to enjoy happiness.
Consumers maximize the utility
or happiness except those of the patients.
Health is an essence to make all the
sense in life and living environments.
Wealth is good, but you can't enjoy it
in the sick bed of a euro mattress.
We are, however, convinced that
health is better than wealth in any sense.

Hell Has No Fury Like A Woman Scorned

A woman rejected in love can be very angry
and even dangerous.
We are all scared of going before a divorced
woman, as she is furious.
She has nothing to lose anymore relative
to her rejection and torture.
Divorcees have no secured home for their
rest, pasture, and nurture.
Rejected women are more dangerous for the
reasons that are obvious.
Rejected women would be even more painful
if they are not religious.
Injustice made to a woman hurts her more
if the reasons are fictitious.
Rejected women are socially insecure,
the nature of which can be various.
About rejected women, a lot of others for
nothing become very curious.
Rejected women are humiliated as
if they are the available asparagus.
A rejected woman is one among the
few others who extremely suffer.
Women have a tough time in traditional
society, where their time is tougher.
All other women are scared of rejected
ones, as they are sometimes zealous.
Rejected women become furious if the
people relatively favor the others.
What else would you expect from the rejected
woman who is anxious for twenty-four hours?

Honesty Is the Best Policy

Honesty will always repay you by making
things easily available.
It is the best to be truthful all the time, both
sociably and humanly.
Honesty does not require you to do anything
undesirably or tactfully.
With honesty, everything can be done
within reach and very feasibly.
Honesty will help furnish doing things
both duly and completely.
Honesty will help us to be active to
accomplish things nicely and timely.
Honesty is always appreciated, and
with it you can perform things smartly.
Honesty is expectedly associated with
doing things nicely and intelligently.
You don't change doing things dishonestly
except to furnish them carefully.

Honestly doing things is a social memory
and norm to exist permanently.
Honesty helps us do things completely;
otherwise, we are done only partially.
Honesty means your actionable effort
is considered by all achievably.
Honesty helps us to be doing things quickly
both formally and normally.
Dishonest actions are subject to be accused
illegally and abnormally.
Your life is not a matter of casualty, so avoid
doing things daringly.
Honesty asks all of you to do things
eagerly, heartedly, and furnished timely.
Roughly and urgently performed things
are not taken appreciably and achieveably.
Try to be honest in doing things soberly
instead of giving it up terribly.

Hope Springs Eternal In the Human Breast

People are always optimistic that something
better is expectable.
People survive with hopes and aspirations, as
are thought as thinkable.
We love to think what is not in hand is
coming soon to be available.
I can't remove the hard fence today, but I
know it is soon removable.
Problems are unlimited today, but we can
make them limited and countable.
None can consider my proposal today, but in
time it will be acceptable.
I can't digest it now; soon I will find the
problem to be digestible.
Don't get so frustrated, as your bright
future is now predictable.
Though it is an irritable issue, in the future
it is something for sure achievable.
Optimism is related to ability, hopes, and
aspirations, of which are expectable.
Our job is to make some impossible things
possible with all efforts.
Hard work and smartly performed
things make the achievement feasible.
Expecting something without any effort
is simply taken as terrible.
If your brakes don't work, your car
to an accident is always vulnerable.
As you behave nicely, people around
you will be, to you, favourable.
Hopes and aspirations keep us as healthy
and wealthy as may be possible.

I Felt Sorry for Myself Because I Had No Shoes Until I Met A Man Who Had No Feet

Before complaining, we should think of the
context we belong to in all senses.

Compared to me, most of my friends have
been suffering from aging problems.

I am suffering from financial problems,
but many don't have health insurance.

I am healthy, but I don't have any patience,
and the other is a patient himself.

I can't walk without a stick, but many move
in wheelchair having no legs.

I am too poor to buy an eyeglass to read
properly, but the other is blind.

My parents are too sick to function,
but some others' parents have died.

I am poor and powerless, but the other had
stroke and no sense of essence.

My food is not nutritious, but the other
takes one instead of three meals.

My house is not a good one, while the other
is living in a tent or cyclone center.

I am not knowledgeable enough, but the
other is stupid or a nuisance.

I do not have a car, but many have been
suffering from a lack of necessities.

My parents can't meet my requirements,
but the other can't provide the basic need.

I can't afford any nurse in my sickness,
but the other patients have no assistance.

My job is not very good, but others have
no job for earning their family income.

If A Job Is Worth Doing, It's Worth Doing Well

Do not do the job if it is not possible on
your part to do it very well.
If you believe the study is good for the
life and living, do it nicely.
If you like to do some business, you plan
and start doing it efficiently.
If you do some business, do it nicely,
completely, and wholeheartedly.
If you believe you are interested in getting
the work, get to do it fruitfully.
If you like to defend in favor of an issue,
do it both nicely and logically.
If you want to offend stupid people and
their evil work, do that lawfully.
Try to protect some issues in favour
of human welfare comprehensively.
If you really plan to travel somewhere
join do it wholeheartedly.
If you peruse to achieve some objectives,
do it very well and passionately.
If you plan to establish some institution,
do it completely and attentively.
Instead of doing it completely, half done
will be viewed very badly.
If she is worthy of you, love her
without any confusion and wholeheartedly.
Conjugal life may be a matter of
tolerating each other with a love permanently.
If the tolerance turns to be terrible
and risky, decide mutually to live separately.
Remember, the most dramatic institution
in life and living is the family.
Do anything you love attentively,
completely, permanently, and beautifully.

If It Isn't Broken, Don't Fix It

If something is not faulty or damaged do not
try to repair or fix it.

Every action is faced by a reaction as it is
natural to have a tit for tat.

If there is no proposal for you to consider,
you don't need to respond to it.

If you are not asked to do it anyway,
you are not obliged to do it.

If you are not an invitee, it is not necessary
for you to go and attend it.

If you are expecting some guests to arrive,
try to keep your place neat.

Do not try to fix them by a dentist if you
are all right with your teeth.

If you fall short of protein, you must go
for eating high-protein meat.

If you are asked to take a seat, instead
of standing you take your seat.

As you are advised, go there to treat
all the deserving guests with a diet.
To get rid of excessive fat, do not try
anymore to eat any butter and sweets.
If you love to do something to satisfy
your interest, go and do it.
If you participate in a competition,
make all of your effort hard to beat.
To have self-respect, try to successfully
stand on your own feet.
Don't wear the dress with which you
will not be looking good to fit.
If she is not worthy of you, spending time
on her doesn't pay or is a waste.
If you are weak for a self-defense,
don't think of going to them to fight.
If your problem is overweight, you are advised
treadmill and diet.
If you don't have any problems inside, stay there
and don't look for an exit.

**If the Stone Falls Upon the Egg,
Alas for the Egg!
If the Egg Falls Upon the Stone,
Alas for the Egg!**

The life is by itself is not fair, and by other than
itself life is again unfair.
Life is like an egg and either way it's vulnerable
to break, unfair, or tear.
Stone always breaks the egg; life is just like
that in being fair or unfair.
Relative to somebody, you are smaller in
the event but they are bigger.
My contribution to anything is smaller, as
that of others is bigger.
If you are satisfied buying something less,
you can buy the other things more.
Some can perform a lot more than less if
they can be competitive and perform better.
In case of the above way between the
stone and egg, what is left for the egg is a tear.
If somebody is a gainer or a profiteer, you are,
of course, defined as a loser.
If somebody else is a better marketer,
something is left for you to be a loser.
The higher is the share of theirs, the lower
is left there for you to be gainer.
Some are daring enough, as there are some
others weaker to gear.
We are far from God because there
are some others remaining very near.
Strong people's lives are relatively more
fair compared to those of less profiteer.
People are defined as the highest if
somebody is left in the lower or lowest.

If You Can't Beat 'Em, Join 'Em

Most of the people in life have a common
goal about how to win.
If we can't go fast by driving in the lane of
the jam, we change the lane.
In the game of running a race, the efficient
one will be wining to gain.
The winning individual will be the same
or probably better or the best one.
Naturally, the most defeated one will be the
worst one for the crest to earn.
That which can't compete with an engine-
driving car is menially a pulling van.
Compete with your own effort if you
believe with expectation that you can.
Or, try to rationally decide to quit before
the referee decides you to ban.
You may be smart enough by possessing
a very sharp and intelligent brain.
But the smartness is not good enough
to competitively race with a train.
Decide on it again if you continue to
compete before you are stuck in a drain.
With the fisherman trolley, you really
can't compete with a ship of marine.
For some grooms, the common girl
will not compete as against the queen.
You cannot be a student of class ten
before you can pass the class nine.
If you can't win, simply give it up
and join the train before you go in vain.

If You Pay Peanuts, You Get Monkey

Try to be a paymaster to manage good work
and maximize production.
Try to maximize production before giving
up the company for auction.
Morning shows the day, and you show how
to sustain production.
By hiring a cheap worker, you are not going
to gain or you will not win.
To operate the firm very efficiently, your
management has to be the better one.
For the workers to perform, the management
has to have a good working plan.
To manage the company as efficiently
as possible try your best to find someone.
If you don't have an efficient check
and balance, ghee and butter will be eaten.
As you know, the dog can't eat butter
as the butter is desired only by the man.
The commercial officer has to have
knowledge of business transactions.
The marketing officer has to be
intelligent to move around like a fighter plane.
Higher pay will dig out all the talent of
workers that are remaining hidden.
Higher pay will help find the worker
with high-tech training and information.
You know how good payments for the efficient
ones help gain and win.

If You Play With Fire, You Will Get Burned

To play with fire you have to go close to it,
which causes a burning risk for you.
If you fool around with something dangerous,
it might be a harm.
Putting yourself in a dangerous situation,
you have nothing to gain.
Fooling around and taking a risk of
danger is not advisable for anyone.
If you fool around and play with fire, it might
badly burn you in turn.
Don't do something equivalent to lying
before an incoming train.
Stupidity may harm you by taking your
success and acquisition to the drain.
Danger must be considered carefully,
that which may take the life.
If you do not nicely observe, your company
will on the spot be eaten.
If you are careless, you may be offended
by somebody staying around.
By not increasing productivity, you can't
get back the mortgage under lien.
Fooling around in life will not leave anything
for you as our own.
Excuses in everything are bad and don't
get too drunk by drinking.
The bad work may put unnecessary strain
for nothing on your brain.
Be rational, regular, educated, and smart to
remain in life fine.

If You Wish for Good Advice, Consult An Old Man

Experience has no substitute for good advice
to someone or anyone.
Elderly men are more experienced, as they
gathered it from many men.
To have good advice, prefer to ask the elderly
instead of the young ones.
People grow old and gain experience ranging
from the worst to the best.
In response to your advice, old men refer to
the effective ones.
Next, the old man on the spot gives you
a reference for the alternate ones.
The oldest one guides you the most in
running your race in the right lane to win.
The old man with his vast experience guides
better than any young brain.
The elderly can advise you to go fast at the
speed of an express train.
The old is gold, and old rice gets steamed
much better than the new grain.
The young's advice may go in vain,
which will put you in further strain.
The elderly advise you in all possible
ways and means for you to gain.

Ignorance of the Law Is No Excuse

To say that we didn't know what we did was
illegal is not an excuse.
You are not supposed to make any kind
of offences unknowingly in any sense.
The lack of common sense or having
no sense of proportion is a nuisance.
Having no insurance is not an excuse to
obtain a free medical consultant.
Having no patience for a patient is never
an excuse to commit an offence.
As you are elderly, you can't claim things
done early as a legal privilege.
Friends and relatives asking my favour is
not either their social privilege.
The powerless receive priority as a
privilege instead of a legal claim.
The ignorance of law cannot be an
advantage to offend anything as a nuisance.
Laws guide you to make a difference
between common sense and a nuisance.
The law is not an instrument to guide
society and its necessary essence.
Grabbing the other's property is a legal
offence for which you face a defence.
Nurses are socially allowed to serve
the others and these are not any offences.
Obtaining any assistance in society
is not considered as a legal defence.
You cannot favour and help others just
because of their undue defence influence.

It Is Best To Be On the Safe Side

Higher is the risk, higher is the return,
which is true everywhere to maintain.
Be careful and cautious when playing around
as ferocious by using your own brain.
Make sure to achieve the benefit before you
make it for certain.
Before you try to deal with it, try to get
what it carries or contains.
Are you really able to meet your requirement,
your ability to manage and maintain?
Can you offend anything, including the
heavy rainfall, wind, and the rain?
Can you keep carrying out the work in
any circumstance like a good train?
Think twice about all possible alternatives
and utilize your sharp brain.
Don't take that much risk through which
you can be outreached by a drain.
Before you take the risk, try to estimate
if it is worth enough for its gain.
Before making an attempt, isn't it better
to think through its use for certain?
Try to estimate how the other people are able
to forcefully grab the pretty heroine.
Before making an offence in any fight,
think of the possible anti-submarine.
Don't take that much risk by which all of
the total success goes in vain.
Take only those risks for which you have
a painkiller for you to maintain.

