

Bangladesh: A poetic briefing on Bureaucrats

Pre-election politicians are busy for people to please.

Post-election politicians are not ashamed to make the door cease.

People are asking what happened to our cheese?

Politicians are responding they are growing on trees.

Bureaucrats like everything to seize.

To business, bureaucrats do not care to tease.

Bureaucrats are reluctant for the file to release.

Clients keep talking with bureaucrats to please.

Bureaucrats unethically kept file in a fridge to freeze.

Bureaucrats are busy to make the file and filing.

They don't care about people's life and living.

Bureaucrats look for the right way to do the things,

But they are not doing any right things.

Businessman would like to plant a garden of rose,

But for keeps and bribes bureaucrats behave with a pose.

Livestock farm submitted a file for moose,

Relevant bureaucrats kept keeping up their nose.

The farms would propose to grow something as they choose,

But bureaucrats are reluctant with their character of loose.
