By M. Azizur Rahman

Dedication

My Two Boys-Nabid Aziz and Abid Aziz

Preface

This book ***Sandcastles by the Sea*** is an outstanding piece of writing in which I am able to express my feelings about life and living. Actually this book reflects my personal as well as professional experience on writing as a form of poetry. While visiting different countries, I always try to go through their culture, tradition, customs, norms and the way of leading their life in which I get the materials in writing poems. I also try to sum up all the happenings of my daily life. The titles of my previous and the latest poems have been taken from different proverbs and aphorisms of various philosophers.

I hope and believe that the readers will find something new while reading my poems. Themes of the poems are not same like the conventional poems rather they are realistic. So, the readers will get introduced with the new ideas and thoughts about poems. I expect that the book ***Sandcastles by the Sea*** will bring an immense pleasure to the reader and help the readers to find their lives relatively more meaningful.

I think the selected poems in this book will certainly provide the readers a new understanding of life. There may have been some controversial matters but it is expected that the inner thoughts will highly be acknowledged and appreciated by the reader. The book of poems contains blank verse and covers the real aspects of life that we encounter every day. These poems may be the source of innermost thought of human relationships.

This fifth attempt of writing poems is the simple introduction to express my realistic ideas and thoughts and complex interpretations of life.

Acknowledgement

First and foremost, I would like to convey my sincerest gratitude to Almighty for His kindness. While writing this book, I came to discover the truth about how writing becomes one's main point of attraction. I felt and realized my power of imagination which helped me to believe in my passion and pursue my dreams. I could never have done this work of writing a few books of poetry without the faith I have in, the Almighty.

I spent quite a few years in USA in studying PhD in Economics at Vanderbilt University. The combination of my native and American culture inspired me to write these poems. When taking rest after a tiresome period in my work place as a Vice Chancellor of Uttara University, I try to recollect all my memory which has finally been reflected as the subject matter of my poems. I hope my readers will get a different view and interest in reading these poems.

Inspiration from my beloved life partner Prof. Dr. Eaysmin Ara Lekha, my affectionate boys- Nabid Aziz and Abid Aziz helped me to be a poet. Their belief in me encourages me in all my writings. My gratefulness also goes to Prof. Faez M. Serajul Hoque, Adviser of Uttara University for his valuable assistance time to time.

I am grateful to Prof. Haspia Bashirullah, Chairperson of English Department for her immense contribution for reading and editing my poems.

Above all, my heartiest thank goes to Mr. Mohammad Rokanuzzaman, Asst. Researcher, Uttara University for editing and reviewing my poems and his overall assistance to help publish the book successful.

“My Life is a Struggle”

Existence of human or animal including plants is life.

Animals have an ability to grow, breath and reproduce.

The life includes human beings including the animals.

Struggling is an attempt by trying from heart and soul.

We make the forceful effort to do a lot of things in life.

We try our best to do a thing under hard circumstance.

Struggle makes a man perfect to do something special.

We struggle a lot by making our effort to get anything.

Life is struggling by making one's life with difficulty.

We are facing conflict to face a struggle for leadership.

We are facing difficult situations as an act of struggling.

So, we can cite it to confirm that life is full of struggle.

“What Then Do You Call”

Spirituality of a person is believed to be moral or immoral.

In many occasions, human soul refers to emotional power.

A person can be regarded as a perfect example of a quality.

If one is suited to others in many ways is called soul mate.

Lacking character, human feeling or uninspiring is soulless.

By searching of one's emotion, we find a suited soul mate.

Two persons can be the soul mate if they are ideally suited.

The revealing is something previously secret by revelation.

Revealing is knowledge and experience of humans by God.

Let us try to admit the existence of anything unknown to us.

A great deal of unknown power and energy are also with us.

We are holding an unnatural power or energy lying with us.

We are also holding a great power and energy existing in us.

“Fear Follows Crimes and is Its Punishment”

The unpleasant emotion caused by the treat of pain is fear.

Fear is something unpleasant which is not really welcome.

We are afraid to do something bad as we feel guilt out of it.

We can't sleep if we commit a crime by harming the other.

