Fashion design

M. Azizur Rahman

Studying fashion is no more an exception,
As fashion is the first letter of recommendation.
To look smart you have to have a good fashion.
A good fashion would motivate you for a good motion.

Happiness in life includes a fashion as a recreation.
Poor fashion will make you inferior with tension.
Appropriate fashion will show your sense of proportion.
Non-fashionable dress will define you with a lack of sensation.

Fashion is not very easy to identify as the model of dimension.
Work hard for you and the nation to identify the right fashion.
We are not asking anything like those of Michael Jackson.
Study hard to innovate the fashion for greater satisfaction.

Don't be irregular, which will make your fashion unpopular
With your fashion business, you don't need any pension.
Your and job business will bring your blissful satisfaction.
Good fashion is necessary also for love and affection.
Take the fashion as a fulltime profession.