It Was the Last Straw That Broke the Camel's Back

Doing everything more is better than less,
so do more and more.
We load the camel with straw until we
break its back with a tear.
Camels' backs are broken with too much
load, which we continue to do with straw.
Don't overload with what can break the
camel's back: the last bunch of straw.
We say "that's the last straw" when they
will not accept something anymore.
"More is better than less"—keeping this
in view, we don't make it a matter of sorrow.
Not thinking about the best to be on the
safe side is defined as not smart or narrow.
Think of the repayment capacity before
we borrow to avoid bankruptcy tomorrow.
Doing the best doesn't mean doing little
or less or letting it constructively grow.
Your policy plan may be the best if you
can follow an uprising arrow.
In the export market, you will do better
if the balance of trade is favorable with the euro.
"More is better than less" is good as long as
you maintain the limit by more.
If you don't break the camel's back, you don't
overload it with the last bunch of straw.
Be daring enough with your smartness

It's A Man's World

Everything in life is arranged to the advantage
of men in the world.
Compared to men, life is relatively tough for
the women's world.
For men life is gold; women compensate
by acquiring ornamental gold.
By living in the same world and family,
women are always in the war of cold.
To provide all kinds of services in all
the religions, women are similarly told.
Men are also interested in having nursing
from women who are mould.
Men are facing a lot of things in life by
being more courageous and bold.
Men are doing a lot of out-of-home work
and women are too busy for the home to fold.
Many more things can't be decided by women
alone, and they keep it on hold.
Men are relatively more capable of carrying
work of various kinds of loads.
A family goes up in a productive fashion
if the couple maintains their mode.
Humans are created by the same creator
and they must remain loyal to their God.
Family understanding is a pre-condition
with which their success is stood.
Women are good to help grow a flower
garden and men grow forest wood.
As long as he is capable with energy,
the man rarely gets weak and old.
After the marriage, women in many societies
are seen as if they are sold.
It is the man's world, where men make
their women mould and fold.

Jack of All Trades, Master of None

There are many people who are jacks of all trades,
master of none, or of no trade.

Doing different works doesn't make anybody
specialized for a good grade.

A nurse is good to serve the food, which
may not be tastefully made.

A man doing multiple trades may not be
considered as a deserving candidate.

It is good enough for general knowledge
to have an experience wide.

According to religious beliefs, God would
like for him to be prayed.

The nature and requirement of different
trades are found to be varied.

For a better understanding, people of the
same culture should be married.

People who can't specialize in anything
are socially defined as laggard.

A person pretending in knowing any
or many things might be a fraud.

A white-color employee can't be good
at performing as a watching guard.

If you know everything but eventually
you can't do anything, it is very sad.

The priest knows a lot but may not be
capable of coaching the army parade.

Let's try not to be a jack of all trades
and master of none as advised.

Keep Your Friends Close And Your Enemies Closer

Living beings are humans and animals, and the
latter are the jungle inhabitants.
Some humans are not far from animals and
are defined as the social enemies.
You'll be safer if you know more about
enemies than about your friends.
Look after your enemies in a better way
than your friends.
You know who the enemies are of your property,
family, and their lives.
On the job, it is hard to find any of your
colleagues as real friends.
In business, identify who are competitors
and who are zealous or full of envy.
All relatives are not equally friends;
some can be potential enemies.
In politics, nobody trusts anybody and
everybody is too busy to earn the facilities.
People of every religion are believed to
respect people of other religions.
People of different religions like to
keep themselves busy in cold war and tension.
Neither are we free from social enemies
nor can we sleep sound because of enemies.
Learn the friend and enemy, paying more
attention to the enemy.

Knowledge Is Power

Facts, information, and skills provide strength,
influence, and power.
People with influence or riches are relatively
more educated, knowledgeable, and smarter.
Students of enlightened families perform better
in school there.
Educated men and women are found to
reach the goals for their future.
Poorest of the poor are those who try
hard and earn knowledge with a tear.
People having no knowledge are isolated
in society as if they are deer or bear.
Knowledgeable people know better how
to take care of family members and their future.
The social strata of the knowledgeable ones
belong to its higher layer.
The knowledgeable ones are relatively
more respected by the other.
The rich and the knowledgeable ones
serve the society as the paymaster.
Without knowledge, none can compete
for the election of city mayor.
The government administers with the help
of its smart or bureaucratic administrators.
Smart and knowledgeable ones become
business elites with financial power.
Technological powers are taken over or
shared by the technical service holder.
Political elites are knowledgeable and
use their power in the election war.
The knowledgeable ones are relatively
strong enough throughout the year.

Least Said Soonest Mended

In doing something less than appreciable,
a long apology does not help.
Behave as if nothing happened; over time
the matter will be ended.
For some negative things in life, further
actions are automatically mended.
Raising some unpleasant issues may not
tend to get it amended or ended.
Talking less is sometimes preferable
to talking more to be less bounded.
In any problem, instead of thrashing,
keep quiet to get it finished.
Talk less and listen more not to waste time,
and behave as if nothing happened.
Dedication in positive discussion is
a shadowy way of getting it mended.
Human minds are sensitive and not comparable
to that of the materially repaired.
Talk as less as possible about any
thrashing to get it gradually resolved.
The best policy is to talk less or listen
more to keep everybody well hearted.

Let Sleeping Dogs Lie

The purpose of life is to satisfy and maximize
happiness from first to last.
Let's forget about anything irritating or any
conflict so as to not restart.
If the dog is sleeping, let it lie; as for
the dog and everybody, rest is the best.
Do not argue again for a conflict;
it will minimize happiness and its art.
If we are alright with everything around us,
let's forget the past.
If all of us can forget about any unpleasant
past we are considered smart.
We don't throw any dust or dirt to
unnecessarily make our life recast.
By letting the worst of the past go,
we are fine with everything of the present.
Not repeating the unpleasant happening
of the past, we stay better as we trust.
We are alright with no conflict tonight;
why should we invite the past of the last?
No complaint about the past should be in
the present, as the past is really the past.
Let's skip the worst of the past and add
everything of the best to the present.

Let the Dead Bury the Dead

We should spend our time and energy with
the living people.
It has no meaning wasting time and energy
on dead people.
The couple should spend their time as long
as they are alive.
Dead people lived with us as the idea and
philosophy of the noble.
Spending time unnecessarily with the dead
people is a waffle.
Since one of the couple is dead, he or she
should be alive single.
Not spending time and energy with the
dead is very simple.
Emotionally, crying for nothing for the
other is simply horrible.
If you can't bury the death psychologically,
you are vulnerable.
After her death, she is not supposed to be
a matter of any trouble.
Let the dead bury, as death is a very
practical idea of subtle.
Spending a lot of time for nothing for
the death is very terrible.
Think of those who are alive and their
problems, which are curable.
By thinking of those deaths, you are
for nothing making you liable.
To live with the living people, we
are very much in all senses capable.
Forget the dead and spend time on
living beings, as it is justifiable.

Life Is What You Make It

It is up to you to make your life what you
like as its maker.
We are powerful with a wide range from
worker to leader.
If you are lucky and work hard, you can
be an investor or employer.
If you are satisfied, you can remain
with a simple employee or worker.
A few people among us have been becoming
social or political leaders.
Some are striving in life with their low-paying
occupation of worker.
A few others have been leading the
business as an importer or exporter.
Many men and women have no work
and remain poorest of the poor.
Many women are working and others
are housekeepers for household affairs.
Some have chosen their life as a driver
to drive their officers to and from the employer.
Others have joined the armed forces
to maintain sovereignty as a fighter.
Some others have been serving the
community hospital as a doctor.
Others are in charge of building
infrastructure and building as an engineer.
Philosophers are planning and giving
theory on the goodness for human partners.
Others are innovators, creators,
teachers, dancers, singers, and similar others.
Among the others are speakers, traders,
dealers, officers, and workers.

Lightning Never Strikes Twice In the Same Place

Lightning never strikes twice in the same
or similar place.
In reality, it might strike two or more times
in the same place.
Lightning is assumed not to take place
repeatedly in a village.
Misfortune or bad luck differs in intensity,
mileage, and size.
Bad luck teaches us how good luck
maximizes happiness.
Good luck teaches us how bad luck
minimizes happiness.
The interaction of good and bad luck teaches
us how it compromises.
Facing bad luck for a while is not taken
to discourage.
The net of bad and good luck is the net
happiness in life with age.
We are virtually left with the net of good luck
and the net of happiness.
We don't worry about the rare misfortune
and its essence.
We have the option open to go ahead
with minimizing the drainage.
Over life, we are left with the net fortune,
joy, and wisdom.

Live and Let Live

We shouldn't interfere in other people's business.
We should concern ourselves with our lives and livings.
We should let the other people go on with their life and living.
We don't poke our nose into others' business.
To deal with our own, we have our own matters.
It is hard to listen: "This is none of your business."
Try to stay with your men and women's business.
Any interference endangers the other people's business.
You can encourage the others for their disadvantages.
Any kind of discouragement is taken as a disadvantage.
Don't discourage others for anything, as it is a disadvantage.
You better do things for you with your own advices.
Don't do anything for the other if it is interference.

Look Before You Leap

We think everything very carefully before we
take any kind of action.
Don't jump without looking at where you
are jumping for an interaction.
Once you are sure, participate fully without
thinking any or in fraction.
Before you go into action, try to activate all
the productive connections.
For any necessary participation, put them
in reality with dedication.
Make sure that your actions and reactions
are a matter of participation.
If you mistakenly decide, you will be
punished by a negative sanction.
If you are in the wrong direction, your action
will face a problem of contraction.
If you are on the right track, your action
will be welcomed for an expansion.
Try to learn everything before you jump
on something even in abstraction.
Make sure if it is positive to your life and
living for your participation.
If you are successful, all such actions
will invite you to pay an attention.
Don't do anything that is forever remaining
in your life as a tension.
Exchange the instruction to each other
on any action to correctly mention.
Rightful assertion and suggestion help
us with output and its production.

Look Upon Death As A Going Home

Plants and animals are biologically two living beings.
Animals and humans are zoologically two non-plant beings.
Living beings of any kind are born eventually to be dying.
Eternal address is a temporary one for the living beings.
Next world is the permanent address for our life and living.
Death means we are going back home for our perpetuating.
Death is considered as our permanent home for living.
The temporal world is for our temporary life and living.
We have to go back there for which God has been looking.
Death comes anytime, though we think it more with aging.
Death will not care if we negotiate its buying and selling.
We can't request death not to come now as we are working.
We can't say to death that we are busy in problem solving.
Death may come at the moment we are Olympic racing.
Death will not care if we are busy in studying or praying.
We have to go back to our house even it is not within our liking.
Let's get busy doing things as well for God in meditating.
We have to be caring for us and praying to God who is creating.
We must think of passing the final exam for God's judging.
God is waiting then when we are dying to join his meeting.
Any time, we can go back to our permanent home of living.

Make Hay When the Sun Shines

Only the sunny weather can help us better
to make the hay.
Or, we can take the opportunity of the sun
to make the hay.
We should make good use of opportunity
of the available day.
At bedtime, we go to bed for a good sleep
and prepare to lay.
For working time, along with the work of
interest, we stay.
To enjoy the music of water waves, let's try
to remain in the bay.
The parliament indiscriminately considers the
application by the gay.
As the time allocated to us for prayer has
come, let's get ready to pray.
To entertain the guest with tea or coffee,
make use of the available tray.
If you enjoy nature, make use of your front
with gardening and grey.
Make use of every little available opportunity
in the best possible way.
To have a certain kind of vitamin, make
use of sunbaths and rays.
As the sensible worker, let us try to enjoy
Labor or May Day.
If you have some say to a VIP, use the meeting
opportunity to say.
Be smart to instantly use the opportunities
in life in every way.

Make Love Not War

Love between people is better than fighting
for an unnecessary war.
Love is peace and peace is love, and either
way it is better than war.
Peace is no harm and peace in life is as if we
are lovable to each other.
Instead of behaving like a fighter, let's
negotiate to minimize fear.
If staying far away means irritating, stay nearer
to her or your lover.
If your going there is painful to your lover,
quit to go there further.
Do not do something that is a matter of
your lover's painful tears.
If you are scared of a bear, don't be alone
in the forest without your dear.
Open your window for a while, if you love
to enjoy the open air.
Do not do any hustles with anybody without
any cause mere.
Do not walk in the park barefooted or without
any shoes to wear.

If the lack of care is a matter of all her tears,
take that fact to hear.
Emotional love is a substitute for the painful
difference of social layers.
Ethical or moral value stops the tension,
if any, between the two peers.
Without the people's support, you can't
compete for city mayor.
If a quick delivery is required, use the
services of the urgent courier.
Try to substitute the daring attitude for the
dear one with love and affair.
Instead of minimizing the tension with
anybody, have a deal of fair.
If she lacks a confidence in love, upgrade
your love by higher gear.
In her long absence, he is suffering
a lot and pays attention to hear her.
Women can't walk with men and keep
in mind not to run like a hare.
Sincere love helps to substitute the difference
between the lower and upper.