As soon as we commit crimes, we remain afraid of doing it.

Crimes are neither respected, nor are released from a guilt.

An unpleasant experience imposed on someone is also crime.

The action of punishing someone by harsh treatment is fear.

Action of punishing someone is direct or indirect treatment.

Punitive and punitively are intended to anything punishable.

Fear and punishment move in the same way as both are bad.

So, fear follows crimes and it is accompanied by punishment.

“Society therefore is as Ancient as the World”

All people are living together more or less in a community.

People have been living together with all other living being.

Living in a community or in a country or region is a society.

Fashionable wealthy are viewed as the distinct social group.

Society is an ancient country belonging from the distant past.

A political system is replaced by modernity is ancient regime.

The people of the ancient time are called ancients or very old.

Ancestor is someone from which later species have developed.

A society and the world are born at the time of ancient period.

‘Society without world or world without society’ is not possible.

Society and world are the simultaneous or similar phenomenon.

We are essential element of the society as well as by the society.

Society or human society in particular is as ancient as the world.

“In Every Author, Let’s Distinguish the Man From His Work”

Mental or physical effort done in order to achieve result is work.

The activity on-the-job that a person does to earn money is work.

A task or thing to be done or made by taking an action is a work.

Works are undertaken in the place where activities are carried out.

A man is an adult member of a workforce and husband and lover.

A man is the person who provides a place or machine to operate.

Human beings are not always limited to their working place only.

The man and work are not the same as they differ from each other.

A good worker may or may not be a good human at the same time.

It is usual to find a best category man as the worst category worker.

Similarly, worst category of man can be a good category of worker.

Human shows a better quality such as kindness regardless of works.

Humanism is thought as we are capable of using our intellectuality.

We always, therefore, try to make distinguish the man from his work.

“Time, Which Alone Makes the Reputation of Men, Ends by Making Their Defects Respectable”

To perform an action at a particular time has to be taken by someone.

One's time is a period regarded as a character of a stage of one's life.

Unlimited progress of an existence depends on present, past or future.

An event in the past, present and future and related progresses is time.

The final part of something by stopping a state or situation is the end.

Generally, the belief held about someone or something is a reputation.

Our faults or defects tend to get respected as and when our time ends.

A high public opinion of someone gets highly regarded at end of time.

A high public opinion makes their defects respectable when time ends.

The people of name or fame get recognized even after they are expired.

Defects of the recognized people get well respected after the time ends.

The life time in particular helps make the reputation of men and women.

At the end of time, people and their activities and defects get respected.

Something occurred continually means nothing is constant.

Constant stream of a visitor is defined as a constant change.

Engineering device remains the same with a constant speed.

There is the on-going constancy which takes place naturally.

There is the constant change which takes place in everything.

Almost everything changes constantly within three domains.

Everything is changing which refers to constant occurrence.

Our character is our quality nature, reputation and our strength.

Many ingredients of any character cannot always be acquired.

Our content of character is our choice that cannot be influenced.

Men are not the same or similar in their acquired characteristics.

People differ from one another in quality which is not the same.

My personal preference may or may not be the same with others.

Different men are in the possession of different quality character.

As we grow physically or mentally, our quality character changes.

Every day in our life, we happen to change our choices to choose.

We keep thinking about something in the time frame of our lives.

We keep doing things day by day throughout our lives and living.

Variability of a character is in the state of changing for everybody.

What men choose day by day all over their life is who we become.

“Opposition Brings Concord Out of Discord Comes the Fairest Harmony”

Opposition brings a kind of concord including an agreement.

No one or nothing suffers for an indefinite period of time but change.

A sick does not happen to remain sick all along in his/her life and living.

Someone or something endures for a while but it is expected to change.

If we are poor today, we become the well-to-do family in the near future.

We may not have a job with the poor condition including a poor salary.

But, in future, we may go very well with the same job with good salary.

Girls do hurt me badly but I may get it over by finding the other quickly.

If I can't do good in my present job but expect to be better in near future.

My personal and family connection may be helpful to change my future.

Nothing endures us permanently as there is an opportunity to be changed.

