Dedication

My Parents

Preface

This book of poems **Harmony of Thoughts** is an expression of my thoughts. Wordsworth has called poetry 'a spontaneous overflow of powerful feelings'. My approach to poetry is the same. In my everyday life as Vice-Chancellor of Uttara University I meet a number of people who interest me immensely. I get a kaleidoscope of life through my work. In the night as I recall my day, I feel like writing about my observations.

The poems in this book are such an expression through which the readers will have a new understanding of life.

I have used well known sayings and tried to interpret life through these maxims. The poems search the innermost feelings of man and try to investigate their essence of association.

This book of poems, thus, not only expresses my keen observations but also a deep appreciation of how life is lived in this world by individuals.

Acknowledgement

All praises go to the Almighty for His kindness to give me chance to write this sixth book of poetry namely Rhythms of Reality. While writing this book, I came to discover the truth about how a book of poetry becomes one's main point of attraction. I have a strong feeling of writing poems and I believe and I feel and realize my power of imagination which helped me to pursue my dreams. I could never have done this work of writing without the faith I have in the Almighty.

Inspiration from my wife Prof. Dr. Eaysmin Ara Lekha, my affectionate boys-Nabid Aziz and Abid Aziz helped me to be a poet. They always motivate as well as encourage me in writing poems. My gratefulness also goes to Prof. Faez M. Serajul Hoque, Adviser of Uttara University for his valuable advice time to time.

I am grateful to Prof. Haspia Bashirullah, Chairperson of English Department for her immense contribution for reading and editing my poems. Also, thanks go to Assistant Research Officer Nishat Alam Dristy who was always with me while writing the book of poetry.

Above all, my special thanks go to Mr. Mohammad Rakanazzaman, Researcher, Uttara University for editing and reviewing my poems and his overall assistance to help publish the book successfully.

Foreword

'Harmony of Thoughts' is the 7th book of poetry written by Prof. Dr. M. Azizur Rahman. It is very interesting to note that as an economist, how Mr. Rahman concentrates his thoughts and ideas upon poetic diction which is very rare in our time. His fancy as well as imagination devotes himself to writing poetry. His artistic style originates from the core philosophy of life through which he wants to focus his poetic mood not only on specific startum of life, but also on universal significance. His poetic profundity also reminds us about the reality of life in society, community and culture. Mr. Rahman's superb-making creation, like poetry shows a man a hidden treasure of knowledge and erudition in general. He always prefers writing poetry in colloquial language and style in order that the postmodern lovers of poetry concentrate themselves upon his writings.

Wrong Doing Arises from Mind

*Any wrong doing is the function of our minds.
 Doing wrong or right is the function of minds.
 If we are in a good mood, we will be positive.
 If I am in a bad mood, things will be negative.
 If I am in a bad mood, my actions will be bad.
 If I am not in good behavior, I will lose friend.
 So, I will be alone by losing most of my friend.
 I can't continue the happy life with my friends.
 I will start losing my emotion of life gradually.
 I can't continue going this way for a long time.
 So, I try to eliminate my negative characteristic.
 None of my wrong-doing will remain with me.*

Jug Fills Drop by Drop

*The proverb suggests our gradual development.
 Usually, jug is a container with handle and lip.
 Here, the jug is personified as the human being.
 Drop-by-drop indicates a gradual development.
 Above means a life is a total of some moments.
 Nothing is attained in life as a total or at a time.
 Every victory has its own history of its success.
 Nothing great in this world were built in a day.
 All things are built time-to-time or day by day.
 Our life is also filled with knowledge gradually.
 The jug can also be filled by water drop-by-drop.
 Our life is nothing but a total of some moments.
 So, without moments our life cannot be thought.
 Our goals are achieved by our continuing efforts.
 Progress is accomplished by firm forward action.*

So, virtuous are well treated in a society.*

The World is Too Full to Talk About

Out beyond ideas of something is to reach a point.
Out is moving away from a place to another place.
There is a field which is specially planted by crops.
There is also a field that sounds needlessly to deal.
As we exceed our limits, we have two things to do.
We try to get back from doing all the wrong doing.
We also try best to reduce all of our wrong doings.*

The Wound is the Place Where the Light Enters

 People having no injury cannot take pictures of life.
 We can't realize our life if we do not face problems.
 People having no injury can't understand about life.
 People having problems in life can realize their life.
 The life of people without having problems isn't life.
 So, wound is the place where light enters us to help.*

Human beings are the Universe

*The world isn't considered without human.
 Animal and plant are the part of the world.
 It also includes the land or the sea surface.

 It is our responsibility to make it habitable.
 If we do the above, our lives become easy.
 If this world is comfortable, we live well.
 We are not small as we think of the world.
 The man is mystical creation of Almighty.
 And the world is made for the human being.*

What You Seek is Seeking You

*We aren't free from one another in any sense.
 We are naturally created human and animals.
 Man takes oxygen and release carbon-dioxide
 Also, animal takes CO2 and releases Oxygen.
 We use the plants and animals in many ways.
 We try to seek everything from nature in life.
 We seek for the nature's help and vice-versa.
 What we seek is seeking nothing but oneself.
 We look for the good job to continue our life.

 We look for the pretty girl and they also do it.
 We are interrelated in personal and social life.
 So, what we seek, these are seeking us, in turn.*

 People are born to the world with talent and luck.
 What we lose may come back in the other form.
 As the nature, someone will come to fill the gaps.
 Natural creativity means we can do anything well.

 Among unmarried lovers, it is illegal to stay together.
 Having no legal-binding, it is a tension between them.
 Even having a legal binding, there also arises tension.
 The difference is significant depending upon situation.
 If the binding isn't enough, it is not a free of problem.