Man Doesn't Live by Bread Alone

People need to satisfy both sides, physical
as well as spiritual.
Or, we need to take care of the aspects, spiritual
as well as physical and mental.
We cannot survive with only physical things or
with only mental.
Requiring many more things than we can think
of is in life very practical.
A large division of total requirements are
both physical and mental.
Needing a single division of the above is
not very normal.
A man's requirement is large if you add up
all these to get a total.
We are never satisfied with anything less
or only in partial.
A man's requirement is too many to be
straightened by the analytical.
We crash more of naturally born things and
objects than even the available.
Most of the time we are moral, but many
more times we are also immoral.

We need a comfortable house, air,
clothing, food, education, and health as eventual.
We need many more things than we can
think as are backed by a need that is casual.
The basic necessities in life and living are
regular needs other than casual.
Poverty makes me suffer more if nature
to me becomes brutal.
We start eating many more things since
our time of prenatal.
We need to be educated, medicated when
sick, professional, technical, and cultural.
Many of us love to be doctors, engineers,
dentists, and many other professionals.
We need to be investors, entrepreneurs,
employers, and employees as the occupational.
Sometimes, we are genetical or are vocal,
or sometime we are really practical.
Sometimes, we are overambitious and
want to go up in the manner vertical.

Man Proposes, God Disposes

A human being makes a plan, but God decides
its success or failure.

To implement the plan, it is the God who
grants it to make sure.

We do things, but God gives approval
of success or failure.

You can't earn success in anything, if its
natural approval is less than sure.

God wants you to do something, which
you are getting from nature.

If you are not lucky to go up the social layer,
you cannot go there.

If God loves you to do it, you can sell goods
as well as become a profit maker.

You are getting quality goods at the competitive
price, if you are a lucky buyer.

Pray to God sincerely that you get for what
God keeps open its door.

If you are good having no enemy for your
rest and sleep, God gives a secured floor.

She is always with you if God approves
your sincere love for her.

You are very dear to God, if you love
God's poor creatures.

Don't do anything immoral, as God
doesn't exist for mere there.

If God loves you for your honesty,
you can be a good businessman and trader.

Pray to God sincerely, and of you
God will take care.

You propose anything to do, and your God
is there to issue you an order.

Many A True Word Is Spoken in Jest

A joke contains wisdom and truth, which
is not the intention of a joker.
Wisdom and truth are experienced, and
we are not liable for its failure.
For the content of jokes and reflection,
the joker is not making anything for sure.
The joker is not responsible for any wisdom,
its success, or for less than it's sure.
Wisdom and truth are empirically framed,
for which we can't give any assurance.
Many more truthful statements are expressed
in jokes and are related to the nature.
Jokes are not an attempt to make you poor,
but they will tell how you are poor.
It is not really a joke if a soft-behaving
trader becomes a good seller.
If you are lucky regardless of the joke,
you can be a good buyer.
The burglar can enter into your house,
if you keep open your door.
It is no joke if all insecure ornaments are
stolen from her altogether.
Burglarizing is not very easy if there is
a mere watchman present there.
Many a true word is spontaneously
spoken in the gathering by the joker.

Many Hands Make Light Work

The more people that do a job, the easier the job
becomes for everyone.
Don't collect sticks from ten for somebody
to make a load for one.
Division of labor specializes every one who
can do the job without tension.
More people can make things simple, the
importance of which needs no mention.
The more people, the less the work load is
to conveniently carry as a sanction.
Add a skilled laborer to make lemonade out
of lemons in a separate section.
Get more people together to have a great
travel to the Grand Canyon.
Additional help for you in work makes it easy
for you to go in action.
In a legal offence, more people getting
together is good for a reaction.
Without a crowd, no performance is enjoyable,
including that of M. Jackson.
To face any international offence, it is
important to have unity of the nation.
We need experienced individuals to go for
international missions.
With a lot of consumers, the producers
enjoy their sales in season.
The more people enjoying, the more
you are excited about your creation.
To make more things work, more of the
participants will take precautions.
Technical delivery will be more effective
if more are available to take dictation.
The more available experts, the easier it is
for the factory and its operation.
Many hands are important to decrease work
load by a system of job rations.

Marry In Haste and Report At Leisure

If we get married hurriedly without thinking
carefully, we may be sorry later.
Why should we be worried about getting married
earlier and not thinking it further?
If we marry by getting scared in life and
living, the understanding may be a failure.
Let's make sure our lover is with us for our
whole life, as we marry to assure.
Marriage is both a necessity and an extra
responsibility allocated to us by nature.
People are suggested to get ready with
education and training for a better future.
A bachelor goes fast by acquiring education
and fitness for the living structure.
Before marriage, it is easy for us to prepare
and fix the possible social layer.
People of early marriages are vulnerable
to the low status of the social layer.
Relative to the married one, moving fast are
the bachelor's car, tire, and steer.
For marriage, people get ready with the good
floor for their worthy daughter.
Since she agreed to marry you with
expectation, you don't let her repent later.
You do not want yourself suffer from poverty
by being an unlucky fellow who is poor.
The bride needs to see the groom as qualified
and smart to be a potential earner.
Marriage takes place between families
with a similar name, fame, status, and honor.
Try to understand each other for marriage if
you can be a caring lover and partner.
For all the good reasons, do not try to marry
in haste and repent during leisure.

Mighty Oaks From Little Acorns Grow

The normal orders of words are “Mighty oaks
grow from little acorns.”
Small things become very large and impressive
with time.
For any problem, time is a great healer, and
for any business time is a tiller.
Businesses are grown with time and with the
initiative of entrepreneur.
If you keep doing good work, you socially
become a good name for sure.
If you are dedicated to your job or business,
you are going to be big or bigger.
Your sincere attempt will help you escape
from the possibility of total failure.
Our sincere effort helps us to switch
from the socially lower to the upper layer.
At your elderly age, you are in receipt
of a lot of large speech to deliver.
Starting as a small one, a dedicated trader
becomes the sole big supplier.
Starting as small ones, some industries
can be large with monopoly power.
Many tiny firms nationally or
internationally become genetic producers.
Your wife didn’t like your floor and door
to begin with, and is now with you a lot there.
You were unable to take care of the family;
now hundreds of the poor are under your care.
To begin with, you are too small to do anything;
now you have too many to take care.

Money Doesn't Grow On Trees

There are no simple ways and means of
making money.
It is not very easy to cultivate and earn
your source of money.
It is as hard to tackle as the complexity
of a hive to obtain honey.
We require the knowledge about the
ability to earn money.
We have to work hard to utilize the
opportunity in life to make money.
You have to have education, training,
and experience to be an employee.
These are important to have a good
job and family connectivity.
According to your expertise,
try to have interest, willingness, and ability.
With sound body and mind,
you are physically and mentally healthy.
If you are lucky, you can get a job anywhere,
including a high-paying industry.
For a promotion with an enhanced salary,
you have to perform your loyalty.
Business opportunities stay all
around to utilize your nightmare abilities.
Remember that the size of a business expands
or goes up with its productivity.
Good policy and plans are related
to the growth of businesses effectively.
Your products have to be of both
good quality and reliable weight or quantity.
Compromise with rigidity and inflexibility
to expand earning feasibility.

Money Is A Good Servant, But A Bad Master

If you have money, it will serve and work
for you very well.

If you are a borrower, you will be subject
to unpleasant control.

If you have money, in all the ways and
means you are doing well.

If you have a lot of problems, money can
keep you good there still.

If you have money, you can comfortably
have all kinds of social deals.

Having no money, everybody will leave you,
including those who are ill.

Riches are the owner of industries, including
the heavy ones of steel.

If you are a net borrower, the society or
bank will disturb you to kill.

As a borrower, you are getting a repeated
phone for repayment of the bill.

Lacking money, what becomes powerless
is most powerful of your will.

You can make good money if you are
fond of an institution unparallel.

Money is a good servant of the Middle
Eastern people due to their mineral oil.

As you are subject to control by the lending
agent, take a sleeping pill.

If you are guilty as a borrower, many keep
their ears to hear if you are in jail.

You cannot gift anybody and you cannot
wait for a pro-gift mail.

Money or the affluence is therefore a good
servant, but is a bad master to rule.

Money Is Root of All Evil

Caused by money are all kinds of immorality
and wickedness as its seal.
It is not the money itself but the love of money
that is the root of all evil.
Among the maximizers of utility,
some are simply money-loving people.
Some people do maximize their utility with
respect to money or rubles.
Immoral or good and bad men are both
money-hungry people.
To many, money and women are the
most important matters in life to deal.
If you have money, you do better work,
and you are immoral as well.
Wickedness committed by the riches
includes their unexpected social deals.
The rich attempt to grab pretty women against
any of the women's will.
The richest try to acquire non-deserving
property for their gap to fill.
Immortality and wickedness are never
considered by people parallel.
Wickedness is a bad name, and immortality
is a girl name for us as we feel.
Wickedness is forever and can't be compensated
by any kind of healer to heal.
Wickedness is permanent and exists forever as
something that is real.
Money is thus a root of all evils, including
unexpected feel, zeal, seal, and jail.

Money Isn't Everything

To many, money is everything, starting from
hunger to luxury.
There are other important things in life,
which you can't buy with money.
You can't buy love and affairs by money,
including one who is funny.
To be an industrialist, you need money to
buy a factory of tannery.
It is not money but vitamins for our cells
from sunrays or weather that is sunny.
We can't buy the sunny weather even
by an ample opportunity of money.
We can't get rid of sickness in exchange
of dollar, euro, or any money.
You can't really buy love from your wife
unless she loves you sincerely.
People always try to maximize their utility
subject to their buying ability.
Others are trying to maximize their monetary
or non-monetary utility.
To gain the soil fertility, we can't use money
to buy how to make it rainy.
Education, health, and the other services
cannot be bought with money.
Money will not work for an approval of
not burying somebody's dead body.
Money for dowry to the groom doesn't
guarantee for you not to worry.
In conjugal life, money does not help
your bride for a future kid to carry.
Paying money in the bridechamber is
not a substitute of response to any query.
Money is not a response to everything or
those in life and living of very many.
Money is not everything as it can't buy
things of any kind of necessity.

Money Makes Money

If you have money, you can use it to invest
and make more money.
Money is both complement and supplement
as found in an assessment.
You can easily invest additional money
in firm as a supplement.
You can spend additional money to create
more and more money.
Money is the necessary blood for any plan
or program to implement.
People get the job for wages and the company
offers employment.
You need to spend money to accomplish any
of your job assignments.
To make an addition or dedication, money
always helps the amendment.
For any kind of deal between parties,
you need money for an agreement.
For the additional experts, you need
additional money for recruitment.
To operate and run the company,
you need to pay for management.
To feed the family and yourself,
you need more money for nourishment.
Money is a medium of exchange,
which we need to make all such payments.
Without money you can't buy anything,
including all kinds of equipment.
To buy and sell and kill economic pain,
we need money as the ointment.

Money Talks

If you have a lot of money, it gives you a social influence and power.

If you don't have money, it is not wrong to assume "you are a failure."

If you have money in hand, you can accomplish a lot of things for sure.

If you have enough money, you can buy almost everything for sure.

If you have money, you are assumed to have everything more and more.

You don't stay hungry if you can make bread from the available flour.

As you are affluent, people love to take care of you more than the other.

If you are affluent, you are socially considered relatively good or better.

For your riches, you can be availed with many things and the address of her.

Having financial ability, you don't suffer with a status of net borrower.

Because of your maintenance ability, your home looks better than the other.

You have a great deal of respect as you are socially lying in the upper layer.

Lack of money makes you suffer more than others in life as a failure.

For financial solvency, you are relatively more a consumer than a seller.

Money talks for you and your friends, relatives, and social layers everywhere.

Nature Abhors A Vacuum

Empty space doesn't stay empty as it becomes filled in by nature quickly.

People look for a vacancy for their further activity to take a place urgently.

Many tend to fill in the empty space for their purpose of using for their family.

Others want to utilize the vacant place to include their farming of honey.

Vacant places are filled in by people according to their own abilities.

Some physicians look for vacuum places for creating Medicare facilities.

If it is urban or semi-urban, people need it for further business activity.

If it is environmentally favourable, people make use of it effectively.

Who gets the vacant space depends on interested ones and their ability.

For the vacant place, there may be some restrictions imposed by authority.

It is demanded with feasibility to create satisfaction or utility.

Businessmen look for a vacuum with some necessary curiosity.

Every little space has to be utilized for the socially required activity.

Every little space is summed up to be utilized with suitability.

The requirement of space is for the people both in quality and quantity.

Necessity Is the Mother of Invention

If we need to do something not done before,
we know how to do it.
Necessity forces people how to do things
in life that are of crying need.
Necessity doesn't care about any rules
and regulations for the need.
Two kinds of things have to be done in life,
either luxury or necessity.
We don't go for luxury, but we need
necessity for a minimum treat.
We use teeth to taste the bone or anything
hard without breaking it.
To have protein, we need to eat fish, meat,
or alternately lentil seeds.
If you are too poor to buy the chair, ask
your guest to sit on a bench to eat.
If you can't see the girl for you to marry,
use her Facebook to meet.
Be eligible with money if you decide to
marry or stand on your feet.
Sugarless sugar or sweetener is a substitute
to have the taste of being sweet.
Accept the job of a lower rank if you
don't get a better one because you are unfit.
If you don't like the place, don't wait or
safely take the route to exit.
If you are overweight, obtain the dietician's
advice and safely go on a diet.
Do not wait too long to argue, or
you better obtain a petition for writ.
Unless it is that necessary for you to go on,
do not go for a tit for tat.
Necessity is the mother of invention and
is usually found indeed.