If we understand something, we can interpret in a particular way.
Understanding is the information received about facts and figures.
Going through any book without understanding is called bookish.
The less than enough knowledge earned by reader makes bookish.
Knowledge and experience are not enough to make a fruitful use.
Learning of anything is neither optimum nor is it applicable to use.
Understanding is important than learning by going through a book.

Let's listen to people as attentively as possible to become educated.

Everyone likes to carry out something secret along with them.

We do not disclose something to others due to hidden reasons.

We try to hide us to some extents from the other or their views.

But, we cannot hide all the others before the people around us.

We must not hide before all the others around us permanently.

For example, I can't hide if I am male or female before others.

It is hard to hide what is my occupation or livelihood in society.

I can't hide who I am married to or who I have been living with.

Also, I cannot hide my age, sex, race, religion and nationality.

We can't hide from reality in which we have been belonging to.

Thus, we can't hide from what never goes away from the reality.

“Man’s Character is His Fate”

A clean set of cloths can be changed in order to wear a new different set.

We are always in a process of changing anything for the way or that way.

We are in the state of changeover from one system or situation to another.

By the above information, we are clear that many actions are functioned.

Actions are a function of change or the changing activities required in life.

Or, change is the function of aims, objectives as well as the purpose in life.

Most of the activities do not take place without any objectives or purposes.

We are always in the process of putting an effort in someone or something.

We make the above changes to satisfy our demand for making such change.

We all are, therefore, in process of change or changing that we find purpose.

A large quantity of knowledge may not be knowledge in real sense.

Anything plentiful or extremely abundant is not really desired or bad.

Wisecrack or the cleverness of some wise men is too much to accept.

Any of the so-called wisdom is too much to accept as desired anyway.

Enough in anything including the knowledge or experience is desired.

Too much in anything of the knowledge is universally not well accept.

We go for more or less optimal amount of knowledge to meet our need.

As we tactfully put something together, they will work well.

If we are arranged nicely, we can do a work with the others.

If we are in a state of agreement, we furnish good job for us.

A good combination of workers may furnish an excellent job.

We are different by born in terms of our body as well as mind.

I cannot accept the fact that I have to die at any point in my life.

I don't care about the next life which I have not happened to see.

I love my family, friends and relatives and the living around me.

If I do happen to die, I will never be able to see them any further.

From the primitive age, people use to live about 700 to 800 years.

Let me express my interest in living a lot less than that year only.

As a psycho-physical man, I like to have been living for 120 years.

As the socio-political life, I also like to survive for about 120 years.

I serve as the research scientist for about a tenureship for 120 years.

I may continue to have a very good professional job of those years.

As a teacher, I am going to have been surviving for about 120 years.

During the length of life, I believe to contribute something of value.

I hope, God will trust me to approve my prayer to live for 600 years.

I cannot also ask for a more than one best wife, which is unethical.

I can ask for the best one in relation to our common life and living.

No one wants to have a man, who is not the best or less than a best.

We expect the best man as well as best woman to be with us always.

To marry, I choose pretty, young or together the most startling one.

I am not also irrational if I do follow the above in my life and living.

Give me one among many if they are relatively good, better or best.

Let's do some important works as we are moving towards the end.
The most recent news is importantly needed than the one of earlier.
It is still better to do or furnish even after the proper or usual time.
It is not too late to seek a new world in doing things for its success.

Someone or something endures for a while but it is expected to change.

If we are poor today, we become the well-to-do family in the near future.

We may not have a job with the poor condition including a poor salary.

But, in future, we may go very well with the same job with good salary.

Girls do hurt me badly but I may get it over by finding the other quickly.

If I can't do good in my present job but expect to be better in near future.

My personal and family connection may be helpful to change my future.

Nothing endures us permanently as there is an opportunity to be changed.

Waters have been flowing down to the sea from its sources.

We step into a river means we step a particular water flow.

As we step from one bank to others, the flow will go away.

For our next step, we will not happen to see the water flow.

This, that or another waters have continuously been flowing.

As I step in a flow, I won't have a chance to step in it again.

If I step into some flow, it won't stop but continue flowing.

Waters are always flowing on its own ways down to the sea.

