

Bangladesh: A poetic briefing on Democracy

Most of the countries are running democratically.

In the name of democracy, Bangladesh is running autocratically.

Government doesn't care how it is discussed critically.

People like to do things voluntarily and independently.

Possibly, we will achieve all these gradually.

People do not want to do things forcibly.

Doing things democratically, we do not suffer involuntarily.

Justice in business given by democracy,

But business gets complicated by bureaucracy.

Autocracy makes the business lousy and lazy,

Bureaucracy makes the whole economy drowsy.

To ease the business by democracy, we are very busy.

In democracy, our life can go very easy.

A fair democracy for development would be very touchy,

Bureaucrats make the activity very fuzzy.

Under democracy, we make our life cozy,

But bureaucrats keep us full time crazy.