Neither A Borrower Nor A Lender Be

People with less than the minimum money
borrow and become borrowers.
People having a surplus amount of money
need to lend and are lenders.
You borrow money from friends, relatives,
or social powers.
To lend money, you look for the needy who
are socially poor.
Being a borrower, you lose your social power
and remain poor.
Being a lender, you behave like a bear instead
of dear to your borrower.
The lender is worried for loan recovery with
the interest high or higher.
For your disability, the lender will be reluctant
for a peer relation to spare.
The lender behaves with the borrower as if
he is a city mayor.
The lender asks for the loan back faster and
the borrower prefers to be slower.
The borrower is scared as his life is shifted
to the control of the lender.
The lender is daring and worried to get the
money back by a year.
Both the stronger lender and weaker
borrower are socially in a state of cold war.
The borrower tries to hide and the lender
run after him as a forest hare.
The lender is a bear and the borrower is a tear;
an unsocial relation exists near the peer.

Nepal: Life and Living

Nepalese are respectful to each other and
the social problems are less in Nepal.
Eight-six percent of Nepalese are Hindu, 14 percent
are Buddhist, and Christians and Muslims
are the rest of all.
The intensity of conjugal problems is
less between Nepalese couples.
The conjugal wall is easily removed as the
husband and wife are very loyal.
It is not very easy for the Nepalese family
criminal to bail out their tail.
What is waiting for the family criminal are
the negative sanctions of jail.
In the country of Nepal, what is prominent
is the family tie and its thumb rule.
In Nepal, of waterfalls, what doesn't really
fall is the family life and the living hall.
For Indian visitors in Nepal, available is the
tax- or toll-free phone call.
Compared to Indians, hilly people in Nepal
are relatively healthy, thin, and tall.
The social life in Nepal as mentioned above
is found as the normal.
The Nepalese students can listen and speak
English with the foreign couple.
Nepalese can make a difference between
what is moral and what is not moral.
Except to favor the Indians, Nepalese
remain with foreigners possibly neutral.
Social life and living are very simple,
uniform, and traditionally bound in Nepal.
Nepalese life and living fall in its own tradition
and spirit like its waterfall.

Nepalese Waterfall

The source of the Nepalese fall is its high hills'
peaks, which are seen as simple.
What causes the waterfall to fall is the effect
of heat-on-ice as a couple.
All it means is that relations between temperature
and waterfall are never neutral.
Forests, apples, and jungles are very natural
to see in Nepal, including in its Davis Fall.
At the waterfall, you see how it is loud regardless
if it is moral or immoral.
Housing up the hill in Nepal is found with
telephones and light posts near the fall.
The waterfall in Nepal is very much local,
which for the tourists is a point of focal.
The waterfall and jungle are the main
sources of recreation for the visiting couple.
You can't cripple the hotel in Nepal,
which serves fish tail and scramble.
In Nepal you can find a lot of things to
be the recreational.
Nepalese culture is full of British Indian
thumb rule for its people.
Not very many people are in Nepal as it is
full of hills and waterfalls.
Not too many are found as shopping malls
and stalls in Nepal.
Family life and conjugal relations are found
strong all over Nepal.
Family life is firmly kept in life by all the
Hindu-Gopal in Nepal.

Never Do Evil That Good May Come of It

Never do any evil thing to anything as a good
thing may come out of that thing.
Do something with a good heart and soul to
achieve a good thing out of something.
Give up back-biting, which may hurt your
close friend through insulting.
An incentive exists and productivity increases
in the politics of the right wing.
Lack of incentive and productivity results
in the politics of the left wing.
The generator is for you to survive by operating
it with a rest it is taking.
Don't make your lakeshore dirty, as it can be
used for sightseeing.
Don't hurt your friend for any silly reason,
if you are going to be inviting.
Regardless of her beauty, try to keep her
in a good book who you are attending.
Don't hurt her any way if you always need
to meet for the description making.
Keep doing a good deal with her if you really
want to respond to her caring.
Even you don't like her, you will still
need her, as something is better than nothing.
Don't hurt her repeatedly, as you might need
her once again for something.
If she is not heartedly welcome, she may not
be able to enjoy your approaching.
So, don't do anything bad to anybody,
as a good thing may come out of his working.

Never Speak Ill of the Dead

Show respect to the dead by not speaking bad
about their life and living.
Dead people can no longer defend themselves
as a response to any offence.
It is better to forget the dead's bad action and
keep their goodness in mind.
Once he is dead, you do not need to fight
to shoot him down anymore.
It is meaningless to hold an evaluation meeting
targeting any death.
An attempt with death is meaningless in an
exchange in taking or giving.
The dead person is no more a partner of
your business deal or indenting.
Forget about the dead's bad action or
reaction to prepare for a fighting.
Forget the dead's bad action and deal
with his family and relatives by treating.
What will not hurt the dead is your ill speaking,
teasing, and insulting.
For his death anniversary, show his
family all your broadness by attending.
If I were you, I would try to be broad with
his people in participating.
If you are a philosopher, write your history
mentioning the dead's good thing.

Never Spur A Willing Horse

Do not urge someone who is already working
well to work harder or faster.
If you urge the good worker, he may be less
eager to work relatively hard.
He who has been sleeping very well, don't
ask him to sleep deep or deeper.
He who has exhausted all his efforts, it is
meaningless to ask him to work harder.
He has borrowed the car for a short drive,
and don't ask him to drive shorter.
Teasing a girl is illegal; you don't need to
advise the boy to do it ever.
He is trying to furnish the job heartedly,
and don't try to be his instructor.
You will make her upset by asking for more
care about her nursing.
He is driving at a maximum speed,
and don't ask him again to drive faster.
He has a good name in teaching; how
can we tell him to be a good teacher?
He doesn't need to be advised to be a
better dealer as he is doing it good.
Don't ask to sell it cheap, since they
are already selling the product cheaper.
We can't tell him to employ more as he
has a problem of overemployment.
We do not hire the waiter anymore as
they are sufficient in number in hotel.
A further employee will be irritating
as the workers are good in number.

No Man Is An Island

Since the primitive age, human beings are
found to be very much social.
Human beings cannot live in isolation as they
are strongly cultural.
We increase our family and social values
as we are by born morals.
We are living beings and born to die, and
so we are known to be mortal.
Islands are non-living things created by the God
and are virtually natural.
Individuals are not like an Island, which are
surrounded by water and are structural.
State has land, government, population, and
sovereignty compared to those in the medieval.
We are verbal, oral, focal, and social with relatively
more sense than nuisances.
We are both brutal and loyal, moral and immoral,
and our connection is central.
We are males and females, boys and girls,
uncles and aunts, and all kinds of people.
We are technical and general and in government
we are federal, local, and judicial.
We are offenceable and irritable and are also
defaceable and enjoyable.
Beyond all these, we are the best living
beings among those that are biological.
Zoologically, we are the best animal relative
to those of the forest animals.

No News Is Good News

Bad news arrives relatively fast compared to
good news.

If we wait and hear nothing about someone,
it is probably good news.

If we don't have to wait long for news to
hear, it is probably bad news.

News is important for us as we need it for our
knowledge or for its use.

We learn about bad news before good news
if we search and browse.

Some news is really bad news and unfortunately
it will confuse.

Many of us keep our ears open to hear about
bad news for its abuse.

Based on any news, we are interested
in expressing different views.

We don't love to hear any kind of news that
requires us to pay dues.

We don't attend the meeting where there is
a possibility of the lender's presence.

Before we join a gathering, we want to make
sure of the lender's absence.

It is better to hear and join the gathering when
the crowd is really huge.

We are not very interested in somebody's
affluence and his good news.

Similarly, it takes time to learn about
somebody's affluence to pay dues.

It is not very enjoyable to listen to the
references of somebody and his success.

To the media, bad news is news and good
news is no news to browse.

No Pain, No Gain

My pain or hard work is positively related to
my gain as an output of mine.
Higher is the pain or hard work, higher is
the output or the gain of my own.
Lower is the pain or hard work, lower is the
output or the gain of mine.
If a boy doesn't work hard in class eight,
he is not promoted to class nine.
If you can't buy expensive furniture,
you have to buy those made by cane.
If you take the pain of going to the grocery
of main, the best price is your gain.
If you look for quality goods you manage
to pay better for those made foreign.
As a farmer, you do better by cultivating
your farm with an opportunity of rain.
If you are not careful about your work
your labor input will go in vain.
Instead of taking a flight, your travel
is economical if you can make it by train.
If you are willing to study hard, go for
studying for the degree in marine.
For a healthy environment, keep it
neat and clean, including the system of drains.
You can get a high-paying job if you can study
hard with your brain.
The more you are careful about your health,
the more you are staying fine.
The more you pay attention to your business,
the more is your profit margin.
If you don't work hard, it is assumed that your
life will be vulnerable to ruin.

No Reply Is the Best

It is often advisable not to say in writing no or
yes or to give any answer.

If somebody expresses a comment that is
insulting, you try to avoid hearing.

If you are back-biting people, somebody will
be affected very badly.

If it is irritating to listen, avoid it and go enjoy
nature or sightseeing.

Instead of replying right way, take time to
think and respond nicely in writing.

If you don't get rid of someone's enquiry,
tell him you are busy with something.

Tell him you don't know how to reply or
now you can't think of anything else.

Or tell him that you are psychologically
busy in talking about something.

Tell him that you are thinking of somebody's
irritating behavior and teasing.

Tell him today's sunrays are very much
uncomfortable in tolerating.

If you still feel guilty, tell him you are mad
at thinking of somebody's cheating.

You can also tell him that you are seriously
thinking of a discussion meeting.

Don't go for fighting and go all the way
by not replying in the way of denying.

None So Blind As Those Who Will Not See

None are so blind as those who will not
care about anything to see.
Some are blind when born and some are
blind by not being interested to see.
To see anything in our own eyes, eye power
or the normal eye is the key.
Instead of the physical eye, innate eye of the
bees is used to go back to the hive.
Small birds know where to fly to find it free
for the fruit of blackberry.
With the use of the electronic eye, the jet
fighter knows exactly where to fly.
You don't need to make use of your own
eye to see how the curry tastes.
You have many more ways to help estimate
the country's population density.
The difference between day and night
can be made without the eye easily.
You can't make me observe something
that I don't want to see deliberately.
If I don't like some political party,
I cannot see their contribution devotedly.
If I don't like my wife, I can see everything
at home to be heartless and dirty.
Even I don't see it, my responsibility for
my children is growing up yearly.
I don't see anything wrong; the neighboring
enemy irritates me restlessly.

None So Deaf As Those Who Will Not Hear

None are assumed to be physically the same
deaf to hear by ear.
Some can hear more and less, though most
of alright ear can hear.
Some people who do not want to hear can't
hear, and they say so as lair.
The person who decides not to hear anything
is the most deaf or deafer.
If you can't hear your teacher for your career,
it is for you a matter of causing a tear.
If I am a borrower, I do not clearly hear a
telephone call from my lender.
If I am a lender, my ear is not clear about
the telephone of the poor borrower.
I don't want to listen to my lender as he is
always very bothersome there.
Since I don't want it, I am reluctant or do
not hear no matter how he is near.
Since I love to live with her, I want to hear
that she is soon a carrier.
I don't understand the telephone call for
a subscription from a terror.
If I am not lucky person, even my God
can't listen to my deep prayer.
The heroine can't understand the hero,
though she is trying to anchor the actor.
The shopkeeper is frequently asking for
the arrear, but I am not clear about her.
Anytime I telephone my borrower, she
can't listen to me because of the line barrier.
I try hard to correct the talking error;
she remains deaf like a deer or bear.
Compared to the other, those who are the
deafest do not even want to hear.

Nothing Is Certain But Death and Taxes

We can't be 100 percent sure about anything
except dying and taxpaying.
We can't escape taxation in the way we can't
escape dying.
We can be absolutely sure that we are paying taxes
and we are dying.
Since we can't escape paying taxes, it is
better to encourage paying.
It is for certain that we will die, which is
increasingly tense with aging.
We surely die, so let's furnish accomplishment
through contributing.
In this temporal world, let's increase our relying
on God by praying.
You are asking to depend on God and not to worry,
which we are doing.
I have been worrying, as I know for sure I am
going to be dying.
I need a clearance from "I owe you" by paying
taxes before my dying.
God will not be approving my application
for delaying my death or dying.
"I owe you" will not excuse me from
paying taxes for my inability.
It is better to be paying taxes before we
proceed to the path of dying.
Closing eyes, dying, and its thinking
are disheartening and frustrating.
Let's hope for the best in dying, tearing,
and for bearing everything.