Whoever among us is unable to seek the unforeseen sees nothing.

As the rational human, we think about something chronologically.

If we can't seek the unforeseen, we can't see any important thing.

If we are not rational in doing, we are not different from the blind.

Impasse is a deadlock position in which anyone can't travel along.

Impasse is a deadlock state that the progress is not possible to see.

If somebody doesn't see what to see will not be able to overcome.

To furnish something, we may be knowledgeable and experienced.

If we know the known way of doing a thing, we can furnish better.

If we cannot see someone means we do not know how to resolve it.

If we can see the known way, we know how to resolve the problem.

We can't transfer our responsibility to others to resolve the problem.

“Things Keep Their Secrets”

As you have the latent structure in hand, you can go ahead faster.

Having latent structure in hand, you can model or remodel things.

The above can develop the structure based on the latent structure.

The obvious structure is given as the latent structure for us to do.

We build the obvious structure on the basis of the given structure.

Latent structure has been serving as a master of obvious structure.

“It is Better to Conceal Ignorance”

It is better to conceal the lack of knowledge and information.

It is better for you not to disclose that you are a stupid person.

It is better not to let others know that we don't know about it.

Lacking knowledge or education about something is no good.

Fail to consider anything important can't be well appreciated.

It is not good if we prevent someone from being seen anyway.

It is really better to keep someone secret about their weakness.

To persuade someone to do things by lying to them is no good.

Man can prevent someone or something from being seen open.

It is better to keep something secret instead of disclosing them.

It isn't good to persuade one to do something by lying to them.

Act of deceiving someone or something is not well appreciated.

So, it is better to conceal the knowledge, ignorance or stupidity.

“Changing, It Rests”

Make something to become different from their initial shapes.

Move from a situation to another for the sake of convenience.

Action of changing to have the different experience is the rest.

Money returned to someone as the balance is also the change.

Coins as opposed to banknotes are an example of the change.

Having a clean set of cloths instead of used are also a change.

Things likely to change in unpredictable ways are changeable.

Change is the constant part of a life that we are able to change.

Sometime we take rest with someone with trust or confidence.

The changing is closely associated with the resting of someone.

Specifically, changing and resting are associated to each other.

“Good Character is not Formed in a Week”

Qualities can make a man different from the others in his life.

Particular nature of someone including the nature is character.

One’s good reputation and his role in a novel are his character.

Quality of a person, place or things is also their characteristics.

Good character cannot be formed in the limited or over night.

As usually, quality character is gradually created little-by-little.

Protracted and patient efforts are needed to develop a character.

Being prolonged to acquire quality characteristics is protraction.

If we can do the above, we are smart or success in doing things.

We realize that war is universally true to deal with successfully.

We know that everything comes in the world and through strife.

Let us learn about how to face the universal war smartly to win

Let's learn about how to go through the different kinds of strife.

“Do Not Create a Single Enemy as You will See His Shadow Everywhere”

We enjoy the company regardless of age, sex, race and religions.

We are social and we cannot live alone from others in a society.

We do love to address the fellow men and women as our friends.

Most of the men love to be with their female friends than males.

We like to be more with men and women of the same age-cohort.

So, we are scared of all animals including the tigers in particular.

Similarly, we are scared of some bad men, who are our enemies.

The male enemy is relatively scarier to us than the forest animals.

Even when the enemy isn't really found around us, we are scared.

It isn't good to create enemies for nothing in this temporal world.

The world is a temporary to live which we may have to quiet today.

By unnecessarily creating the enemy, we should cut short our life.

Let us not create an enemy as we will see his shadow everywhere.

“Duties and Responsibilities of Ten Individuals Simply Become a Burden for a Single Individual”

Every individual is assumed to bear their duties as required.
They do it for the sake of their own benefit and their family.
They perform effectively as these are not a burden of others.
They are lightly sharing the duties by not leaving as a single.
They perform their job nicely as it isn't a burden of anybody.
Above job is not a burden of any single individual to furnish.
Duties of ten individuals simply become a burden of a single.
It is ideal to use ten persons to execute the job of ten persons.
Employing ten individuals are effective to furnish the above.
Precise objective of doing the job of individual is satisfactory.
We cannot even think of employing a man to do the job often.
Duties of ten individuals are simply the burden for any person.

