

Bureaucratic Problem & Solution

Bureaucrats are employed for the society to take care.

Bureaucrats are responsible to increase social welfare.

For the greater interest, bureaucrats are supposed to be seer.

In practice, bureaucrats behave as if they are official horse and bear.

They don't care if the clients are in tear.

Bureaucrats don't listen, as if they don't have any ear.

About the intense of problem in delay, they don't have any fear.

Clients would like their files moving at the first rate of gear.

Whatever we talk, bureaucrats are reluctant to hear.

Sometimes our repeated appeal is valued as mere.

Problem is not very easy to make them share.

Our effort is to dress them with our problematic wear.

They are busy for nothing with telephone wire.

But, we cannot do anything to share.

And whole of the day goes mere.

System, law and order is made for them to hear.

We believe they will increase their attitude for us to care.

So that we can get an increase in our social welfare.