Nothing Is Impossible To A Willing Heart

Someone who is eager or willing, keen and
determined can achieve anything.
If we are satisfied with “something is better
than nothing,” let’s try for something.
The willing heart and effort don’t go in vain,
as they come out fruitfully with gain.
Commitment, effort, and luck help us to
successfully accomplish the thing.
If we are talking by not working very well,
it would result in being insulting.
If we fight for something logically, we
can convince authority of approving.
Taking care of health by nutritious food may
improve the physical well-being.
If we keep researching, we are able to publish
a briefing on human well-being.
Driving sincerely, our confidence in doing it
will never be vulnerable to diving.
If you are inviting friends wholeheartedly,
they will be interested in attending.
If you keep running regularly, you can be
running the race and winning.
As the baby is walking, she doesn’t need
any help in completing her walking.
Do something attentively and sincerely;
you will be accomplishing its finishing.
Do it willingly, professionally, and philosophically,
and you can complete it beautifully.

Nothing So Certain As Death

We can be 100 percent sure that we will die,
as nothing is so certain but death.
We quit our life sometimes with or without
taking a shower or a bath.
“I will never be dying” is not a sentence to be
used in any kind of oath.
All of my teeth can die independently,
but I will die along with all my teeth.
Nothing is so certain as death, and so
doing illegal offences has no worth.
When you die, you have to go without
your property, which you kept as worth.
After death what will be counted if your
knowledge of next life suffers a dearth?
After death, I have to quit here by leaving
all of my well-wishers on the earth.
Once I die, I have to leave here leaving
everything including these, those, or that.
We will quit here after death, including
all of us from north to south.
It is better to learn things about the next
life from our knowledgeable priests.
You will not know them who are dying,
including those from east to west.
Everybody will die regardless of who is
skinny or healthy or fat or the worst.

Nothing Ventured, Nothing Gained

Higher is the risk, higher is the rate of return
to any kind of business.

If we never take any risks, we can't expect
to achieve anything in business.

Taking risk is positively related to the individual's
ability in his activities.

Who takes the risk are the daring individuals,
well versed in their abilities.

High-risk business is always associated
with its high return to its investment.

If you are a student, take the risk in preparation
to take and pass the exam.

If you are looking for a job, take the risk of
taking the test assignment.

If you are conducting a business, try to
maximize the profit by a high return.

If you are a self-employed, take the risk
of making money and the benefits.

If you are an ambitious philosopher,
study hard to promote happiness.

If you are a researcher, keep working in
maximizing social benefits.

If you are a scientist, take the risk of finding
new things as innovations.

Risks are related to capabilities, which may
be taken as maximizing the gain.

Oil and Water Don't Mix

If you add oil to water, the oil stays
separate without having any zeal to fill.
Some people cannot go together unless
they are succeeding in making the deal.
Characteristics are genetically formed by
birth and are defined as personal.
Individual characteristics are modified by
education and experience in general.
If you charge somebody for his misbehavior,
he says it is a choice that is personal.
Somebody behaves as if he is less than human,
while the others are really social.
Talkative people generally enjoy talking
about the others and specially their ill.
Some like to harass the other by acting
and reacting like a rice-husking mill.
Some lenders torture the borrower
sometimes by overloading the repayment bill.
With the simple man, bad people behave
as the substitute of a gun to kill.
Bad people usually suffer from tension,
inferiority, and their own created zeal.
She cannot enter into the mind of her bad
boyfriend as if he is a rocky hill.
I cannot discover her mind in my own
search regardless of my effort to drill.
You cannot control the bad girl even with
the help of the still or iron grill.
Most of the dwarfs seem to be relatively
more aggressive than those that are tall.
Having no sense of proportion, you don't
care how the due file is making a pile.
You need to invest a lot of oiling or buttering
to be able to influence her will.

Once Bitten, Twice Shy

If a dog bites once, you will have to be more
careful the next time.
We learn things from our experience
and mistakes without an aim.
With a little acquaintance, some are estimated
as good as they seem.
Once I have a bad experience, it is better to
resign from the team.
Having no response, don't keep writing and
exhaust the paper of a rim.
Don't buy it anymore if you can't work better
with this brand of vim.
If you feel good by doing physical exercise,
go daily to the gym.
You may be mistaken by misunderstanding,
so don't do anything on a whim.
As we are clear about failure, let's try to work
hard to earn the fame.
Once she is badly insulted, she would be
reluctant to go and see him.
If you know it is harmless, do it if you can
maintain your health at the gym.
If the weak building gets damaged, design it to
strengthen all its beams.

If it does not work very well, give up using
the available facial cream.
If your dream does not come true, give it up
for dreaming a further dream.
You know how bad he is so don't do anything
that lets your boss stream.
If you are suddenly bitten, your negative
decision can be extreme.
If the government is badly experienced,
it will not repeat the policy of pro-famine.
If your health is vulnerable to high blood
pressure, don't go have a swim.
Having no good job for weak in English,
learn things in English medium.
If you are well versed in English,
you can get a high-paying job at Oxfam.
If you are not lucky, what will not work for
you is playing with the trump.
If you are a good writer, don't waste your
time by playing on the side drum.
As you are loser for the less of weight,
don't buy things by seeing volume.
Since you are the loser, don't go for
the contract based on the lump sum.
Because of bad experiences, the girl
doesn't believe anybody except her mom.

One Good Turn Deserves Another

“One good turn deserves another” is
commonly understood by all brothers.
The merit is being helped by me in return,
if they used to be my helper.
If you are bitten sometime by her, don’t
try to harm her back as a biter.
If she is one of the best of your dears,
she might expect your good care.
If she favors me in something, I am obliged
to favor her in turn.
If she respects me, she deserves my love,
respect, and all the honor.
The people who have loved me a lot, I am
also obliged to be their lover.
I would be personally obliged to help the
other who used to be my lender.
If I used to borrow money from her, she can
anytime be my borrower.
If he helps me by providing some information,
I will help him to be aware.

If I am in receipt of a fair deal from her,
I can't be unfair to her anyway.
If she takes the trouble to come here,
I can do the same by going there.
If she helped me to gear, I am interested
in taking some load to bear.
If she is bearing a lot of my work load,
I can't behave with her like a bear.
I love to be with her all around, as she is
recreational like my dear lover.
She was scared with tears and we don't
see her over the years.
I don't want to see the terror anymore,
and I am now better than before.
If she is for me more than less, I can't be
for her any less than more.
Relative to her bad experience, she is safe
and rejects to be in danger anymore.
One bad turn rejects the further danger, or
one good turn deserves another.

One Might As Well Be Hanged For A Sheep As for A Lamb

If punishment is same for big and small offences
then why not commit the big?
If you get killed for stealing a lamb, then why not
steal a sheep as an offence?
If you get the same punishment, you may as well
commit the bigger offence.
If we receive the same award, then why not go
for the least defense?
If it doesn't matter to this now or later, we prefer
to do it in the future tense.
If the same output is achieved two different ways,
we take the easier one.
If the two products look about the same, then
take the cheaper packaging means.
If different dreams do not cost me anything,
then I will go for expensive dreams.
If she is satisfied, I will not buy the expensive
but those made of canes.
If the cost of small and big achievements doesn't
differ I will go for the big and its means.
If the cost of hiring is the same I prefer to hire
that of better sense.
If both the fences are equally good for my garden,
I will fence with the cheaper.
If any of the two offences cost me the same,
I might commit the expensive one.

One Tongue Is Enough For A Woman

Some people think that women talk more, many
of which serve as fighters.
If the women already talk too much about the
same, they don't need any others.
Arguing by talking is an oral fight, in which
women normally perform better.
Relative to men in oral fighting, women are
assumed to be better fighters.
Almost all over the world, women are relatively
more talkative everywhere.
Mothers are more talkative than fathers, which
you can't find anyone to censor.
Who is more scholarly between two genders,
though men are exclusive researchers?
Women are relatively more patient in writing
and to be exclusive writers.
Relative to men, women are assumed to
physically be weaker by nature.
Women are not assumed to be fighting here
and there or everywhere.
In walking and races, men are faster than
women as if men are forest hares.
The device of fighting between the genders
is the tongue, with which women are better.

Opportunity Only Knocks Once

We should take the opportunity (or chance)
when it really comes.

“Opportunity only knocks once” means it
doesn’t come more than once.

If you have an opportunity, don’t keep sitting
idly on the bench.

Once the opportunity is in hand, it may not
come again in the future tense.

Grabbing the opportunity must be the essence
of all, including the gents.

To every one of us, the appropriate use of
opportunity make a lot of sense.

If you can’t take the opportunity, you will be
disregarded as a man.

Keep your range ready to take the opportunity
tightly in all kinds of senses.

Don’t waste your time by estimating the
investment in dollar or by cents.

Opportunity must be grabbed without caring
if it’s dense or tense or behind a fence.

Take the opportunity by getting rid of
confusion for its good ends.

To take the opportunity, remove all kinds
of fences around it at once.

The rate of return to opportunity can be quickly
estimated through your calculator.

Once you grab the opportunity for your game,
it is your winning of Yanes.

Beware that chance comes once and may
not be more than once.

The third generation gents and women lack
a sense of proportion of any range.

Opportunity Seldom Knocks Twice

Take the opportunity or the chance when it
luckily comes.

It may not come again or you may not gain
any further chances.

The knocking opportunity requires or deserves
an action to jump on it.

Once the opportunity is knocking at the door,
grab it with your arms.

If somebody is too confused to grab it, he
badly deserves some slaps.

Opportunity is luck for you to grab like
playing cards and trump.

Don't put the opportunity idle for a long
time in the immovable drums.

Adopt the opportunity now and then by
learning how to do its adaptation.

Opportunity is not an unlucky thirteen,
which is rather for your bumpers.

Don't dump the opportunity as the wastage
output of your firms.

Opportunity is no harm; try to use each and
every piece by the gram.

Opportunity is not a worm; don't get scared
of its use for germs.

Jump on the opportunity and let your firm
germinate it in its own ovum.

Take the opportunity of your firm to see
the output of lump sums.

Out of Debt, Out of Danger

We are safe and secured when we no longer
owe any money to anybody.
It is dangerous to owe anyone any kind of
loan and its repayment duly.
To have a peaceful life and living, we have
to repay the loan as the key.
If you are not moving around the hive, you
will not be bitten by the bee.
After I am dead, I am totally out of debt
as the people take me to bury.
If my children get the job, I am out of tension
for them very easily.
As I am frequently suffering from the stomach,
I cannot eat any curry.
I need external help to get rid of the debt
problem and its density.
If I do not owe, my life would not be disturbed
by the lender daily.
It is hard to repay, as my business is made
competitive deliberately.
The loan repayment became complicated
enough this year since it's early.
Loan repayment is hard because of the
compound's interest monthly.
Debt repayment is hard as it is the sum of
principal and interest yearly.
Arrear as the sum of principal plus interest
is getting increased densely.
I am scared of loan repayment as my lender
is tough and dirty.
With the debt, I suffer over the years
seriously and restlessly.

Out of Office, Out of Danger

People in high jobs are not safe as they are the
guide or policy maker.
Wrong decision makers are the major cause
of loss to common workers.
Officials are safe after the separation as
they are no longer policy makers.
To the government and growth and development,
officials are contributors.
For economic development, the government
officials are the fighters.
Importance of high officials is not comparable
to the other or any other.
To convince the parliament, high officials are
considered good or better.
Lower-level officials are generally assumed
to be relatively less in danger.
Seniors collaborate with politicians and
operate offices everywhere.
Higher are the officials, higher is the role
player as the risky decision maker.
Higher are the bad officials, higher is the damage,
as they are offenders.
Damages the officials can make are too
dangerous to compensate by the defender.
The anti-growth policy makes the damage
committed by high officials.
The consequence of wrong decisions is
dangerously imposed on the employer.
High officials issue instruction as they
are scholars relative to the others.
Once the high officials are retired, they
are out of the above such danger.

Out of Sight, Out of Mind

We don't think anything correct if it doesn't
belong to our sightseeing.
If we don't see anything anymore, it is not easy
to update it in writing.
If I don't meet her for long, she can't quickly
guess about me and think.
If we don't see her long, her absence for me
will not be a matter of biting.
If she doesn't attend to me after a long gap
it is not an insulting.
It is not a bother for me if after the long gap
she is not remembering.
If she is not out of sight, I expect her to come
for seeing and talking.
If we keep writing to each other for us,
through which we keep thinking.
If she hurts and doesn't see me for long, I will
have little for her to think.
After a long gap, I have almost started to forget
both her pleasing and teasing.
Because of the long gap, my friendship has
been turned to be a kind of fishing.
She has been talking and meeting the other,
though it is for me a teasing.
I am communicating with the other for a
new relation and its matching.
We try to do lighting each other of the nearby
as we are for us waiting.
From each of the distant ones, we are almost
hiding by forgetting.
We forget the distant ones and are making
relations with that of nearing.