As mentioned the above, thrilling is material and non-material.
Women are the important thrilling sources to help us to go up.
To have a good girl as a thrilling friend we have to be affluent.
The girls of either affluence or talent equally serve as thrilling.
Girls of long vision, a boy and his talent serve us as a thrilling.
We believe that women are the few best sources of inspiration.
The above sources supply the forceful and effective inspiration.
Having inspirations, men strongly prepare themselves to go up.
Inspiration, devotion and dedication work effectively to go up.
Men firmly feel their importance in society relatively to others.
Let's try to have quality girls as the great source of inspiration.
Women are found as thrilling or emotional source of inspiration.

“A Home Divided Cannot Stand”

House is a building for people to live in or devoted to a purpose.

A house can be a place of religious community with living place.

If the above house is divided into more than a part, it can't stand.

There are many things in the life that cannot stand well if divided.

It is better to keep important things equally so as to keep it stand.

If we do strengthen the above together, we can make use of them.

Similarly, we keep houses, association and committee to function.

If any of these is broken into pieces, it cannot work for us usefully.

Every house is important but it is more important to help it sustain.

If the above is sustained, we are surely benefited out of the house.

Otherwise, above such efforts will go in vain or fruitless in anyway.

Let us try our best to put an effort to help sustain our houses to use.

As the above, we are convinced that the divided house cannot work.

Let's put the possible effort to keep house or community sustained.

“A Known Mistake is Better Than an Unknown Truth”

A mistake is of several types including an incorrect thing.
A decision coming out of an error of judgment is mistake.
We are wrong with a mistake about the nature of relation.
We are wrong about someone by being confused of them.
Based on the unjust, man can be wrong in their judgment.
Having no doubt about someone is the state of being truth.
The truth is true, actual facts or belief and accepted as true.
A known mistake is always better than the unknown truth.
If we do any mistake, we know why we made the mistake.
We are equipped ourselves not to make any mistake further.
This mistake falls within a recognized scope of knowledge.
It is easy to blame the known criminal and his involvement.
A quantity of the known mistakes can easily be stated to fix.
He is unknown to us even though he can be a truthful guide.
We are aware about him even though he is a good one to go.
He is superb to select but we do not aware of his living place.

“Arrogance Diminished Wisdom”

Pride is a root cause to fall from the upper to lower level.
If we are proud, we badly separate ourselves from others.
If I am badly cornered, we can't learn things from a wise.
Having exaggerated sense of one's importance is arrogance.
Taking anything for one without justification is arrogation.
Arrogance isn't good for the wisemen or women of quality.
As we are very arrogant, people will leave us alone totally.
Arrogance always tends to diminish our wisdom gradually.
If any smart leaves me alone, I will see the idiot beside me.
Arrogance is a secret reason of decaying wisdom and status.
Higher is the arrogance, lower will be reputation and status.
I can't expand the reputation of my family to include others.

“Ask the Experienced Rather Than the Learned”

Experienced ones have knowledge in the fields gained over time.

Anybody involving on experience or observation is experimental.

Scientific practice undertaken to make a discovery is experiment.

Having the knowledge gained by studying are something learned.

Knowledge gained by studying and by being studying is learning.

Being experienced and being educated are not the same or similar.

Learning something may be earned with or without an experience.

Formal or informal learning is gained with or without experiences.

It is great if we learn something through any practical experience.

Learning without having any knowledge is more effective in life.

We say that the experience has no good substitute in doing a thing.

A simple learning of something without experience is hard to apply.

Learning about anything with an experience may be comprehensive.

Let us ask the skilled rather than learned to get something resolved.

“Believe What You See and Lay Aside What You Hear”

Difference between eyes and ears are distinct and significant.

I do use my ears to hear about some facts which may be true.

I, of course, love to believe it what I can see in my own eyes.

Belief is a feeling that something exists the one without proof.

A trust or firmly held opinion is a belief like a religious faith.

Belief is an act of accepting anything exists is telling the truth.