Patience Is A Virtue

The ability to wait without getting angry or upset is an individual quality.
Quality of goods and services is acceptable if we can rely on its quantity.
Instead of shouting, the ability to logically argue something is a quality.
Our patience helps us do things efficiently with the relevant capabilities.
Patience helps us resolve many social problems by increasing amicability.
Patience is helpful to design and furnish the work with all its suitability.
If you do not have patience, you can't gain from the team spirit virtually.
If you are impatient, you can't recruit the worker based on his eligibility.
A favorable input-output combination requires patience for its suitability.
Without patience, you can't have the optimum use of input for production stability.
We require patience to go by rules and regulations for the purpose of legality.
Patience is supposed to help decrease irritability and increase affectivity.
Lack of patience will tend to increase and complicate the problem and its density.
To study feasibility requires a patience to find the method and its applicability.
Impatience and disability are assumed to be related as bad possibilities.
Patience and creativity are positively associated for the output of quality.
Patience, capability, trustability, and suitability are related to utility and profitability.

Patience Surpasses Learning

Education and patience are both quality
characters of humans everywhere.
Patience is the ability to wait for a longer time
without getting angrier.
Education and training are important in life and
living to remove the barrier.
Education and patience are important,
but patience is needed relatively more.
The capacity to accept delay without getting
upset will help achieve more.
Patience and education are related and
patience makes an educationist broader.
The individual with patience gradually earn
respect now and forever.
Educationists with patience are never expected
to be as bad burglars.
Being an educationist alone is not good
relative to patience and education culture.
Without any patience, the business by an
educationist cannot be bigger.
Luck, education, and patience can make
someone a socially successful player.
In life and living, with education and patience,
we can be a good achiever.
With no patience, you can't evaluate the answer
script as a good examiner.
With no patience, you can't be able to
conduct the assignment as the evaluator.
Between two equally qualified, the one
with more patience is a bigger gainer.
To do a nursing job, you require a lot of patience
to serve in health care.
Learning and patience are good for an employer
to do well in business tenders.
Education and patience make you a respectful
man and socially dearer.

Pay Before Hand Was Never Well Served

Paying in advance doesn't define you a smart
businessman anywhere.

In receipt of advance, the supplier is reluctant to
perform in a timely manner.

The buyer is in tensed situation by not being able
to catch hold of his supplier.

You keep looking for the supplier everywhere,
but are not finding him anywhere.

You keep counting the principal plus interest
for the bank as the financial barrier.

Your relation to the supplier becomes bad and
you lose a business partner.

As you are not well served, you don't pay in
advance anymore or never.

Let's give up the paying in advance and get
well served in business culture.

Paying in advance is a danger of being
a loser instead of being a profit maker.

Smart is the gainer, but paying in advance is
pushing you into a corner with anger.

Advance doesn't serve well; let's not pay
in advance as a trade player.

Opportunity comes once in life; get
yourself ready to grab that as a trader.

People Who Live In Glass Houses Shouldn't Throw Stones

People who have been living in glass houses
should not throw stones.
We should not criticize other people for
things we do ourselves.
Hypocrites ask not to do something bad,
while they do it in practice.
Some ask us not to eat any fat and sugar,
but they keep eating butter and sweets.
He asks me not to participate in playing cards,
and he is busy in doing its trump.
He works as less as possible and keeps
asking me to work hard for stress.
He produces everything of no quality and
criticizes my branded class.
Most politicians talk about poverty
alleviation while they are not taking any action.
Hypocrites can't break the restricted rules,
but bribes get cleared for things.
If I sell my house, he will buy it, though he
did not like it and was being jealous.

My car used to be better to my friend;
after I bought it, it became worse.
He doesn't want to marry my sister, though
his effort to see her is rigorous.
Politicians do not see any poverty although
we are surrounded by its distress.
I am not suffering from any problems,
but to my friend it is a lot of stress.
Living in a glass house and the concern
of throwing stones are contradictions.
Hypocrites are jealous people who flash
your weakness and in turn ask your favor.
Hypocrites are jealous of the upper class
and cheat or insult the lower class.
Hypocrites comment on the worse as better
and better as worse.
They don't like you to make profits and hate
others who incur losses.
Hypocrites don't like pessimistic people and
discourage those being ambitious.
He doesn't see me anymore, as I am poor
and jealous of my brother who is rich.
Hypocrites are neither with themselves nor
are available with any of ourselves.

Poor Men Go To Heaven As Soon As Rich

God doesn't make a difference between the poor
and the rich men.

The poor and the rich are treated equivalently
in availing heaven.

Regardless of their affluence, God equally
rears heaven for all humans.

God is indifferent between people using
furniture of wood or cane.

Allocating heaven, God is indifferent between
people of different food grains.

For heaven, God equally prefers people of
sharp or less than sharp brain.

God doesn't care who the main man in the
office is and who is less than main.

People in the profit-making business are not
preferred in winning heaven.

Heaven doesn't disregard the poor relative
to the rich with yane.

Though poor is the woman, God doesn't
prefer the man for heaven.

Heaven is heaven of quality equally preferred
for men and women.

God will treat the same people from Bangladesh
as those from US zones.

Neither the rich nor the poor children
are free of punishment and rays of the sun.

As to heaven, God doesn't allow any
discrimination against anyone or none.

Men and women, poor and rich, common
and main all have equal access to heaven.

Possession Is Nine Points of the Law

The person physically owning something is in
a strong legal position.
The person who doesn't own but claims to own
is legally in a weaker position.
Owning something is a stronger position
regardless of age or if you are men or women.
Owning something is a stronger position
for people of any religion.
It doesn't matter if the land in possession
is remaining plain or producing grain.
Wishing to produce grain in a fallow land
can't strengthen it to own.
"I will keep the crop land fallow" is not either
a claim for any point of nine.
"It is my land with which I dream to work"
is not a point for its possession.
Possession is not everything to claim
ownership and documents are the main.
People remaining there with or without
a gun is not a claim to win.
Illegal fights between the groups to earn
possession will go in vein.
To spend yane for the helper's gift and wine
is never fine to earn the possession.
To make a drain for the rain and grow the grain
is not an ownership claim by any brain.
Possession, supportive documents, and legal
claim are needed for possession.

Practice Makes Perfect

The more you do something, the better you
become at doing it.
Regular exercise of a skill or activity helps
you become expert in it.
Practice in doing anything makes a man perfect
or close to perfect.
For a job of class delivery, an experienced
teacher is assumed to be smart.
To keep you happy with all kinds of satisfaction
you are worth in this earth.
If you know doing it in the past, in the present
you will know the next.
Rest a while at noon and walk a mile in the
afternoon for you to be worth.
Practice to talk less and listen more, and you
will be full of wisdom like a priest.
If you are experienced, you will estimate
the business profit in the next.
If you do not talk ill about death, you will
be a man of worth.
Through experience, you know many things
about how to blend.
A man doing yoga exercise regularly looks
lean and thin with no fat.
Impatient men with no practice and experience
are not worth or are the worst.
Discipline and regularity make a man healthy,
wealthy, and smart.

Prevention Is Better Than Cure

Before the disease occurs, we should be careful
about taking preventive care.
Curative care requires us to hustle to solve the
problem to cure.
To stop something bad from happening,
prevention is relatively easier.
Curative care to fix the damage is relatively more
difficult or harder.
If we hang the mosquito net properly, we
are secured from dengue fever.
If a student has to pass and acquire the degree
timely, he needs to be regular.
To get the job in timely manner, get ready to
smartly face the interviewer.
To perform the business, earn the real experience
as the buyer or seller.
The election candidate requires his name,
fame, and possibility of performer.
To start the business, remove all the barriers
as a preventive measure.
Advertise for your institution, without which
you are nowhere as a trader.
Try to be broader in life, which will not require
you to be a defender.
Culture, value, and morality lead you to not be
vulnerable to a societal ulcer.
Preventive measure is better than curative,
which is hurt by scissors.
People taking preventive measure are the
smart players and great achievers.
People taking preventive measure are gainers,
savers, and dreamers.
People taking curative measures are losing traders
and not free of danger.
The best caretakers of health are the
dreamers for preventive measure.

Pride Comes Before A Fall

To be too proud of ourselves or something may
bring a failure or disaster.
Being too self-important or conceited makes
us look foolish for sure.
Having pride is not good as it is the reason
in life for a fall or failure.
If you believe to be unparalleled, you are refused
to be here or everywhere.
If you are proud, you are disrespected as
you are less than a broader.
If you are too proud, you get separated from
the society for being a colour.
The proud doesn't respect the other and get
himself out of socio-culture.
In your way of socially going up further,
your pride becomes a barrier.
Don't get proud of yourself as you may fall
instead of going up the ladder.
Your pride makes the other people angry
and stands against you to go up and upper.
More you are proud of you, less you are
dearer to the other and your supporter.
By being proud of yourself, you are not
a gainer but a substantial loser.
By being proud, you keep losing many
of your friends and well-wishers.
By being proud, you are not a good
social player or a good achiever.
It is the saying in society that pride in life
is a cause of fall or failure.

Put the Pedal To the Metal

The proverb “put the pedal to the metal” means
to go as fast as possible.
Don’t try to do anything that is not possible
for you or simply impossible.
If you cross the speed limit allocated by the authorities,
it will be punishable.
You are asked to do things for which you are
estimated as capable.
Doing things fast is the performance expected from
you as the noble.
Doing things fast to maximize your benefit is your
noble goal.
If you cross the speed limit, the police will charge you
for a big toll.
Doing things relatively slow can be a good reason
for you in life to fall.
Do things in life and living within the regulations
and its different rules.
Society expects you to do something that is different
from those of bull.
Load your working life with something as enough
for you to pull.
Go by all help for the whole of social development,
leaving no hole.
Don’t try to fool society, by which development
will be less than full.
If you can’t produce quality goods, your goals
and achievements will fall.
Maximize the benefit and social welfare by working
as hard as possible.

Quietness Is A Great Treasure

Quietness is a great treasure, with which we go
silently as it is valuable.

Silence gives an opportunity to adopt the
rejectable or alternatively enjoyable.

Being silent, we are able to keep going as we
are enabled and protectable.

Silence is sometimes the best method of
constructible and the action of viable.

Silence is sometimes assumable and desirable
for many untold things that are viable.

Expected silence is good, the action of
which is not vulnerable to trouble.

Sometimes you keep quiet and observe only
so that you are not in trouble.

If you keep quiet and listen only, your
argument in the discussion is negotiable.

If your participation is irritable, your prior
discussion is restrictable.

If some are guilty as presumable, their
silence will be considered negligible.

If you argue too much, your action is
reacted and you may be punishable.

If you are guilty, your silence can help you
to some extent be not revengeable.

Your silence would be acceptable to the
judge and the other may be punishable.

Talk less and your references and CV will
help you to be workable and employable.

Silence is valuable as it identifies
you as tolerable, feasible, and countable.

In achievements in life, you are largely
considerable and valuable.

Rags to Rags In Three Generations

The first generation of a family makes money
as if they go from rags to riches.
The second generation holds and keeps the
money as if they stay with riches.
The third generation squanders or loses the
money as if the family goes back to rags.
The first and second generations are affluent
in society with all kinds of influence.
The third generation has no knowledge about
how hard it is to acquire financial success.
They are not kind enough to the inherited
sequence of the family influence.
It is not hard-earned money for them, and
they think it is easily available for riches.
They don't care to squander the money and
incur losses in their all branches.
It would even be dangerous if they didn't
have a good education from success.
Hence, they don't have a lens to see their
future and care of having any tense.
They are not used to rags and don't care
about their decreasing affluence and the fence.
The third generation men, women,
and their students look for employment.
Their financial problems start to be
dense as their sequential consequence.
The first and second generation win the game and
the third generation seems to be a nuisance.

Revenge Is A Dish Best Served Cold

If someone does bad to us, wait and pay them back
later, not immediately.

Vengeance may be more satisfying by not
inflicting immediately but later carefully.

Give an effective lesson to the offender so that
he doesn't behave with anyone roughly.

If we don't punish the bad man, he will
continue to misbehave periodically.

We believe that revenge is due for the bad fellow
for our living happily.

A bad man can be treated rejectably by the other
instead of being acceptable socially.

We should do something to the bad man so that he
repents psychologically.

Our objective is to live in the family and
society very peacefully.

Restriction to live gently and socially should
be removed gently or politely.

If we don't take any revenge, we will continue
to suffer periodically.

A bad action is no good but revenge is advisable
for the other to live happily.

An appropriate revenge is suggested for every
one of us living gently and suitably.

Revenge Is Sweet

People would like to maximize utility and
happiness in their life and living.
We like to minimize something we are
not enjoying, disutility, and the bad feeling.
Avengers are hurting, revenge tastes sweets,
and we need to diminish hating.
Do thrashing, washing, trashing, and acting
to bring in the good feeling.
Love the people, go for dating, and enjoy both
sides of the coin by crying and loving.
Take revenge if she is not cooperating but is
hurting and attacking my feelings.
If she is confused to be willing, try your best
for her by tailoring and moulding.
If she doubts your future, try hard with
studying and work to improve your living.
Try good by performing to face the test
and evaluation for succeeding.
If you are sincere and dedicated, you
will be taking revenge by recovering.
If you have a bad feeling worsening and
crushing, take revenge by knitting.
Turn your bad feeling to good at work if you
are satisfying those supervising.
Upgrade yourself by inspiring and encouraging,
if you face anything hurting.
Sincerity and hard work are your revenge for
satisfying your life and living.
Get rid of anything discouraging and strive
for something encouraging and exciting.