Hear or lay something present materials for an action to see.

Lay anything to rest by burying a body in grave as it is a truth.

Lay aside what you can hear to put an end to anxiety for more.

What we hear, we lay someone up to put someone out of action.

We put someone out of action by illness after whatever we hear.

We hear or lay aside a man who has qualification or knowledge.

We tend to believe our eyes more than ears with which we hear.

Whatever we see with our own eyes, we tend to believe its facts.

What we hear, we think about the possibility of its truthfulness.

We believe what we see with our eyes or lay aside what we hear.

“Every day of Your Life is a Page of Your History”

Thinking is a part of our life in each and every day.

We keep thinking different things in different ways.

We do the same or diverse things in different days.

Each day is surely a page of our history of the life.

The history of our life consists of what we do a day.

The written record in a day is a page of our history.

Most often, we don't keep a written record of a day.

As we live 100 years, we have a life of 36,500 days.

It means our life tends to constitute my life history.

The history will be a lesson of my success or failure.

Next generation will hear about me from my history.

It can help the next generation to improve the nation.

The above history must serve as a source of learning.

“Every Sun Has to Set”

The sun is a star round which the earth orbits and we get light.
Sun-baked are light, heat and warmth, to which we like to be.
The nature or a naturally born life and living must have to die.
In other words, we are born to survive for a while and we die.
The earth orbits around the sun everyday or for 24 hours a day.
All the living or non-living natural beings are truly born to die.
It can be assumed that the above takes a birth as well as death.
We fall in a group of living beings, who are coming and going.
None of the living or non-living beings can move on their own.
Most of the things are found to be moved or operated routinely.
Power of the above movement lies beyond the power of human.
We cannot do anything by making any kind of change in nature.
These are the function of nature on which we don't have control.
Natural objects and human beings will die or we are born to die.

“He Who Plants Thorns Must Never Expect to Gather Roses”

Thorn is a stiff, sharp-pointed woody projection of a plant.
These are thorny bush which is a source of frequent anger.
Thorns cause troubles that are a thorny issue of censorship.
The thorny is used to found thorns in which we don't enter.
He who plants thorns is not assumed to expect to get roses.
None can plan to gather rose, instead of thorn is impractical.
Our idea is to gather rose we can plant the rose with thorns.
Roses cannot be planted without thorns which are not easy.
By growing rose gardens, we can't give up to grow of thorn.
It is noted that we cannot grow roses to get rid of its thorns.
We must be experienced with thorns, while cultivating roses.
Having roses and thorns, we prefer to be exciting with roses.
He who plants thorns won't expect to get roses without thorn.
It grows with thorns as the complementary or supplementary.

“Older Than You By A Day, Wiser Than You By a Year”

An older and wiser to you can be estimated by physical age.

An age factor does make you senior to others even by a day.

But, you cannot be wise among the other by 365 days only.

We can't be wise over a night by being the senior to others.

I am senior with a difference in physical age even by a day.

To be wise takes a while or a way of anything including age.

Person who pretends to be wise or wiser takes quite a while.

It takes quite a while to show the experience and knowledge.

It takes time to become aware or informed about something.

A man of 25 is not expected to be different from a man of 24.

We are older than others by a minimum difference physically.

It makes a difference to be wise in knowledge or experience.

To be a wise takes a while and a day is enough to be a senior.

It makes me older than you even by a day and wiser by a year.

“One Hand Cannot Applaud”

Negative and positive support cannot be shown by a clapping.
We need to approve anything by clapping, we use both hands.
My courage is approved by the majority or by nearby people.
A single man's approval is not an approval at all in any sense.
As I want to pass the election, I am in a receipt of more voters.
One man's opinion is not an opinion at all to accept in society.
Only the mother's opinion about the baby's foods is accepted.
The above case is not acceptable about any other cases at all.
Don't try to get things established illogically or ignore others.
You are important with your logic, but do it to get things easy.
Try to support someone along with others to get it effectively.
Let us apply the more is better than the less or the vice-versa.
It is dangerous if you have extra-marital sex with another girl.
A single hand is always less than enough to applaud anything.
Stay with people to get anything of importance approved duly.