Riches Have Wings

Money and riches have wings to fly, and thus
money can disappear easily.
Money is like a flying bird, which can fly
away if not kept carefully.
Money is not found anywhere without an effort
to acquire it conveniently.
Once you are lucky to earn some money,
try to keep it cautiously.
The money will not like you much if you
can't catch hold of it tightly.
You can earn money only by working
hard devotedly and attentively.
Since your income is treated nicely and
fairly, do not misuse it badly.
If you are lucky, you are successful in earning
totally and in life entirely.
If you are not smart, you can earn money
in life only partly and loosely.
If you are not careful, you can earn money
roughly and temporarily.
People with relatively less smarts can't keep
the money seriously and tightly.
People with relatively more smarts can keep
the money nicely and sensibly.
First and second generation earns and the third
generation squanders or loses the money.
Hard-earned money stays with its owner,
who doesn't lose it frequently.
Easily available money is hard to keep as it
has wings to fly easily.

Rome Wasn't Built In A Day

Great things like the city of Rome took time to
build strongly and structurally.
All living and non-living things and structures
take time to create completely.
We should not expect to accomplish or
achieve success immediately.
To help build the road, bridge, culvert,
and railway is not possible hurriedly.
Growing a forest takes a hell lot of time to
get it furnished completely.
Schools, colleges, and health care centers
cannot be built quickly.
It takes time to rear and bear the children
qualitatively and satisfactorily.
It takes time for our children to go through
studying and knowledge satisfactorily.
It takes time to acquire education and training
fairly and attentively.
It takes time to prepare for the high-paying job
extensively and expensively.
It takes time to run a business with a profit margin
sensibly and largely.
Marketing any of your products takes time to do
nicely and significantly.
Let the girl and you grow by taking time to get
ready for marriage and family.
Take time to have children so as to enable you
to help grow them nicely.
You can't accomplish anything shortly, nicely,
correctly, and satisfactorily.

Rules Are Made To Be Broken

There are times when we are reluctant not
to obey every rule blindly.
Rules and regulations are framed to do things
of necessity and luxury nicely.
Rules are made for convenient a life and living
expectedly and beautifully.
Rules are framed by us to serve us and not
to serve the rule boundly.
In the pragmatic life and living, different
needs require many things variably.
Each and every requirement can't be fulfilled
with a rule briefed structurally.
Many things in life may not be possible
to help explain conceptually and nicely.
Something may deviate from the conceptual
frame of rules partially or fully.
To meet our needs, it is impossible to frame
the rules daily, weekly, or yearly.
Adjust the requirement of the current rule
as it needs variably or completely.
You keep getting one after another to
adjust further concretely.
You do not end up with adjusting
the rule urgently, legally, or constructively.
Humans are not bound by rules and
regulations as we live beyond rules possibly.
We are able to make a substantial modification
in rules to break them logically.

Say Well Or Be Still

If you can't speak good of someone, it is better
not to speak or keep quiet.
Saying bad about somebody is hurting him;
don't speak that to a kid.
If you are mad at somebody, don't go to meet
him and take time to wait.
Encourage the student to study hard and
do not discourage any student.
If she is overweight, you can advise her
for her goodness to go on a diet.
If she is sick, you can help her by taking her
to a physician for treatment.
Keeping quiet is safe as it will not get you
involved in a fight.
It is fairly safe and right for you if you
can keep your tongue tight.
You can be right to write in document something
that is very neat.
Try to be a friend in need as the friend indeed
by giving a good guide.

Don't hit him by saying bad to him,
which may be reacted to by a hit.
If David is a cheat, do not go and meet
him to badly annoy him and hit.
If you say bad about any company, you can't
go to them to bid for an aid.
You can't talk bad about him as he provides
you with bread, butter, and meat.
Do good work for the company by not going
and joining there with the aim to eat.
If you can avoid somebody, do it by not
going against him to fight and writ.
Say good or well about the other; otherwise,
keep quiet or gently quit.
Saying something bad to any is as if you are
hurting him and wish to bite.
You would be right by keeping quiet and
not going there to fight against David.

Scratch My Back And I'll Scratch Yours

If you do me a favor, I will do one for you in turn
on the other occasion.
In other words, I will help you if you help me
as a mutual cooperation.
It is relatively easy to have a mutual help
in the society as a positive sanction.
Everything can't be bought and in-kind
assistance is important to mention.
Among the social beings, everything can't
be exchanged by a formal action.
If you scratch my back, I will scratch yours
in turn in a mutual fashion.
If I take you to physician for your sunburn,
how to help me back is your concern.
If you are done with my assistance,
in return of which from you I am the one.
If you are concerned for me, I would be
obliged for you in return.
For a positive action for you, you are obliged
for a similar reaction in turn.
For you, I won the deal and I am looking
for how to help you to win.
I will invite your participation as you helped
me to get rid of a tension.
Thanks for the help for my business;
I will resist your business contraction.
You help me to acquire a good name
and I help you with fame achieving.

Seeing Is Believing

Only by seeing it with our own eyes are we truly
thinking and believing.

Before we can accept it as real or existing, we
have to be realizing.

Thinking or believing something is not enough
to be seeing.

Without having something materially in hand,
it is simply in the stage of dreaming.

Without seeing or by simply listening is not
enough for someone to be possessing.

Seeing something in hand is better than
the possibility of realizing.

Two birds in the forest are equivalent to the
one bird in hand that I am having.

I am doing it better than would be doing or
about listening for its doing.

Acting and reacting is better than possibly
acting and interacting.

Seeing something near is better than
simply hearing about and discussing it.

Identifying his place of staying is better
than hearing about his goings and comings.

Having something in hand is better than I will,
for sure, be having or receiving.

To keep looking at something on my own
is better than believing in its seeing.

Without seeing something practically,
it is neither enough nor true by thinking.

Share and Share Alike

Sharing is a division of monetary and
non-monetary assets between partners.
Give everyone an equal portion in the sense
carried by share alike to share.
The earner getting their proportional share is
very rare or an inequitable share.
The poor is discriminated against the rich
in wear in summer and winter.
Love and affection are not shared equally
if the lover taking care becomes lair.
The rear admiral is unable to distribute the
job between the fighters during war.
The bear doesn't discriminate between living
men as it is a big killer.
We love to equally see the deer as they
were dear here, there, and everywhere.
It is rare to convey the fair message of the
poor to the rich's ear to care.
In capitalism, survival of the fittest is the
principle for your fair share.
In communism, contribute to society as
a performer and get your share.
Regardless of whatever you do or work in
socialism, you get your share.
You gather together as the workers near to
each other but are not alike in the share.
Somebody receives a gear to improve
their career and the other of wires and tears.
Speakers and teachers get lighter shares,
which they don't care as professional hunger.

Silence Is Golden

The value of saying nothing sounds like silence,
the value of which is golden.
There are so many things, many of which are not
clear to us without any hints.
Without getting anything what it means, we can't
pass it on with a comment.
Wait and see with no comments to decide
on its permanent.
There are many more constant things that are
not really permanent, like the cement.
Continue to listen to the patient like a physician,
before you decide to stay dormant.
Maintain your status of remaining silent and
continue to listen to the saint.
As a decent man, don't try for nothing to use
ointment to repair the dent.
Don't get admitted to the hospital to become
a patient if you don't need treatment.
Try to avoid problems in life by remaining
absent or by not being there present.
You are confused about the deal as it doesn't
warrant any investment of a cent.
Silence and patience are sometimes golden
as these pay off like an ointment.

Silence Means Consent

If you are silent and don't give any comment,
it is as if you do not disagree.
If you keep quiet, you do not give any comment
as if you do agree.
Even you don't agree, your silence means
that you automatically agree.
If marriage is sometimes arranged, the bride
and groom keep quiet to agree.
If the bride or the groom remains silent, she/he
or both agree to marry.
The cook receives no comments from boarders
because of good curry.
As I do perform the job and my responsibility,
it is no problem for me to carry.
If I don't object to her misbehaving, it indicates
that I do not worry.
If the groom doesn't misbehave with my
daughter, he doesn't demand any dowry.
If not interrupted, somebody who will squander
or lose money is of generation three.
If you keep quiet, you don't object if she revises
the plan in any way to vary.

If you don't comment, you are not asking for
a change of any degree.
If you believe that your judgment is alright,
you are not asking for any jury.
If the people of the main city do not object,
you do disregard the periphery.
The proposal is accepted to you provided
you don't disagree.
You don't have a problem with Hinduism,
if you welcome them and Mr. Sree.
If your stomach doesn't get upset, you are
assumed to digest the product of dairy.
Since the dead can't speak anything, it is no
problem if we take him to bury.
Since my children love to eat blackberries,
my madam doesn't object to growing its tree.
If you don't receive any response to make any
change to it, it has no query.
If you agree or give consent, keep silent
and do not proceed with any query.
Silence means you are accepting the activity,
having no say in any sorry.

Slow Help Is No Help

When people ask for help they usually need
the help soon or immediately.
If you delay in helping, it is like not helping
at all as understandable indicatively.
If you are not helping somebody soon heartedly,
it is not help presently.
Justice delayed is justice denied as and when
the help doesn't go instantly.
Not to consider somebody's request for help
rightly is considered negatively.
Not considering somebody's request for help
instantly is taken irritably.
Not helping instantly is the equivalent to
denying the helping possibility.
Taking time to help essentially is to refuse
the help almost absolutely.
Helping somebody reluctantly or lightly is
not at all a help expectedly.
Not helping somebody heartedly is relatively
almost not a help correctly.
Helping somebody tentatively is rather no
help or less than a help comparatively.
Helping somebody conservatively is basically
no help at all intuitively.
All of these above are equivalently understood
as no help effectively.

Soon Learnt, Soon Forgotten

Something that doesn't take time to learn and
is quick to learn is easy to forget.
Learning is something in which we need to be
educated so as not to get it forgotten.
Learning is something acquired dedicatedly
to make it digestible so as not to forget.
To learn things, continue to interrogate
and respond, which we can't invalidate.
Taking time is mandated for learning to be
irrigated and educated to evaluate.
Learning takes time to be designated as
educated, which is not easy to dilute.
With a quick version you can't have been
bestowed with the knowledge to indicate.
Knowledge is simply to be adequate,
a short version of which is subject to assault.
Educated ones will be surrounded with a lot
of things to remove the barricade.
Learning stimulates you to invalidate the
constraint to growth and development.
Learning helps you not to violate the
law and order, judiciary, and the government.
A long learning helps for agitation and
any harmful things to eradicate.
With a short knowledge, you can't ignore
being offended by the other's assault.
With a short knowledge in something,
you will have a hard time to implement.
A little learning will misguide you to violate
and irritate the social beings.

Speech Is Silver, Silence Is Golden

Speaking is good, but saying nothing of
sensitivity is better.
Compared to using even eloquent words,
discretion can be worth more.
Speech is silver but silence is golden as
it is dearer to many, him or her.
Silence indicates you as braver as it tends
to increase your treasure.
Your silence also indicates you as braver
following a speech by others there.
Instead of talking a lot, it is better to keep
silent as the gentlemen prefer.
By not talking much, some can express their
smartness are scouts of rover.
Even the bad people win the game by
keeping quiet, including robbers.
In controversial matters, keep quiet instead
of attempting to deliver.
Sometimes you are advised to speak less or
very little if the matter is severe.
You can speak gently after the matter to be
worried about is almost over.
Silence is better than speaking anything
at the cost of your own labor.

Less than necessary talking is sometimes
helpful to stop the problem to be deeper.
Speech is silver and silence is golden, the
other way around of which is found never.
Speech is not better than silence as found
before or after or forever.
Don't talk much to complicate the problem
above or beyond there.
It is not advisable to speak up for nothing or
for anything to cover.
We know that your silence doesn't indicate
you to be suffering a fever.
Talking much can mislead you for the less
than expected to favor.
"Keep quiet" indicates that you are not anti
to anybody, but for all a lover.
Less you talk, more chance you will not to be
infected by cancer of the liver.
Less you talk, less problematic you are and
high is the chance of getting waiver.
Talk less and listen more to the other indicate
that you are clever.
Listening more will enrich your head with
knowledge to be heavy or heavier.

Sticks and Stone May Break My Bones, But Words Will Never Hurt Me

Attack physically to injure somebody, but attack
verbally if you don't want to injure.
If you like to attack physically or mentally,
it is your discretion as the offender.
How the victim will defend if attacked
physically is a matter of the defender.
Physical attacks can hurt the victims physically
no matter how heavy they are.
Verbal attacks can't hurt the victims physically
no matter how light they are.
Don't attack somebody physically if you want
to make sure to care about her.
It is our discretion to decide how much we
attack our staff, by less or more.
By a verbal attack, what is remaining open
before us is our door.
Relative to a physical attack, verbal ones
can be of relatively more vigor.
For some bad offenders, a verbal attack can
be a matter for them to bore.
To many of us, a verbal attack is neither weak
nor is it poor.
Verbal attack is a fight in the water and physical
attack is a fight on the seashore.
Verbal fighting is the core method of resolving
a problem of any sour.
Don't intensify your problem by a physical
fight and suffer there with the other.
Argue logically for all problems to cure
there and find you with a good wear.

Still Waters Run Deep

Some rivers have rough surfaces with different degrees of waves.

That is because the water is shallow and there are rocks under the surface.

Deep rivers have no rocks at all, or if any rocks, they lie far below the surface.

The water is smooth and still as there are no rocks under the deep river's surface.

“Still waters run deep” means calm people are of “deep” personality in ways and means.

People of deep and strong personality can be of any race and sex.

Depth of rivers is associated with the blessing of smooth dresses of water surface.

Stronger is the personality, the more feasible ways and means lie in the apex.

People of high personality have mere access for many things to arrange.

Higher personality enjoys the better opportunity for his motive to exercise.

Strong personality enjoys the delivery of thoughts and ideas into several boxes.

For the pickup and drop, the people of high personality do not lack any buses.

High personality is given the responsibility for any bad motive to crash.

Chance of decreasing or ceasing the bad offence by a good leader increases.

Yes or no can be rightly traced by a strong man by not making a mess.

Strong is the base and more is the chance to resolve the problem as we guess.

Browse a strong man is not lousy, the appreciation of which is a huge.

Strike While the Iron Is Hot

Luck doesn't knock on the door always; once
it is there, seize the opportunity.
When we have the chance to do something,
we should do it immediately.
Otherwise, it will be too late to do anything
nicely or conveniently.
Try to do anything quickly by taking the
chance strongly instead of lightly.
If you take the chance wholeheartedly,
you can easily furnish it beautifully.
If you use the opportunity partly, you
may not get a chance to do it completely.
Let's get friendly to smartly accomplish the
opportunity finally and confidently.
If the opportunity is good and rare, don't
do it partly instead of comprehensively.
If you are not enough to take the chance
alone, do it collectively or collaboratively.
Before divorce, we spend times tolerably,
and after divorce we go into life terribly.
If you start to take the opportunity, you
can finish it rightly and beautifully.
If you are attentive to take the opportunity,
you can get it done timely.
Don't take the opportunity ordinarily as it
deserves the attention extraordinarily.
Instead of responding to the chance lately,
do it quickly and strongly.
It would be our foolishness if we take the
chance too lightly and weakly.

Talk of the Devil and He Is Bound to Appear

Talking of the devil or speaking of the devil
may invite him to appear.
Somebody that we have just been speaking
about may suddenly appear.
Keep talking about people, and we offend
the lower against the upper.
If we dare to talk about graveyard, we don't
keep hearing about caring the future.
Keep talking about the possibility of what you
cannot get done during the year.
If you keep talking about the poor, you
do not get in touch with the non-poor.
In talking about wear and tear, you don't take
the chance for your affluence to appear.
If you keep talking morality and rationality,
you don't see the devil appear.
If you discuss children's education, the devil
gets out from there.
If you talk about education and smartness,
the devil will not come and enjoy to hear.

Increasing personality is not very popular
to the devil, and the devil will disappear.
Devil doesn't attend to the educated family
and is never coming there.
Talk about good food and health, which the
devil does not enjoy to hear about there.
Work hard to alleviate poverty; the devil
will not dare see you in the year.
Try to increase women empowerment;
the devil will never appear there.
Try to build up schools and hospitals;
you will be restricted by someone nearer.
If you favor the women, you have to hear
that you don't have any character.
If you don't discriminate against the minority,
you are not a good social worker.
If you talk about the social welfare, you are
a nuisance and the devil disappears.
Disregard others to enrich your treasure,
and the devil is back near you to share.

Tell Me Who You Go With and I'll Tell You Who You Are

The proverb suggests that like minds stick together.
If I know your friends, I know your character.
If I know what you did last year and this year,
 I can guess your plan for next year.
If I know your social status, I can guess if
 it is lower or upper.
If I know what you dare to care about,
 I can form an expectation about you to hear.
If I know your activity, I can guess your
 status of being poor or richer.
If I am aware of your nature, I know when
 you appear or when you disappear.
As to your repayment capacity, I know when
 to send a bearer to collect your arrears.
If you are my borrower, I know when my
 wire to you will not tear or tire.
If I know it is a danger, I don't make any
 error and ask you for an unfair favor.
If I know someone is rare, I know how to get
 together to gear and share the treasure.
If I know their wear, I know how to please
 her and her family member.
If I know the college, I know who to wire
 for a large or a fair waiver.
If I know who are near there, I know how
 to approach to gear your favor.

The Best Advice Is Found On the Pillow

If we have a problem, we may need a good
sleep to hear the answer.
“I’ll sleep on it” or from a good thinking,
we are likely to hear the waiver.
Go to bed to enquire and mentally hear there
from the next compromiser.
Think in a cool brain how to help resolve
after the arrear problems disappear.
Think how to share your problems and wire
them to hear about their favor.
Think of the others who care about your fear
to help gear a favor there.
Don’t run like a hare instead of hearing from
others to get rid of the danger.
The environment of a cool brain helps us
about how to get rid of wear and tear.
The lender bank can favor the poor
borrower by increasing his treasure.
Don’t keep talking to her by a telephone
wire for her kind waiver of the arrears.
Note that people can rear, bear, and care
with all kinds of labor for your favor.
Hear from people near you, and you will get
the flavor of the gear to favor.

The Best Things In Life Are Free

Certain things like love, friendship, and good health are free and valuable.

You do not have to pay for many valuable things, including the Bible.

Love and affection, romance, emotion, and hate are not estimable, but ignorable.

Buying with no cost, including CNN, the cable news network, is available.

More things are free, more amiable and reliable table-talk of durable.

Love of wife, children, parents, and relatives are too expensive to be estimable.

Politics are too risky, but most profitably is available, moveable, and actionable.

Expectable, dependable, and assumable things of social value are not estimable.

Characteristics that are workable, tractable, and admirable are cost-free and detectable.

Without any transport and service cost, love and hate are freely moveable.

Freely available is thinking of her emotion, looking, and everything imaginable.

Works including meeting, discussion, and solution to problems are freely arrangeable.

The Darkest Hour Is Always Before Dawn

Just before the sun rises, the sky is at its blackest,
after black and blacker.
When times are at their worst for us, they will
soon get better.
Gear you from the lowest, and you are the
most tired near the upper layer.
Run the race like a hare just before you hear
something better.
Keep working harder to go up the upper stair
before the last hour.
Have a bitter experience with the hater and
the cheater before you reach the lover.
In romantic life, you happen to meet the worst
before the one who will take care.
Just before you win the tender, you may see
the other or the lender.
Get tired of the cheater and the most dangerous
one before you are happier.
If you happen to see the thickest wall to cross,
the next one must be thinner.
Your hours used to be dark, darker, or darkest
and now they are better.
After you have a son, brother, sister, and father,
you are left to see your mother.
After you are exhausted with all types of war
in life, you are left with a waiver.
As you are exhausted with the stupid, you see
the sober and lover for you to favor.
After the highest temperature in your fever,
you expect the one who is dearer.

The Devil Can Cite Scripture For His Purpose

Bad people try to appear to be good to achieve
their aim and objective.
Even good things can be twisted to achieve
bad ends comparatively positive.
Zealous people do not try to limit themselves
even to their own relatives.
Bad people ask the others to keep quiet for
their interests as if they are sedative.
To serve their purpose, bad people build
a relationship even it is tentative.
Bad people become friendly to be
detectives for evaluating the directive.
To the good people, the vindictive ones
become attentive, directive, and suggestive.
Bad people are envious and for the
comparatives they become active and reactive.
Bad people are friendly and detectives
with a motive to make the other deductive.
Bad people behave in ways with a
purpose to achieve their selfish objectives.
Bad people go closely with us as if they
become our subject, selective and elective.
Sometimes, we are surprised about
the bad one's cooperation to be fantastic.
Bad people behave as if they help decrease
our pressure of systolic and diastolic.
Bad people try to convince the office
executive in performing something selective.
The devil can cite scripture to convince
the other to tentatively be sensitive.

The Devil Sometimes Speaks the Truth

To make us more ready to believe his lies,
sometimes Satan speaks the truth.
Just because of its face value, we don't take
everything as the Bible and his thought.
Be aware of the fact that lairs in some occasions
to trick us can speak the truth.
To discover some facts and figures, sharing
something with bad people is of worth.
Take a chance of finding facts and ask the bad
man in his anniversary of birth.
Don't speak ill about the dead and ask the bad
man to learn good things of the dead.
By not going to other, ask the directive
from the near philosopher, Mr. Smith.
Don't argue with bad people who are less
known for their negative teeth.
Though the devil sometimes speaks the truth,
people are taking it as bullshit.
We don't trust negatively familiar men for
their overly shouting mouths and throats.
The devil sometimes speaks the truth in old
age before leaving the earth.
We are normally living with the dearth of
those bad people who speak the truth.
In some occasions, the devil is not rare to
speak the truth.
Sometimes we invite the bad ones to learn
the truth for us to relax and breathe.
Everybody has a merit and demerit, and
even the bad ones might fight for the truth.

The Early Bird Catches the Worm

The bird that wakes early in the morning is
at an advantage to find and eat the worm.
Birds that wake late in the morning are at
a disadvantage to find any worms.
The saying suggests the same is true for us
in life and our successes to confirm.
If we start doing anything late, our move is
completed by a term that can do the harm.
If you start anything at the minimum,
you may not be able to reach the maximum.
If something is too warm to drink, it takes
a hell lot time to get cold and cause less harm.
If you pay attention to reading halfway,
you may not grasp the poem.
If your team is not prepared, you may not
win the game, at least in this autumn.
If you are not well prepared, you cannot
expect to do well and pass the exam.
If you are not prepared with education,
don't proceed to face the interview at Oxfam.
If you don't have a mortgageable property,
others will take away the loan for their firm.
If you are too late to acquire and satisfy the
terms, you can't maximize the income.
To maximize utility and profit, maximize
the ability to win the business forum.
In the problem of a road jam, start early
to reach the flight to see your mom.
Doing things correctly, completely, and quickly
will help you pass the test of life exam.

The End Justifies the Means

If your achievement is good, it doesn't matter
the mode of your management.
Proceed all the way by whatever method you
can adopt to smoothly reach the end.
Your ways and means must be associated
with the goal and its attainment.
The supervisor wouldn't care how you are
obliged for the accomplishment.
To achieve the objective, you are free to adjust
with any complement and supplement.
The ointment is a cost, the end is a benefit,
and net benefit is positive achievement.
You are not concerned with the physician's
reputation; go to the one for treatment.
Jury can be much better than the judge if we
are satisfied with the jury's judgment.
To reach the good, it is important to
have a prior assessment of the arrangement.
To do good research and write poems,
you can choose to live in the basement.
Your goal is to reach the destination for
which you don't care about any harassment.
Don't expect any returns unless you sacrifice
your time for an investment.
Without any risk, you can't organize a political
meeting without an announcement.
To furnish the business-related activities effectively,
let's have a good agreement.
For a discussion with a man of any dignity,
try to make an appointment.
Try to qualify with education and training
to face the interview for employment.

The Greater the Sinner, the Greater the Saint

If a bad person can become good, a very bad
person can become very good.
Someone with great energy for doing bad may
apply it equally to doing good.
The people giving up smoking are aware
about the virtues of not smoking.
The harder it is to mould you, the more
you will be repeatedly told.
If the worst gets a chance to improve,
he can be found among there as the best.
If you are taught not to wait at all, you may
also be taught to long wait.
If we can keep you out of the premise,
we can take you inside with no doubt.
If I am badly habituated with shouting,
I know how to keep myself quiet.
If I know how long I take to perform it,
I know how to be prompt.
If you know how these are to be bought,
you also know how these are to be sold.
If you know how these materials had
gotten rot, you know to choose the best pot.
If you know how to decrease the power,
you know how to increase its megawatt.
If you know how to make something loud,
you can stop shouting with no doubt.
If you are greatly taught, you know how
the negation ought to be fought.
If you know we doubt it, you know how
all the doubt has to be fought.

The Nearer the Church, the Farther from God

Involved individuals in any religion and the priests
are in danger of separating from God.
“The nearer the church, the farther from God”
is placing too much importance on material pride.
God is undoubtedly everywhere regardless
of material importance to God.
God is thought to be brought anywhere
as God is everywhere in and out.
We can send our any prayer to God without
taking help by dot.com and dot.
God is always around and ready to help
us for the achievement of end.
Beyond the church, God is always ready
for both attainment and our achievement.
Regardless of the church, God is ready for
our supplement and complement.
God does provide us from anywhere
with all kinds of ointments.
Even my hospital and sick bed is provided
by God for the necessary treatment.
From anywhere, God is with us and
always for our betterment.
Regardless of the distance from church,
God provides us with subjective judgment.
God provides us with the necessary action
from either upstairs or from the basement.
God stands against our harassment and
helps anybody in his investment.
God listens to us and helps with the
agreement, appointment, and employment.
